WHEN BULGANIN STOOD NEXT TO STALIN—This picture was taken in the reviewing stand on Moscow's Aviation Day in July of 1951, less than four years ago, and the left to right was Nikolai Bulganin, Joseph Stalin, Lavrenti Beria and Georgi Malenkov. On February 8, 1955, Bulganin is the new Prime Minister of Soviet Russia, Stalin has been dead almost two years, Beria has been executed and Malenkov has resigned as Prime Minister. (AP Wirephoto)

AS SOVIET POWER CHANGED HANDS—This was the scene Tuesday in Supreme Soviet in Moscow just after Nikolai Bulganin was elected Soviet premier to replace Georgi Malenkov, who resigned. Identifiable in the Soviet hierarchy are, front row, left to right: Lazar M. Kaganovich; Bulganin; Nikita S. Khrushchev; Georgi Malenkov and Klementi Voroshilov. In second row at far right is A. I. Mikoyan. (AP Wirephoto by radio from Moscow via London)

China Is Enigma to Malenkov

Bulganin Once Visited in Peiping

(James D. White was Peiping correspondent for the Associated Press from 1936 through 1941 and later was in Washington. He's now in San Francisco, where he wrote interpretive columns on the Far East following World War 2. San Francisco is where news of the Pacific is funneled into the country.)

By JAMES D. WHITE
Associated Press Staff Writer

The Soviet shakeup is likely to make Red China bolder than ever.

Georgi Malenkov, as Russian premier, stood for a "coexistence" policy which inhibited Red Chinese adventures from the end of the Korean War until recently.

Malenkov had no experience with the Chinese aside from his contacts with them in Moscow. On the other hand, Marshal Nikolai Bulganin, his successor, paid an extended visit to Peiping several months ago. With him was Nikita Khrushchev, the first secretary of the Russian Communist Party who looms as the big man in Russia.

FOREIGN MINISTER Molotov also has spent time in Peiping. His remarks on nuclear warfare yesterday tended to overshadow another new element in Soviet policy. This was his unqualified support for Red China's claim to Formosa. Russian support previously had been lukewarm.

Bulganin has a reputation among Asians as the first prominent Soviet figure to display a marked interest in Chinese possibilities since Russia pulled out of China in 1927. This dates back to a speech he reportedly made at Komsomolsk in eastern Siberia in 1946, when he outlined a policy of developing Chinese Communist strength and proclaiming, in 1952, a joint Sino-Soviet "Eurasian Monroe Doctrine" to tell the rest of the world to keep its hands off both Europe and Asia. It didn't work out, but it fits with known ambitions of both powers.

ON MY DESK for the past month has been an unconfirmed report from Asia indicating that under Malenkov's coexistence policy the Russians had developed serious differences with Peiping over Formosa.

The report says that up to last summer the Chinese had been demanding arms and material, including submarines and jet planes, to support a 300,000-man invasion of Formosa before the end of 1954. The Russians disagreed on the timing and on the Chinese strategy which, in Russian opinion, would inevitably involve a fight with the U. S. 7th Fleet. They hedged, and proposed an invasion for the spring of 1957. The report concludes that by Octo-

Americans See Malenkov Doom

Officials Think Erasure Only Matter Of Time, Despite Present Indications

Washington, Feb. 9 (AP)—Some American officials who study the ways of the Kremlin believe that Georgi Malenkov, who lost his job yesterday, is destined also to lose his life.

They hold to this view despite surface indications from Moscow that the resigned premier remains on good terms with Soviet rulers and plans to take on another government post.

These officials see it as only a question of time until Malenkov is done away with. This would be in the tradition of Joseph Stalin, whose way of doing things apparently is back in vogue in the Kremlin.

The struggle for Stalin's mantle goes on just the same, as American sources see it. They figure Nikita S. Khrushchev, the tough Ukrainian Bolshevik, is the No. 1 man in the Kremlin. Nikolai Bulganin, named to succeed Malenkov as premier, is regarded as a figurehead.

But this does not mean U. S. officials consider the power struggle over.

They expect old Bolsheviks like Foreign Minister V. M. Molotov and L. M. Kaganovich to stay in the arena.

But Khrushchev, who teamed with Malenkov to purge Police Chief Lavrenty P. Beria in June 1953, is considered now to have the upper hand.

Malenkov is expected to disappear politically and physically in the Stalin tradition. No repetition is expected of the bulldozing way in which Beria was liquidated.

Stalin's way was more subtle: Hang a wrap on him—in Malenkov's case, it was confessed "inexperience" leading to failure to cope with the farm problem. Put him to work at odd jobs until the heat cools. Then erase him.

Approval Is Unanimous At Session

Malenkov Is Given Another Duty

Moscow, Feb. 9 (AP)—Georgi K. Zhukov, top Soviet military hero and a warm wartime acquaintance of President Eisenhower, was appointed the new defense minister of the Soviet Union today.

Immediately after the announcement, the Supreme Soviet (Parliament) was informed that Georgi K. Malenkov, who resigned yesterday as premier, has been named a deputy premier and minister of power stations.

BOTH NOMINATIONS were made by the new premier, Nikolai A. Bulganin, until yesterday the defense minister. A marshal of the Soviet Union, Bulganin still wore his army uniform at today's meeting of this momentous Supreme Soviet session.

Bulganin, in his first speech as premier, pledged his government to work unswervingly to expand the Soviet Union's heavy industry in order to build up Soviet armed might and raise the country's living standards.

He spoke just before the appointments of Malenkov and Zhukov were announced.

Both appointments were unanimously approved by a show of hands of the 1,300-member Parliament's joint session in the great Kremlin Palace.

BULGANIN OCCUPIED the Defense Ministry post until this afternoon when he asked the Parliament to relieve him of the post in view of his assumption of the premiership.

Today's sessions spotlighted another outstanding Soviet war hero, Marshal Ivan S. Konev, who headed the tribunal that condemned Secret Police Chief L. P. Beria to death in December, 1953. In an address to the cheering Parliament, he asserted that the U.S.S.R.'s armed forces have "all kinds of weapons for the complete defeat of aggressors."

Zhukov's appointment to the Defense Ministry is another step in a profound shakeup of the Soviet government which now underscores the powerful influence of Nikita S. Khrushchev, first secretary—and boss—of the Communist party.

ZHUKOV HAS BEEN a first deputy minister of defense. He emerged to great prominence since the death of Stalin, after a period in virtual eclipse after the end of World War 2. During the war he came to know Eisenhower, then the Allied supreme commander in Europe. Both men have in the past spoken warmly of each other's qualities of leadership. A glittering hero of Berlin, Zhukov is known and respected throughout the Soviet Union and his name is well known throughout the non-Communist world. He has been considered a rising influence in the Soviet Union ever since the death of Stalin.

As for Malenkov, it was noted that his new ministry is a rather minor post for a man who had occupied such eminence. But on the other hand, the Soviet Union is engaged in a vast electrification program which could lend to Malenkov's new ministry more importance than it otherwise might hold. He demonstrated his ability with business affairs just after the war. Malenkov was in charge of a vast program of reconstruc-

C of C Aid Is Accorded City's Move

Re-Assessment Is Held to Be Valid

Strong support for the mayor's proposal for a city-wide property re-assessment for tax purposes came today from the Kingston Area Chamber of Commerce.

This action, taken at the regular meeting of the board of directors Tuesday night, was announced by J. Ellis Briggs, president of the Chamber. It followed a recommendation made by the tax committee of which Arthur B. Ewig is the chairman.

The resolution adopted unanimously commended the mayor for facing the re-assessment problem in his annual message and recommended that action be taken to bring about a fair and equable re-appraisal of all properties for tax purposes. The motion also suggested thorough consideration of the employment of an outside qualified appraisal firm to make the study and reassessment and offered the co-operation and support of the Kingston Area Chamber of Commerce to accomplish the desired result.

THE CHAMBER BOARD of directors had a very busy, well-attended session. The board will be represented at the New York Central Railroad meeting in

Jewels Are Stolen

New York, Feb. 9 (AP)—Theft of almost $50,000 worth of jewels and furs from a room at the Hotel Roosevelt was reported by police today. The room of Mr. and Mrs. Edward R. Odum, of Orange, Tex., was burglarized yesterday while they were out. Police said the loot included a $27,000 diamond necklace, a $15,000 diamond and ruby bracelet, other pieces of jewelry and a $1,500 mink cape. Detectives said there was no sign of forced entry to the room and they believed a pass key might have been used.

Leaders Closer To Agreement on AFL-CIO Merger

Miami Beach, Fla., Feb. 9 (AP)—AFL and CIO leaders moved closer to agreement today on plans to merge their big labor federations.

Three-man subcommittees representing the rival union groups arranged to meet for two hours to try to iron out a detailed agreement to present to larger 10-man AFL and CIO merger delegations.

It appeared that the subcommittees had hammered out a tentative solution to the long-standing problem of preventing one union from invading the organized membership of another union.

HOWEVER, the six subcommittee members maintained silence on what their agreement may be and said only in a joint announcement that "we feel that constructive progress in the direction of a better understanding was achieved."

The main barrier was the CIO's insistence as a precondition for a merger that the proposed 15-million-member federation have powers to stop unions from seizing members already organized by other unions.

THE CIO WAS particularly concerned since its union broke away from the AFL two decades ago on substantially the same issue. The CIO wanted renewed assurance that it could organize entire plants and that AFL unions would not later try to get particular groups of workers, such as carpenters, drivers or other skilled workmen, to shift allegiance to rival AFL unions.

AFL President George Meany was reported to have contended in the closed door merger talks that while he could not provide an ironclad pledge against union "raiding," he was willing to agree that union territorial invasions could be strongly dealt with under the proposed new setup.

The CIO leaders, headed by President Walter Reuther, sought more binding authority to stop the "raiding" practice and to assure the CIO a more secure place in the merged setup. The AFL now has an estimated 10,000,000 compared with the CIO's 5,000,000.

Red Batteries Down U.S. Plane

Taipei, Formosa, Feb. 9 (AP)—Communist antiaircraft batteries today shot down a U. S. Navy AD Skyraider in the first serious incident reported in the Tachen Islands evacuation of Chinese Nationalists.

The navy said the carrier-based plane had "misnavigated" and possibly had flown over the Red Chinese mainland. The pilot ditched four miles west of the Tachens. He and two crew members were picked up by a Nationalist minesweeper. They suffered only minor cuts and bruises.

An officer aboard the amphibious flagship U.S.S. Estes said the navy does not consider the incident "a hostile act" because "the AD apparently made too wide a turn and was off-limits."

The pilot was Lt. (j.g.) W. J. O'Heren of Decatur, Ill., and Coronado, Calif. His crewmen were Chief Aviation Technician A. J. Chelewski of Casper, Wyo., and Imperial Beach, Calif., and Aviation Machinist Mate R. E. Drennan of San Diego.

IN KEELUNG, a North Formosa port, four U. S. ships disgorged more than half of the 15,000 civilians being evacuated from the Tachens, 200 miles to the north. They were the first to arrive since the U. S. 7th Fleet moved in to cover the operation.

The American vessels were the transports Lenawee, Noble and Bexar, and the LST 1159.

Although the Reds made no direct move to interfere with the evacuation, it was plain they were manning their guns around the clock.

Yesterday they fired at three carrier-based U. S. planes which ventured too close to their batteries.

There were no reports of interference with the vessels taking the evacuees to a new life in Formosa.

THE ATTACK TRANSPORT U.S.S. Lenawee was the first American ship to dock. Its sister ship, the U.S.S. Henrice, was due later.

Refugees spilled ashore on the docks. Their faces mirrored homesickness for the bleak islands which the Red Chinese covet.

Behind them they left about 15,000 Nationalist troops and guerillas who blasted and burned defense works. The Communists

Pups and Horses Left to Suffer

During the recent cold weather numerous complaints have been received by Ray Winne, chief agent for the SPCA in Ulster county, and a special agent for the ASPCA of New York city, in regard to animals being left out in the cold without shelter. Many of these complaints have been investigated and situations corrected.

LAST WEEK while Moe Wilson of West Hurley was at the West Hurley dump on Route 28-a, he observed a bag lying on the dump move. On investigation he found the bag contained two puppies from eight to 10 days old which had been thrown on the dump to perish. Wilson notified Mr. Winne and an investigation is underway. The pups were taken to the SPCA shelter and cared for.

A week ago Winne was called to Saugerties to investigate a complaint that two horses en route from Canada had been in a horse truck for three days and three nights without proper care.

ON INVESTIGATING, it was learned the driver of the truck en route from Canada to New Jersey with the horses, had run out of money and was unable to secure gas to continue the trip. The horses were reported to be race horses valued at $2,500, and were owned by a Westchester man. The horses were taken to the James McCabe stables on Route 28 after gas

Eisenhower Sees Russia as Upset

Washington, Feb. 9 (AP)—President Eisenhower said today the shakeup in the Soviet high command reflects internal dissatisfaction in Russia.

The President told a news conference the shakeup will bring no change in basic United States policy aimed at achieving a just and lasting peace.

And, the President said, he does not believe the developments necessarily mean that Russia has launched on a calculated tougher policy toward the United States.

BUT, HE ADDED, the Russians will say anything which suits their purposes and the United States must remain alert.

Eisenhower recalled that he became acquainted with Marshal Georgi K. Zhukov during World War 2 and knew him as a competent soldier—a well trained military leader.

BUT EISENHOWER said he could scarcely interpret what the appointment of Zhukov as Soviet defense minister means so far as the possibility of world peace is concerned.

Most of the questions at the President's well attended news conference — there were 230 newsmen present — dealt with

Harriman's Office Says State Tax Load Is Not Out of Line With Other Sections

Albany, Feb. 9 (AP)—Gov. Harriman's office said again today that the tax burden in New York was "not out of line" with that in other states — despite discovery of figures showing New Yorkers paid more instead of less per capita state tax in 1953 than individuals in 31 other states.

The Democratic governor, in a speech in New York city Sunday, asserted that residents of New York paid less taxes per person than individuals in 31 of the 48 states.

He cited these figures in the middle of political controversy over his proposed record high $1,345,200,000 budget. The Harriman statement was published widely. An inquisitive newspaper editor asked for additional information.

Charles Van Devander, the governor's press secretary, said the Harriman figures were taken from the 1954-55 edition of the book of states, published by the council of state governments.

Van Devander cited tables indicating the 1951 state and local tax burden in each of the 48 states and the per capita share of general revenues in each state. Asked why 1951 figures were used, the press secretary said they "apparently" were the latest available.

But a check of the same book turned up a table indicating New Yorkers, on a per capita basis, had paid more—not less—state taxes in 1953 than did persons in 31 other states. Van Devander explained this table "had not been discovered at the time" the figures were furnished to the governor.

He added that the governor—in any event—was not trying to draw numerical comparisons with other states but to show that the tax burden in New York was "not out of line with those of other states."

In taking his "budget war" with Republican legislative leaders to the people, Harriman quoted other figures to support his position that his tax and budget demands were reasonable. He said:

1. In relation to income of its people, New York ranked 43rd in the collection of state taxes on the basis of percentage of in-

GOP Asks Corporation To Help Finance Industry

Albany, Feb. 9 (AP)—Republican lawmakers propose creation of a million-dollar New York business development corporation to help finance new industry with up to 10 million in loans.

A GOP program bill to set up a private agency—without public funds—for the job was introduced into the Legislature yesterday by Sen. Thomas F Campbell of Schenectady and Assemblyman Donald A. Campbell of Amsterdam.

THE DEVELOPMENT corporation would be empowered to borrow money from banks and insurance companies and lend it in turn to new industries and to existing business looking for capital to expand.

But no businessman could qualify for a loan unless he previously had been turned down by a bank or other lending institution.

The state corporation would be limited to capitalization of one million dollars, and it would be limited at first to a total of 10 million dollars in loans.

Although Gov. Harriman has proposed establishing such a corporation, his attiude toward the Republican measure — and the financial limits suggested—remained uncertain.

In a statement, the two Campbells declared:

"While careful analyses indicate that lack of credit has not been a major factor in the employment situation in our state, we believe that any sound program which can improve industrial and business conditions and thereby stimulate employment should be undertaken at once."

THE PROPOSED development corporation would operate

Rules Are Cited For Wool Money

Eligibility requirements for the new federal wool incentive payments were listed today by John S. Geary, chairman of the Ulster County Agricultural Stabilization and Conservation Committee, U. S. Department of Agriculture.

To be eligible for the payments, wool must have been sheared after Jan. 1, 1955, and marketed beginning April 1, he said. Incentive payments will also be made for wool on lambs or yearlings sold for slaughter on or after April 1 under the new wool program.

GEARY EXPLAINED that those wool producers who shear between Jan. 1 and April 1 and who want the wool to be eligible for the payments provided under the National Wool Act of 1954 must retain ownership of the wool until after April 1. It may be stored in a commercial, wool warehouse or consigned for future sale, but the owner must retain title during the period.

The incentive price is 62 cents a pound for shorn wool, grease basis, for the 1955 marketing year. If the national average price received by all producers falls below the incentive price, payments will be made to producers.

Further information as to requirements may be obtained by contacting H. T. Wurzinger, county office manager, at 54 John street, Kingston.

Think It Through

By EDWARD F. HUTTON

Fellow travelers and Communist bubble-gummers keep dropping poison in the well,—a drop here, and a drop there. Even in Sunday School!

Here is The Christian Century Foundation. It publishes "The 20th Century Quarterly" for Young People and Adults. It is used in Sunday School.

Mr. Hutton

For Sunday, November 28, 1954, this Quarterly was telling its Young People what it thought these Bible words meant: "He maketh wars to cease unto the end of the earth; he breaketh the bow, and cutteth the spear in sunder; he burneth the chariot in the fire . . . . Be still, and know that I am God." Psalm 46, 9-10.

The Quarterly said of this passage: "In effect, God is saying to us that we should stop our military defense and our armament, because He, and not the Russians, is back of the present revolution throughout the Orient."

What do you think of that? It does not represent the views of The Christian Century Foundation, I am glad to say. This poison was dropped in when they weren't looking, to influence Sunday School children all over the U. S. A.

But it surely proves that "eternal vigilance is the price of Liberty," even in our churches. Communist sympathizers are everywhere.

Neighbor, write your Congressman to "boot them out"!

Will Trade War Be Started? That's Question on Shakeup

New York, Feb. 9—The Russian political and economic shakeup—will it step up a trade war brewing between east and west?

American businessmen in recent weeks have noted signs that the Soviets were fishing more actively in international industrial waters.

Russian gold has been reported once more circulating in some west European markets.

India has been promised a Russian steel mill.

The shift in Russia to more emphasis on heavy industries—while primarily implying more military arms production—will be watched in American business circles for hints the Russians want to wage economic war first.

AMERICAN BUSINESS hasn't worried too much about Russian competition, since our industrial production capacity is far greater. But in some lines the rate of increase in Russian capacity has been greater than ours in recent years, although they are no where near closing the gap. The interesting things to watch will be:

1. How Russia uses the increased capacity—whether for home consumption or for world trade. Example: Although Soviet steel production is little more than a third that of the United States, and is badly needed by the Russians themselves, Moscow finds political reasons for exporting materials and technicians to India to build a steel mill there.

2. Whether Russia dangles the lure of trade to coax other countries into its orbit—as some in the United States are fearful the Russians and Chinese are doing right now in Japan.

WHILE RUSSIA finds few outsiders interested in takings its rubles in return for their goods, Russia has a large store of gold—how much is a secret, as are most of the economic facts of life behing the Iron Curtain—and Russia is supposed to mine sizeable quantities of new gold each year.

From time to time this gold appears in west European markets. The British took quite a bit of it a few months ago, building up their reserves that way, while shipping the Russians some products they wanted.

Russian deals with its Scandinavian neighbors are currently reported being financed by new gold.

The big shakeup in Russia could bring a change in its trade policy, an urge to win economically as well as just to cause political trouble whereever it can.

Remember the Communist philosophy has always been that if the American economy can be upset, whether from within or without, and another depression brought on then communism will have won the cold war.

The new Russian leaders may put more emphasis on the economic side of that continuing war.

Leopard on the Phone

Philadelphia (AP)—A zoo night watchman Mark Mooney got the answer when a black leopard cub used the telephone. A light flashed on Mooney's telephone switchboard but no one answered to his "yes please!" Burglars, decided Mooney, in curator Fred Ulmer's office. Mooney, pistol in hand, went to the office and found the leopard, bedded down in the office to convalesce from a touch of sickness, had knocked over the telephone in wandering about the room.

Quakes Discouraged

Dallas, Tex. (AP)—Texas' only seismograph station at Southern Methodist University campus records about two earthquakes per day, marking their intensity with a wavy line which jumps sharply when a sharp tremblor is recorded. It would average more if some of the students had their way, according to Prof. John Harrington, supervisor of the station. Harrington says it is virtually a full-time job shooing off would-be earthquake-makers who shake the machine to make it jump.

Missionary Is Guest At West Camp Church

Saugerties, Feb. 8—The Rev. Howard Lenhardt of Pearl River, field missionary of the New York and New England Synod, served as guest preacher at the worship service at St. Paul's Evangelical Lutheran Church of West Camp on Sunday.

The Rev. Mr. Lenhardt's sermon topic was entitled, How Much Do I Get? The musical portion of the service included the organ prelude entitled Morning Sun by Ashford and the postlude, by LeFebrue Wely both rendered by organist Mrs. Roy J. Potts.

In observance of Boy Scout Sunday four Scouts of the congregation served as ushers for the occasion. They were Eugene Lang and Deiter Rosenow, both of Explorer Post 130, VFW and William Knaust and Robert Lewis both of Boy Scout Troop 33, sponsored by the church.

During the vacancy of the pastorate at West Camp the Synod is supplying guest preachers each Sunday. The Rev. Mr. Lenhardt was the first of these following the vacancy created by the call of the Rev. Henry M. Schumann to a mission congregation in Arlington, Va.

Let Freedom Ring New Cub Scouting Theme

Saugerties, Feb. 8—Let Freedom Ring will be the Cub Scouting theme of the month for February according to an announcement of the commissioner's staff of the Saugerties District.

This month Scouting celebrates its 45th birthday. Cub Scout Packs across the nation during this month will be staging traditional blue and gold banquets and parties in conjunction with their regular monthly pack meetings.

The Let Freedom Ring theme gives the unit leaders the opportunity to emphasize with the Cub Scouts what freedom really means.

Tying in naturally with the theme is the theme for National Boy Scout Week which we are entering—Building for a Better Tomorrow. Leaders will work the Scout Week theme and story into the February program.

Many of the Cub Packs will plan trips to places honoring people who have fought for freedom in America, not only in war but also in civil life. The stories of a Valley Forge, Washington, Benjamin Franklin, Abraham Lincoln, George Washington Carver and Thomas Edison will be told and read at den meetings throughout the month.

Plans will be made for trips to village board meetings and to see other public bodies in session.

Many of the local Cub Packs are planning blue and gold banquets for the February pack meeting. Cub Pack 38, Saugerties Reformed Church, is planning a blue and gold pot luck supper in the church parish hall on Wednesday, Feb. 23.

Cub Pack 130, VFW, will hold its blue and gold banquet on Washington's Birthday, Feb. 22, at which time a turkey supper will be served in the VFW Hall.

Cub Pack 32, Atonement Lutheran Church, also announced a blue and gold banquet to be held in the church meeting rooms on Thursday, Feb. 24.

Cub Pack 36, St. Mary's Church, has also scheduled a blue and gold banquet for its regular monthly pack meeting.

In preparation for the banquets the dens will make centerpieces, favors, place-cards and other table decorations. Some will feature the great men of February.

This will be the occasion for an extra special ceremony for the Webelos and graduating Cub Scouts. Leaders and friends who have helped throughout the year will be honored. Also on the programs of the Pack meetings will be studies of a great freedom-loving American in pantomime with proper costumes and props.

Many of the packs will feature a large birthday cake commemorating the 45th anniversary of Scouting on their banquet tables.

In Saugerties the Cub Scouts with the Boy Scouts and Explorers are participating in a joint celebration, the Saugerties District Rally to be held Wednesday at 7:30 p. m., in the municipal auditorium. All the cub scouting units in the district will offer some form of presentation as part of their contribution to the program. As part of the special local observance the Cub Packs will also display some of their handicraft and exhibits in local store windows.

SIX-YEAR-OLD BILLY JENNINGS OF TRUMBULL, CONN., is the 1955 National Easter Seal Child of the National Society for Crippled Children and Adults. Born with a congenital spinal defect, he wears braces and uses crutches. He is photographed as he walks into the Easter Seal Center in Bridgeport where he receives treatment and training. Billy typifies 100,000 crippled children across the nation who are receiving services underwritten by Easter Seal contributions. The 1955 Easter Seal campaign opens March 10 and continues through Easter Sunday, April 10.

Discrimination by Lake

Ann Arbor, Mich. (AP)—A Cornell University professor says the waters of Lake Huron sweep the Michigan shore clean and carry plant food to Canadian fish. Associate Prof. John C. Ayers, oceanographer at Cornell, gave the results of the University of Michigan's Great Lakes Research Institute study which he headed. It was the first comprehensive survey of any of the Great Lakes. Because of the water currents, Ayers said, fish on the Canadian side of Lake Huron are better fed than those on the Michigan side.

Famous Trichologist Tells Truth About Saving And Improving Hair

This new method of home treatment for saving and growing thicker hair will be demonstrated in Kingston, N. Y., Thursday only, Feb. 10, 1955.

These private individual demonstrations will be held at the Governor Clinton Hotel on Thursday only, Feb. 10, 2 p. m. till 9 p. m.

OKLAHOMA CITY, Feb. 7 — In an interview here today D. Russell Collins, internationally famous trichologist and director of the Collins Hair and Scalp Experts, Inc., said "There are 18 different scalp disorders that cause most men and women to lose hair. Using common sense, a person must realize no one tonic or so-called cure-all could correct all the disorders," he explained.

GUARANTEED

"The Collins firm, recognizing that most people are skeptical of claims that hair can be grown on balding heads, offers a guarantee," Collins said.

Once a person avails themselves to the Collins treatment his skepticism immediately disappears. To insure this, we offer this guarantee. "If you are not completely satisfied with your hair progress in the very first 30 days your money will be returned."

HOPELESS CASES DISCOURAGED

First the Collins specialists are quick to tell hopeless cases that they cannot be helped. But the "hopeless" cases are few. Only if a man is completely, shiny bald is he in this lost category.

If there is fuzz, no matter how light, thin, or colorless, the Collins firm can perform wonders.

Everyone is given a complete private examination to determine the condition of his scalp, and cause for his hair trouble.

FREE EXAMINATIONS

This examination is very thorough and highly technical, it requires 20 to 30 minutes. There is no charge for this examination and no appointment is necessary. After the examination he is told the required length of treatment and how much it will cost.

After starting treatment, he makes regular reports to the Collins firm in Oklahoma City, and a trichologist will return to check his progress periodically.

To spread the opportunity of normal, healthy hair to the thousands who are desperately looking for help, the Collins firm is sending specialists to various cities throughout the United States to conduct examinations and start home treatment.

NO CUREALL

"We have no cure-all for slick, shiny baldness," Collins emphasizes. "If there is fuzz, the root is still capable of creating hair and we can perform what seems to me a miracle.

There is one thing Collins wants to be certain every man and woman knows. If a recession appears at the temples or a spot begins to show up on the crown of the head, there is something wrong and it should be given immediate attention.

HAIR FOR LIFETIME

"If clients follow our directions during treatment, and after they finish the course, there is no reason why they will not have hair all the rest of their lives," Collins said. "Our firm is definitely behind this treatment, it all depends on the individual client's faithful observation of a few simple rules.

HOW'S YOUR HAIR

If it worries you call Trichologist Domminic Benvenuto at the Governor Clinton Hotel in Kingston, New York on Thursday only, Feb. 10, 2 p. m. till 9 p. m. The public is invited. You do not need an appointment. The examinations are private and you will not be embarrassed or obligated in any way.

KINGSTON, NEW YORK, FEBRUARY 9, 1955

POSSIBILITIES FOR KINGSTON POINT

Proximity of Stony Point to the New York State Thruway, and its locale as a riverfront, form the basis for a multi-million dollar plant there by one of the nation's leading manufacturers of building materials.

We are mentioning the fact, because Kingston has a strong potential as a river port, with a bright future for industrial progress if proper steps are taken.

There is no indication at present that private enterprise is concerned, as is the case at Stony Point, where United States Gypsum Company is prepared to make its tremendous investment; therefore, the City itself might do well to contemplate action.

Well formulated plans are the grounds for great accomplishments in any field of endeavor, and, there could be no greater enterprise than promoting the welfare of the Community in which we live.

In the case of Stony Point, the gypsum company sees the great possibilities of using both the Thruway and the Hudson river to receive and route its building materials to the building and commercial centers of the world.

The Thruway is a reality for the most part, and the firm's trucks can carry its products on the lengthy ribbon of concrete to many destinations.

A bill in Congress calls for deepening the Hudson, which would permit large ocean-going ships to unload cargoes of raw materials, and take on gypsum products for world markets.

This is all in line with a flourishing west side of the Hudson river, and Kingston might as well realize now that it must start now to look to the future, if we are to grow and prosper.

We boast about being the first Capital of the Empire State, let's be alert to the trend of the times and bid for the name of being the metropolis of mid-Hudson trade.

One locale that could be developed is Kingston Point, the abandoned playground of yesteryear with prospects of being turned into a gigantic river-port. It has the expanse and physical attributes for becoming the greatest port between Albany and New York—with forethought and planning, of course.

The Point is right on the Hudson river, and not too far from the Thruway, the same as Stony Point.

Swampland, surrounding the old amusement area, could be reclaimed through land-fill methods, enlarging the site and thus enhance its value for any purpose that might fit in with the great west side boom on the Hudson river.

The time for action is now. We must not be skeptics, falling in line with those who, years ago advanced the old bunk that someone or some interests were keeping business out of the community. Let's deviate from those falacies, put our minds to planning and our shoulders to the wheel for progress. It's coming, and Kingston might as well be the city leading the parade.

WHERE TAXES ARE HIGH

Persons affected are constantly dinning into the rest of us the cruelty of our present tax rates. It might almost be thought that taxes left no money with which to eat.

To all such people the reply should be made, "You ain't seen nothing yet." It is announced that in Breat Britain only 35 individuals have incomes of more than $16,800 after paying taxes for the fiscal years 1952-53. To keep that much a single person would have to earn more than $140,000. If he earned as much as $42,000 annually, a surtax would take 19 shillings out of every pound, or in our money $2.66 out of every $2.80.

That, brothers, is taxation. What do we know about it?

Traffic enforcement is big business. Chief City Magistrate John M. Murtagh of New York City announces that in 1954 the city collected $8,721,325 for driving offenses. It managed to collect 95 per cent of the fines levied, a remarkable record. The best any other city reported it could do was 70 per cent.

THE INTELLECTUALS

It used to be that Americans were just Americans. That was before we became so class conscious that we want labels to describe ourselves as different from others. It is difficult to define those who call themselves intellectuals. For instance, Dr. J. B. Matthews whom the intellectuals describe as an anti-intellectual has as many degrees from a variety of universities as his adversaries; he has worked in 17 languages which is an accomplishment for any learned man; he translated the Methodist hymnal into Malayan; he worked as a geographical researcher in Africa. Does all that make him an intellectual or just a scholar?

I cite him as an example as one who cannot be described as a man without learning; yet the intellectuals would deny him their title. Professor Lionel Trilling explains the situation of the American intellectual as follows:

"It is certainly true that in recent years—say the last ten—American intellectuals have considerably, even radically, revised their attitude toward America. It is no longer the case, as it once used to be, that an avowed aloofness from national feeling is the young intellectual's first ceremonial step into the life of thought."

Why was it ever, if it is not now so, that the American intellectual asserted his intellectualism by an antagonism to American nationalism which is the summa of American tradition and history? Why was this country so unsatisfactory to the intellectual? What had it done to annoy him? Professor Trilling's exlanation may be correct. He says:

"A prime reason for the change in the American intellectual's attitude toward his nation is of course America's new relation with the other nations of the world. Even the most disaffected American intellectual must nowadays respond, if only in the way of personal interestedness, to the growing isolation of his country amid the hostility which is directed against it. He has become aware of the virtual uniqueness of American security and well-being, and, at the same time, of the danger in which they stand. Perhaps for the first time in his life, he has associated his native land with the not inconsiderable advantages of a whole skin, a full stomach, and the right to wag his tongue as he pleases. . . ."

The right "to wag his tongue" as he pleases has always been anyone's right here. Are we to believe that these great mentalities who call themselves intellectuals did not realize their privilege until recently? Did they know anything about their own country or were they dreamers of "the ideal of the bright cosmopolis of artists and thinkers, usually localized in Paris" or in Moseow?

In a country of low literacy and class differences, the man who can read and write stands out as separate from the rest of the population. He is a man of distinction. In the Middle Ages in Europe, he usually entered the Church. He became a clerk. The Church offered the democratic way for advancement because a lowly cleric could rise to high position by sheer ability in a class-conscious society. In a country like China where th written word was cherished, those who passed the Civil Service because they could read the classics and write poetry could rise in government service. A Hanlin scholar, something like our Ph.D.'s but more so, cut a very significant figure. All doors were open to his advancement and if he added common sense to his scholarship, no office was closed to him.

The advance of technology added to craftsmanship altered the attitude of men toward the scholar and equalized him with others who might not be so literate. Thomas Edison, for instance, had no schooling, no Ph.D., could not have been qualified by any university to teach physics but he produced a civilization by the application of physical science to commodities of living. The same was true of countless men in different fields.

In the eyes of the American people, these untutored men gained a currency as noble as that of a scholar who compared Sanscrit roots with Greek roots and came up with a racial theory that in a century exploded in the ideas of Hitler and Rosenberg. The printed word seemed no nobler than the electric light bulb. And we paid better wages to those who made the motion picture machine flicker. Mere scholarship suffered in public esteem in an era which substituted pragmatism for moral absolutes.

That Body of Yours

By JAMES W. BARTON, M.D.

MEDICINE IN THE JUNGLE

Dr. Albert Schweitzer, thought by thousands to be one of the greatest men in moden history, opened a hospital in the jungle in French Equatorial Africa over 50 years ago, in 1913, which he has maintained, with improvements, ever since. Besides being a great lover of humanity, he is one of the greatest musical geniuses in the world. In a recent article in the Journal of the American Medical Association entitled "Medicine in the Jungle" he gives us a few glances of life in his hospital near the shores of the Ogowe River in Africa, in jungle country.

"A physician in the colonies must be a surgeon. This alone makes it possible for him to help many patients as it gains for him the trust and confidence of the natives who are inclined to regard as helpful the powders and solutions given them by their fetish doctors but they soon realize that the white physician is superior to his fetish doctor when it is learned that the white doctor knows how to bring about cure with a knife.....

"We also do a considerable amount of work delivering babies. In early days the births were directed by old women who often resorted to quite senseless procedures in difficult cases but as time went on the younger women were able to assert themselves to the extent that, when a delivery did not progress normally. I would be called but frequently this would be done only after the old women had tried their dangerous arts and I tried to persuade the young women to come to the hospital for the birth. The resistance on the part of the old women was great but I could master this situation in a very simple manner without many words. Every baby who was born in the hospital was dressed up in a pretty little shirt and a pretty little bonnet and when the mother returned to the village, she was permitted to take along both these garments. Among the natives the new-born baby wears nothing for many months and great was the admiration for these little shirts and bonnets which are still being given to all babies born in hospital."

Another interesting point is that the hospital patients do not receive their food already prepared but are given bananas, manioc, rice, salt, dried fish, which they cook themselves on wood fires from wood available in the surrounding jungle, (these are patients who are up and about, of course).

Dr. Schweitzer expressed his thanks to his American friends for the help he received from them. "The first shipment of medicines from America I received during the middle-period of the Second World War came when the containers in my pharmacy had become empty and I also did not know how to pay for the food required by the patients. It was due to American aid that my hospital could continue to operate after I had been cut off from connections with Europe!"

"I Don't Care Who Designed It—I Don't Like It"

Edson's Washington News Notebook

By PETER EDSON
NEA Washington Correspondent

Washington (NEA) — Among the Eisenhower programs not fully explained in the President's budget message, the item of federal aid for school construction is left suspended highest in the air.

The President has promised a special message on the issue from Secretary Oveta Culp Hobby's Department of Health, Education and Welfare by mid-February. The President also has his White House Conference on Education coming up next November. He doesn't want the one to cramp or cripple the other.

In the meantime, several bills to provide federal financial aid to the states for school construction have been introduced in Congress. There is some indication that the Congress may cut short hearings and write its own ticket on this subject without waiting for a White House plan.

The problem the Eisenhower administration is trying to solve is how to aid school construction without increasing government spending or the national debt. This isn't to be just a hatful of dollars handed to the states for free.

NELSON A. ROCKEFELLER former undersecretary of DHEW and now a White House assistant, has headed most of the planning on this project. One idea has been to create an "Educational Authority" to insure bonds issued by state or local authorities to finance school construction.

All sorts of objections have been raised to this. It would create new agencies overlapping State Boards of Education, and would be fought by them. Also, it is too much like the proposal to issue bonds to finance new Tennessee Valley Authority power plants and the Eisenhower $100 billion road-building program.

Only two states—Pennsylvania and Georgia—now have such local school financial authorities. Wisconsin courts have ruled a school authority unconstitutional there.

Pennsylvania has found that while its state school bonds might be marketed at under 3 per cent interest, local governments with lower taxing authority and no financial reserves might have to pay nearly 5 per cent.

Even if such school authority plan as this was adopted now, with an initial $25 million or $50 million to get going, it could not produce one new schoolroom by fall.

IMPATIENT OVER THE DELAYS already encountered in getting more schools built faster, congressional advocates of federal aid to education have begun to take things into their own hands.

Sen. Lister Hill (D.-Ala.) has proposed a two-year, $500 million crash program of federal aid to the states for school construction. The aid would be apportioned so that the largest amounts would go to the states with the lowest income.

The formula would involve the number of school children aged five to 17 in each state, and the state's per capita income. Mississippi might get $15 per pupil on this basis, and New York might get only $5.

Senators Irving Ives (R.-N. Y.) and Hubert Humphrey (D.-Minn.) with Representatives Carroll Kearns (D.-Pa.) and Cleveland Bailey (D.-W. Va.) sponsored a bill that would make flat federal grants to states that matched these grants with local funds.

Sen. John L. McClellan (D.-Ark.) has a bill which would give a better break to the southern states and protect their system of segregated education. This is perhaps the thorniest issue of the whole aid to education program.

IF SCHOOL AID BILLS ARE passed before the Supreme Court hands down its final decision on segregation, there may be no problem. But a rider on any aid to education bill, prohibiting funds that maintained segregated schools, would certainly kill the program deader than a dodo.

This in spite of the fact that the U. S. schoolroom shortage is appalling. In 1951 state and federal governments spent $4 million for a survey. It showed that at the start of the school year in the fall of 1952, the country would need 312,000 more schoolrooms just to make up for schools not built during the war.

Since then two million more youngsters have been added to the school population in 1953 and 1954. The need now is 340,000 schoolrooms, with no allowance for overcrowding or obsolescence.

U. S. Office of Education, under Dr. Samuel M. Brownell, is supposed to be sitting on a new report, projecting the 1951 survey up to 1960. It is reported to indicate a need for 600,000 more classrooms by that year.

Complete land, construction and equipment costs are now estimated at from $30,000 to $35,000 for each new schoolroom. That would mean an outlay of $10 billion to $12 billion to take care of today's needs and $18 billion to $21 billion by 1960.

Whether the states can finance half of this is doubtful.

Lighter Luggage

New luggage designed for modern travel is made of magnesium and covered in vinyl, available in six colors including brown and white. Inner fittings have waterproof linings, plastic hangers and packing rods. The manufacturers report the new metal lightens the luggage by 25 per cent. Magnesium obtained from sea water is available in the amount of about 4,500,000 tons to one cubic mile of seawater.

Today in Washington

Soviet Internal Trouble Is Given as Cause of Enforced Resignation by Malenkov

By DAVID LAWRENCE

Washington, Feb. 9—Internal trouble in Soviet Russia rather than external policy is back of the forced resignation of Premier Malenkov. Every bit of evidence for many weeks has pointed that way.

The news was not a surprise to any of the persons in this country who constantly study the trends inside Soviet Russia. The question has not been whether the Malenkov regime could last but how soon it would be terminated from within.

The picture presented to the world is not that of a parliament or an electorate changing rulers but the secret maneuvers of a little clique of men who name a new dictator from their own number.

The sorry spectacle of a deposed premier proclaiming submissively, at the behest of a clique, that he has been guilty of inefficiency is one that could happen only in an oligarchy, where the people are not permitted to express themselves and where death faces the top man if he doesn't do the bidding of the group.

Will it mean peace or war? This question cannot be answered even by the coterie of men who call themselves rulers in Moscow. For the fact is that Soviet Russia isn't producing enough food for her growing population and the men in command know their tenure will be short-lived unless the food crisis is solved. In desperation—and in an effort to consolidate the people by arousing their patriotism—there could be a move made that would threaten world peace. But experience has shown that during World War 1 when the army really got concerned about internal affairs and a revolution occurred, a separate peace with the enemy was made despite all the patriotic appeals.

So the present rulers face the danger that, if they try to capitalize on the crisis, they may bring about their own undoing.

The chances are that the circumstances which forced Malenkov out of office have to do with the long-range planning of the Communist party leaders who have been trying to apply their socialistic doctrine. They have been defeated thus far by the workings of human nature—the refusal of the peasants to produce food for others when they cannot make a livelihood themselves.

The frequency with which the word "agriculture" is used in the statements and addresses attending the ouster of Malenkov and his own emphasis on his lack of success in that direction serves to confirm the belief that internal troubles have been growing rather than diminishing inside Russia.

With such an unrest developing, the efforts of the politburo will be concentrated on preventing any new problems from arising—such as a new war in the Far East—which could put an extra drain on the already strained Soviet economy.

The coincidence of the dismissal of Malenkov and the boastful statement by Foreign Minister Molotov that Soviet Russia is far ahead of the United States in hydrogen-bomb development cannot be overlooked. The Soviet Committee which planned the firing of Malenkov knew it would be regarded by the world as a sign of weakness, and they prepared what might be called an anticipatory rebuttal.

But this version of the change which the Politburo has just made will not be accepted throughout the world and least of all in the areas bordering on the Soviet Union. Inside Poland, Czechoslovakia, Rumania, Bulgaria, Hungary, and the Baltic countries the people will know that a premier has been dismissed. They will suspect weakness. There may even be food riots and uprisings soon in East Germany that could spread to the other satellite states. Chancellor Adenauer points significantly to the futility of trying to do business with the Moscow clique. It ought to be a lesson to those who keep advocating "international conferences" and high-level meetings with evil men.

So the setup is not one that spells strength. Rather it indicates an internal weakness which may lead to other changes in the top-command group. For always, in a committee form of government, where the people have no voice, the struggle for personal power is never ending.

The situation will not jell in Moscow for some time, and it will not be possible to know what new policies may ensue to annoy, if not threaten, the western world with a new program of bluff.

Obviously the advocates here of more rather than less armament and more inflation through unbalanced budgets will continue to try to scare the Congress into voting bigger appropriations. But the trouble in Moscow, if anything, vindicates the judgment of President Eisenhower, who is making the armament budget fit the realities of today. This means a firm reliance on nuclear power to prevent any big war from happening and a steady pressure of potential resistance in areas like the Far East to keep a local situation from growing into a major war. Some day the Politburo itself will be overthrown and there will be real peace in the world.

AS PEGLER SEES IT

By WESTBROOK PEGLER

A few months ago Lewis Douglas, the Arizona banker and Democratic politician, officiated at a phony investiture at the political hive called Freedom House in New York in which a piece of junk was handed to Egbert R. Murrow, the radio-television propagandist. The purpose of this hassle was not to "honor" Murrow, who has never done anything to merit any "award," even from Freedom House, which has no standing as a cultural or patriotic institution, but to dishonor Joe McCarthy.

Lew was photographed standing there with Murrow and Herbert Bayard Swope, an inveterate hanger-on at race tracks and a press-agent of such pomposity that he bills himself as a "policy consultant."

Like Tex Rickard, Swope has made a career of hanging around big people on the theory that a man who does that can rub off some big onto himself. I can admit that he got very swollen and latched onto some lucrative clients of his press-agentry or policy-consultancy, the latest of public note being one of the harness parks in New York which has him down for $37,000 a year for what possible service, other than political, I cannot conjure.

Lew Douglas was our ambassador in London under Truman where, I understand, he opposed their descent into socialism at our expense but with no success against the extravagance of Paul Hoffman, always a fast man with the other fellow's buck.

Lew has a ranch down near Sonoita, close to Fort Huachuca, and a business office on the second floor of his bank in Tucson.

I had challenged his qualifications and Herbie Swope's to hang any medals on anyone and this business had carried over because Lew came down of the gripes in his tripes and got latched up in the same hospital where Joe E. Lewis was having some basting done, too.

The morning that Joe went in I was there to see him through the door because he has been my partner in the sport of window-soaping in Chicago, New Orleans and, occasionally, New York, and as he dimmed out he mumbled that Lew Douglas was in 904 or some such number. As he went through the door he was holding a medal from the Pope the size of a silver dollar, and praying in Hebrew. Joe made it and he has challenged me to a window-soap in New Orleans come Mardi Gras.

Now here is a peculiar thing about that ceremonial stove-lid for Murrow. Lew Douglas said he had respect for Murrow as a Socialist but he himself is a Democrat strongly opposed to socialism, and Swope, who claims to be a Democrat, promoted this deal for this professional wind-bag whose biggest clients are the stout old citadels of capitalism, Aluminum and Ford.

Moreover, Douglas is not even a member of Freedom House and, altogether, the more you ask about this deal the more negative it gets except as a snide kick at McCarthy.

Well, the value of all such trash for services to "brotherhood," "mankind" and "peace" is paltry enough at best, but it goes into minus when they are conferred on Hugo Bloh as a dirty dig at Mike Swift.

But Mr. Douglas is a man of more learning and manners than the run of pretentious riff-raff around Freedom House and when I commented on a familiar old poster of Georges Clemenceau, as the father of victory, Lew said he had known the Tiger well in those days in France.

I said I couldn't say I knew him in the sense that he knew me but that a bunch of American correspondents had fallen in with him and some staff one day in 1917 and that we all had lunched together at a long, bare table in the only hotel, The Cheval Blanc, no doubt, at Ligny, and that Clemenceau had told us Americans that he had served as a surgeon with the Union Army.

Lew said no, he didn't believe he had been a surgeon. In fact, he was pretty sure the old boy had been a correspondent for Figaro or one of them. Clemenceau had got out of France one jump ahead of the law back there and had quite a time for himself in the states. That was how he happened to know Americans so well. He had also taught at a girls' school in Connecticut, a fact which rang another bell with me.

I then recalled a moment at a review of the first division, marching in something like column of battalions, about a block wide, when one of the regimental bands coming abreast of Clemenceau in his old beat-up hat and his tweedy bloomers and the leggings, crashed into a regimental marching song consisting of a medley of hungry five classics. It was called Happy Heinie and began with the opening chords of the Watch on the Rhine.

Pershing's grim look got grimmer at the faux pas, which is French for boner, but the Tiger gave him a little dig in the slats and grinned and so did the boss who never was called Black Jack, in case you care.

Well, Lew said the Tiger once told him he admired Stephen A. Douglas more than any other American of his time here, and

Do You Remember

By SOPHIE MILLER

George O'Neill, in reading a book from the Kingston Library titled The Heart of O. Henry, a new biography of the great short story master, by Dale Kramer, noticed the name, Anne Partlan, a woman of Ulster county, mentioned a number of times. It interested him enough to write me an eight-page letter. Mr. O'Neill says it was published in 1954 by Kramer. The name, Anne Partlan, first appears on Page 266 in part thus: "At the corner of 16th and Irving Place, Will (O. Henry) idled until Anne Partlan came along, walking with quick, competent steps. Though a modern "career woman" in advertising, she wrote articles, stories, jokes and verses for the magazines. Anne, 30, was striking in her choke-collar, white shirt waist and her mauve skirt which barely escaped touching the sidewalk. Her bronze hair was in braids around her head and she carried a round straw hat in her hand. Subtle, of an unobtrusive personality, despite her courage in competing in a man's field.... though there was no romantic interest between them, the only person in New York with whom O. Henry spoke freely about himself. They had been first introduced a year or two earlier by a mutual neighborhood friend who knew they were both writers."

Mr. O'Neil goes on to quote parts from the book how they went out to dinner and the exchange of flowers and how she lived with a brother (whose name is not given.) When O. Henry was very ill he tried to reach her. She was then living at the Hotel Albert, at 11th street and University Place. She took him to Polyclinic Hospital on East 34th street. She summoned a Dr. Hancock who did not know who his patient was at the time. Dr. Hancock said of Miss Partlan, a charming and intelligent young lady of his acquaintance, Anne Partlan, had summoned him urgently to the bedside of a stranger who later turned out to be the famous O. Henry.

According to the author, by 1954, Anne Partlan would be about 80. He tried to find something about her, whether living or dead and found at last, she was living a mile or two from his own home. Then he learned she was born in Ulster county, in upstate New York...."She had come to the city, a courageous and strong willed girl, more than 60 years ago to make her own way. She was a pioneer woman in advertising and industrial public relations. Her many stories and poems appeared in Munsey's, Smart Set, Success and other magazines. In her spare time she volunteered assistance in the Bellevue dispensary. Thus her dash to Will Porter's aid (O. Henry) in his last crisis was more than friendship, the custom she had followed for some time to rush to others in distress.

Mr. O'Neil thinks Anne Partlan must have first reached New York around 1893 or 1894. The above is not much to go on, as far as learning where Anne Partlan lived in Ulster county, but perhaps those who read the column may know something about her or her family. No doubt, she in herself would make an interesting story as she left so early to seek her fortune in New York and it seems she did very well. I guess most everyone at some time or other has read an O. Henry story.

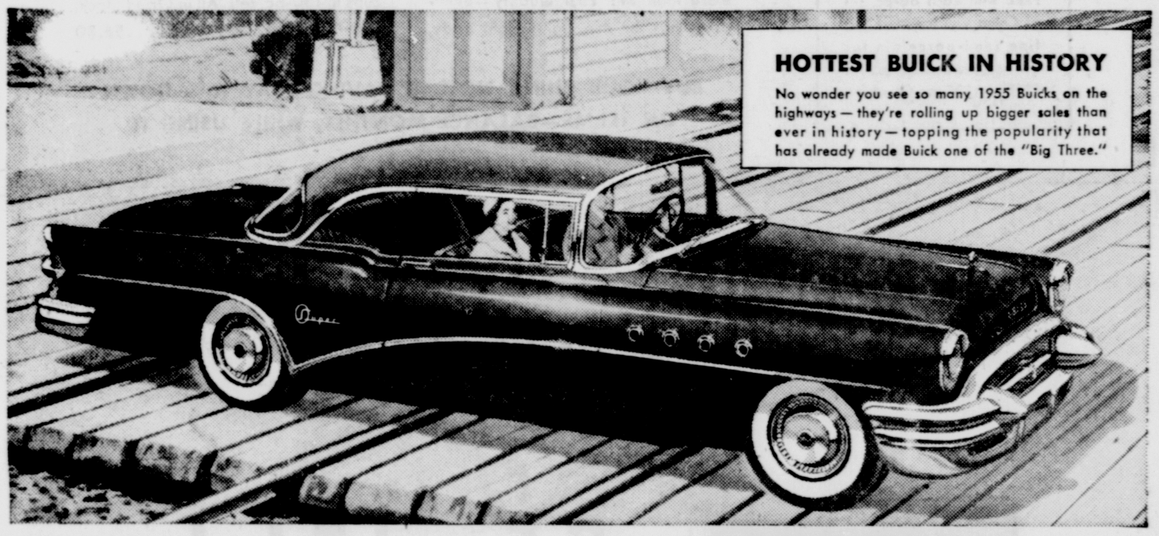
Even the bumps are smoother
in the '55 Buick ride



To be honest—there are some bumps which *nothing* will level out completely.

Yet even the real rough ones turn out a lot smoother when you're in a 1955 Buick.

And that's not just our say-so. New owners of these new beauties keep telling us that.

So you may wonder—how come? What's different about the Buick ride that makes it such a marvel? The answer is—plenty.

Most cars have coil springs on front wheels only. Buick has them *all around*—and this year they're newly calibrated for even deeper smothering of jounce and jar. So here your ride is balanced, buoyant, level, serenely smooth.

Most cars drive through the rear springs. Buick drives through a *torque-tube* that takes up all driving thrust, wipes out rear-wheel wiggle and wag, steadies your going to a sure and solid track.

And no other car in all America has these great comfort extras *plus* the backbone of a massive X-braced frame *plus* both direct and lever-type shock absorbers to snub after-bounce *plus* a special front-end geometry to stabilize "cornering" *plus* tubeless tires on extra-wide rims for softer, steadier riding.

Local Delivered Price of the 1955 Buick SPECIAL 2-Door, 6-Passenger Sedan, Model 48 (illustrated) $2536.88

Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as: Heater & Defroster—$81.70; Radio & Antenna—$92.50.

Surely, you owe it to yourself to *try* this great Buick travel, just to judge things for yourself.

You'll find it the nearest thing to velvet on wheels—and made even more so by the silkiness of record-high V8 power and the absolute smoothness of Variable Pitch Dynaflow.* Come visit us this week—for sure.

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series.

Veterans May Get Certain Payments

New York state veterans who were prisoners of war while serving with the armed forces during the Korean conflict may be eligible for certain war claim payments provided for and administered by the Foreign Claims Settlement Commission of the United States, according to an announcement made today by Director Howard C. Shurter of the local Veterans Service Agency.

The provisions of Public Law 615, 83rd Congress, authorizes the commission to make awards to eligible ex-prisoners of war:

(1) At the rate of $1 each day of detention on which the hostile force failed to furnish the claimant the quantity or quality of food prescribed under the terms of the Geneva Convention of 1929, and

(2) An additional $1.50 per day for each day of detention with respect to which the claimant sustained inhumane treatment or was forced to perform uncompensated labor.

Shurter pointed out, however, that ex-prisoners of war who at any time voluntarily, knowingly, and without duress, gave aid to, collaborated with, or in any manner served the hostile forces are barred from receiving the benefits provided for in this act.

Shurter said that all claims must be filed with the Foreign Claims Settlement Commission on or before August 21, 1955, and that only claims filed on the official form can be considered for benefit payment.

Area veterans of the Korean hostilities who were prisoners of war are urged to visit the Ulster County Veterans Service Agency, 32 Main street, Kingston, or any of the branch offices in Ellenville, Saugerties and Highland to ascertain their eligibility and receive complete advice and assistance in filing their claim prior to the August 21 deadline.

Plattekill

Plattekill, Feb. 8 — Mrs. Edmund F. Wager, Sr., has been appointed chairman of the heart fund drive in the town of Plattekill. Containers for contributions have been placed in public places throughout the town.

Mrs. Lester Upright is area representative of the Wallkill Parents Club, a meeting of which was held Thursday evening at the Wallkill School.

Kenneth and Billy Paltridge, twin sons of Mr. and Mrs. Kenneth A. Paltridge, spent the past week with their aunt Mrs. S. L. Bernard and family in Poughkeepsie.

Army Reservist Edmund F. Wager, Jr., has been promoted to corporal, according to an announcement made by Capt. Jack E. Robinson, commanding officer of Company B, 854th Engineer Aviation Battalion, U. S. Army Reserve. Cpl. Wager is a graduate of the Wallkill Central School and joined the reserves in 1951, receiving his basic training at Camp Drum. He later attended an engineering school in Fort Belvoir, Va. Cpl. Wager married Irene Mengl of Newburgh and lives at Plattekill. He is employed by the duPont Mfg. Co., Newburgh.

The regular meeting of the Willing Workers of the Plattekill Methodist Church was held Friday at the home of Mrs. Theodore Williams on the Forest road. Material is being prepared for rugs to be woven and sold at the annual fair, by members of the society.

ELLENVILLE NEWS

Ellenville, Feb. 8 — Three women, Mrs. Frank Pugliese of Kerhonkson and Mrs. Albert Madden and Mrs. Margaret Gonder of this village are serving as town of Wawarsing chairmen for the 1955 Heart Fund campaign in Ulster county, it was announced last week by James Matthews, Kingston, county chairman. The drive continues through February with a major part of the funds going for the support of the heart project in the community and state.

The WSCS of the Ellenville Methodist Church will meet Wednesday evening at 8 o'clock. A panel discussion on India, Pakistan and Ceylon will be held under the supervision of Mrs. Charles F. Kaiser, Jr. Refreshments will be served by Mrs. Holmes and her committee.

At the annual meeting and convention of the Northeastern Retail Lumbermen's Association held recently at the Statler Hotel, New York, President Deyo W. Johnson was presented with resolutions of appreciation for his services, together with a suitably engraved Tiffany wrist watch. Johnson retains a position in the northeastern organization as a member of the executive committee and president of the Lumber Co-operator, Inc., a trade paper published by the organization. He was also elected a counsellor of the Chamber of Commerce of the United States to represent the lumber business at the annual convention of the Chamber in Washington, D. C., and was elected a director of the National Lumber Dealers Association.

Mr. and Mrs. David Koeschel, who have lived in Ellenville for some time have moved to their new home in Kingston.

A surprise stork shower was given to Mrs. Carl C. Carlson on January 31 at the home of Mrs. Hasbrouck Decker in Kerhonkson.

David C. Johns, supervisor of the IBM department at Channel Master, was in Highland on business for the National Machine Accounts Association.

Robert Bowes of New York spent the weekend in town with his parents Mr. and Mrs. Clyde C. Bowes.

Mr. and Mrs. Edward Heller, who have occupied an apartment in the Bucholtz house on Market street, have moved to their new dwelling in Kerhonkson.

John Terwilliger, who has been taking basic training at Fort Dix, N. J., and Mrs. Terwilliger, a student at Westminster Choir College, Princeton, N. J., visited over the weekend with his parents Mr. and Mrs. Benjamin Terwilliger.

Peter Renson, son of Mr. and Mrs. Walter Renson, fractured his foot recently. He has been getting about with his foot in a cast.

Mr. and Mrs. Carlton Hall and children spent the weekend with his parents Mr. and Mrs. Archie Hall. Hall attends Cortland Teachers College.

Mr. and Mrs. Antonio Andrade and family have moved from Napanoch to Phyllis drive in the Kosser development in Ellenville.

Leland Pulling, Jr., who attends Ohio Wesleyan College, has been spending a mid-term vacation with his parents Mr. and Mrs. Leland Pulling here.

Peter F. Murray has been vationing for a few days from his position with the New York City Board of Water Supply and has been visiting his family in New York.

Miss Evelyn J. Brown, who is vacationing for three weeks from her position at the Napanoch Institution, left Tuesday by plane for St. Petersburg, Fla. Before returning she will spend several days in Havana, Cuba.

Mr. and Mrs. Frederick Smith of Kingston were guests of Mr. and Mrs. Frank C. LaPolt last week.

Mrs. Edward W. Miller of Napanoch will be the leader of the World Day of Prayer meeting at the Ellenville Reformed Church on Friday, Feb. 25. This was ascertained at the meeting of the committee from the Council of Church Women held Tuesday evening at the Lutheran parsonage. Two members of each of the four local churches met to plan for the world-wide Day of Prayer. Mrs. Briggs, treasurer, was selected to obtain the posters, programs and call to prayer leaflets. A social hour followed.

Deyo W. Johnson of Ellenville has been succeeded as president of the Northeastern Retail Lumbermen's Association by Arthur Clifford of Bridgeport, Conn. The election was held at the association's convention in New York.

The Ellenville Bar Association elected new officers at its regular meeting at the Wayside Inn. Benjamin Lonstein was elected president to succeed Charles F. Kaiser, Jr., who has served as president for the past two years. Lawrence Levine was elected vice president, Eli Bernzweig, secretary, and Herbert F. Moshier, treasurer. The next regular meeting is scheduled for February 22 which will be a dinner meeting.

R. P. Huben Gets Trophy for Safety

Two terminal employes of Hemingway Bros. Trucking Co., Poughkeepsie, one of them Robert P. Huben of Rosendale, received safety awards today for enviable records made in directing freight service in the Hudson valley.

Huben, manager of the Poughkeepsie terminal, received a gold trophy from President James F. Brehm of the chamber of commerce in that city. The other award went to Martin Avezzano, dispatcher, and was presented by Police Chief John L. Martin.

Speaking at the awards dinner in the Nelson House, Walter Pine of T. M. DeLaval, Poughkeepsie manufacturing firm, complimented the terminal officials and employes for 185,000 miles of travel with 24 million pounds of freight with no major chargeable accidents.

The Hemingway firm serves industrial and business houses all along the Hudson valley, including those in Kingston and Poughkeepsie.

Office to Be Closed

There will be two legal holidays during the month of February on which public offices will be closed. Among them will be the Ulster County Motor Vehicle Bureau office which will remain closed on Saturday, February 12. County Clerk Lawrence D. Craft calls attention to the fact that while this holiday falls on Saturday, that office will be closed and no licenses will be issued. The second holiday will be Washingtons' birthday on Tuesday, February 22.

Firemanic Banquet Held at Local Inn

Woodstock, Feb. 8—The members of the Woodstock Fire Companies 1 and 2 held their annual banquet at the Irvington Inn Monday night. The president, Birge Simmons, introduced the following officers: Albert Cashdollar, life member; the Rev. Harvey I. Todd, chaplain; Herbert Wyman, secretary; Mervin Doremus, treasurer; George Haythorne, chief; Douglas Franckling, first assistant chief; Eric Wiltz, second assistant chief.

Simmons said that John Egan was not able to attend. He also introduced James Matthews as the guest of Fire Company No. 2; Roger Grazier, captain of No. 2 and Everett Cashdollar, president of No. 2.

The dinner was attended by about 150 guests. A rising vote of thanks was given to Wayne Underhill and committee for arranging the dinner and to Bill Dixon for serving the dinner.

Following the dinner a 24-minute picture on Japan was shown. The picture received a prize at the Edinburgh Film Festival last year.

Village Notes

Woodstock, Feb. 8—Mrs. William Hutty has been ill at her home on the Glasco Turnpike.

Mrs. Hannah Dock enters the Kingston Hospital today.

Mr. and Mrs. Lloyd Gibson and Mr. and Mrs. Jack Lettel went to New York last weekend to see the ice show and also went to Radio City.

Cora VanAiken celebrated her 81st birthday Sunday at the home of her niece, Mrs. Ivan Mallow.

Edward Mann, director of the Woodstock Foundation play, last fall, was the guest of Mr. and Mrs. John Streibel last Wednesday. Mann is at present co-directing the Child and The Sorcerer, by Ravel, to be presented at the Town Hall, New York, on February 11. Mann also designed the scenery. Mann and an actor, David Brooks, will co-produce for road tours, Minotti's The Telephone and Leonard Bernstein's Trouble in Tahiti. If these are successful, Mann reports, they plan to do a series of operas which haven't been shown in this country.

Forrest Goodenough, former resident of Woodstock, a member of the Composers Group of New York City, had a composition of his for piano presented in New York in December at the Mason and Hamlin Hall. There were five movements: Prelude, Dance, Scherzando, Air and Finalle, and played by Frances Burnett. Goodenough was one of the first winners of a Woodstock Foundation Award in 1948, and he is now residing in Austin, Texas, where he is concert master for the Austin Symphony. He is also teaching at the State College for the Blind at Austin and this composition will be repeated in April at Carnegie Hall.

Mr. and Mrs. Fennell Franckling celebrated their 49th wedding anniversary on Sunday, February 6.

Mr. and Mrs. Kenneth Hefty are the parents of a son, weighing six pounds, 11 ounces, born Sunday morning at the Kingston Hospital.

Robert Elwyn, motion picture director, has gone to North Carolina to direct a movie for the Princeton Laboratories.

Mrs. Russell Cooke and Mrs. Helen Chase have arrived in Tucson, Ariz., on their way to the West Coast.

Watch That TV!

Honolulu (AP) — A Honolulu mother recently asked a school principal not to give homework to her child "because he wouldn't have time to watch TV." Another asked that her son be allowed to take a nap at school because he stays up late watching TV. The requests were cited in a school survey on television's effects on school work. The survey, covering 660 pupils, showed more than half the children watched television every night on an average of three hours a night. It showed fourth and fifth grades staying up the latest, till 10 and 11 p. m.

Area Gas Workers Were Kept Busy

It was cold in the Central Hudson Valley last week, and the men who work in the natural gas end of Central Hudson's business ought to know. Their work steps up as the mercury goes down.

Gas-hungry furnaces, water heaters and ranges burned a record volume of gas in the Central Hudson Valley last week. The peak 24-hour natural gas send-out came Wednesday, February 2, when 15,000,000 cubic feet of gas were consumed. Average temperature over the area was a cool 6 degrees. The following day, 14,750,000 cubic feet of gas were sent out when the temperature averaged 9 degrees over the area. The previous high consumption came on December 6, 1954, when 12,275,000 cubic feet were sent out.

The big demand for gas actually started Friday, January 28. From 8 a. m. on Friday to 8 a. m. on Monday, January 31, 36,254,000 cubic feet of gas were burned by Central Hudson's customers. This, in spite of the fact that weekends are generally considered low usage periods by Central Hudson because of industrial inactivity.

It seems that the men in the local natural gas business aren't being fooled by all the talk about warmer winters. February got off to a cold start, indeed, but Central Hudson's gas men point out that January was a record send-out month—315,000,000 cubic feet, to be exact.

Mother Is Burned, But Babe Is Safe

Hornell, Feb. 9 (AP)—A young mother lay with painful burns in a hospital bed today—but she was content. Her baby was safe.

Mrs. Virginia Shaver, 29, dropped down a scorching furnace duct yesterday in an effort to save her 19-month-old daughter. Stuck three feet away she watched as firemen pulled the uninjured child to safety.

The baby, Terri, had tumbled into a floor duct leading to the gas-fired furnace in the Shaver home. Moments earlier, Mrs. Shaver, wife of a state police corporal, had removed the duct cover to clean it.

As Terri disappeared into the opening, Mrs. Shaver snapped off the heat, telephoned firemen, and dropped feet first into the duct.

Firemen reached the home about three minutes later. They found the mother wedged into the hot-air chamber of the furnace about three feet above the cellar floor level.

Terri was not touching the outside of the fire box but her mother was. Mrs. Shaver suffered first-degree burns over 10 per cent of her body. Her condition was reported as satisfactory.

Pinay Gives Up

Paris, Feb. 9 (AP)—An informed source said today ex-Premier Antoine Pinay has given up his effort to form a new French government. The information came on the heels of a decision of the Catholic Popular Movement (MRP) to refuse to take any posts in a cabinet headed by Pinay. Pinay is a Conservative, while the MRP is a left-of-center party competing with the Socialists for leftist votes.

Financing Approval

Washington, Feb. 9 (AP)—The Securities and Exchange Commission today approved financing to start work on the controversial Dixon-Yates power project.

Accusation Is Made

New York, Feb. 9 (AP)—Edward P. Dougherty, the president of the Standardbred Owners Assn., say State Harness Racing Commissioner George P. Monaghan condones racing conditions that defraud the public. Dougherty, who lives in North Bergen, N. J., told a news conference yesterday he is doing more to "protect the public interest" than Monaghan. Dougherty was barred from tracks in the United States and Canada for one year by Monaghan last Nov. 10.

Malenkov . . .

tion left in the wake of the Nazi invasion

MALENKOV succeeds A. S. Pavlenko in the new ministry. Pavlenko was dismissed to make room for the former premier.

Malenkov's appointment thus once again emphasizes the determination of this regime to carry out its heavy industry and defense industry programs rather than concentrate on the production of consumer goods, a program first promulgated by Malenkov in August, 1953. This seems to have been the motivating force behind the events of today and yesterday which have shaken up the Soviet government.

Great applause once again greeted the changes.

THE CHANGES ALSO gave added significance to the words of Foreign Minister V. M. Molotov who yesterday, in a 2½ hour speech, laid down a tough Soviet foreign policy which denounced the United States as an aggressor nation and warned that the Soviet Union had made strides in hydrogen bomb production which made the United States look laggard.

He warned also that a new war would mean the ruin of capitalist civilization and the world triumph of communism. This was in contrast to the Malenkov statements of the past that a war with nuclear weapons would mean the destruction of both civilizations.

the municipal auditorium here Thursday night. It was decided to make every effort to provide Kingston with the best possible continued railroad passenger service. There was a great deal of discussion about the seriousness of the possible loss of passenger service on the West Shore Division. The lack of suggestions and support from persons who use the service were also noted. The fact that an expanding area requires railroad passenger service was mentioned repeatedly.

A membership report indicated that the Kingston Area Chamber of Commerce now has an active membership of over 500. To date 488 memberships have been paid for the fiscal year starting May 1, 1954, with 31 active memberships still to be paid. Since the beginning of the fiscal year 99 new paid memberships have been received.

THE BANQUET COMMITTEE, of which Edward C. Craig is chairman, reported that plans for the annual banquet to be held March 1 are nearing completion. Notices or invitations to the banquet, at which Dr. Charles F. Phillips, president of Bates College, will be the speaker, are to be mailed to all members early next week.

President Briggs announced that he is working on the personnel of the 1955-56 committees and asked for suggestions from board members as to committee designations. The appointments to be made will become effective at the annual membership business meeting scheduled for April. He also asked members to volunteer for service on any of the fifteen standing committees.

OTHER ITEMS mentioned were the need for prompt revision of Zoning Ordinance in the City of Kingston and the need for co-ordinated Planning and Zoning throughout the area.

A letter was read from H. Van Wyck Darrow, representing the financial institutions of Kingston, thanking the Chamber for the assistance received from Albert Kurdt, executive secretary of the Chamber, who served as chairman of the Kingston Thrift Committee to celebrate the recent recognition of National Thrift Week.

Harry Rigby, chairman of the Area Development Committee, reported that the possibility of recommending the establishment of an area planning council was receiving serious consideration by his committee.

President Briggs expressed appreciation for the excellent attendance and keen interest of the directors in the problems facing the Kingston area. The next regular meeting will be held on Tuesday, March 8.

Nursery Vaporizer

An electric vaporizer for the nursery now has a small clown's head on the screw-on top designed to amuse the child who is ill. The patented safety features are said to include an automatic shut-off, a foolproof locking device which prevents opening until the electrical connection is broken, and a separate chamber for medication to permit a uniform flow of vapor.

P-TA Observes 58th Year Since Founding

Clintondale, Feb. 8—Founders Day was observed at the meeting of the Clintondale Parent-Teachers Association Thursday night in the schoolhouse with Mrs. Anthony Palazzo, president of P-TA, presiding.

Mrs. Palazzo told of the true meaning of Founders Day, a time to dedicate oneself to furthering P-TA. The program conssited of the following: Song, America the Beautiful, by all members; talk on P-TA by Mrs. Grace Palazzo; vocal solos, by Miss Lulu Mae Smalley; candle-lighting service, Mrs. Lewis Conklin, Mrs. Michael Cristaldi, Mrs. Palazzo and Mrs. William Minard, Jr. Two motion pictures, A Chance to Play and Life with Junior, were shown.

The chairman of the membership committee reported that the present membership was 58.

A large birthday cake was featured at refreshment time with 58 candles, this being the 58th anniversary of the founding of P-TA.

The next meeting will be held March 3, the annual Father's Night, to which all fathers are invited. Entertainment will be provided by the first and second grades, taught by Miss Laura Bernard, and the third and fourth grades, taught by Mrs. Jay Zimmerman. The meeting will be in the schoolhouse starting at 7:30 p. m.

Village Notes

Clintondale, Feb. 8—Mr. and Mrs. Jerome Hurd and Melvin Hurd are members of the committee assisting in raising $150,000 for new building program at Oakwood School in Poughkeepsie.

Members of Allied Communities Fire Company of Clintondale are making plans for holding a series of firemanic school sessions in the near future.

Mrs. Jerome Hurd was one of the committee named to take charge of a branch meeting of the American Association of University Women at Vassar College on Wednesday.

The fourth quarterly conference of the Clintondale and Modena Methodist churches was held at the Clintondale church on Monday. G. Roy Bragg, district superintendent of the conference, presided. A covered dish supper was served.

Supervisor Eber Coy will preside at the regular meeting of the Plattekill Town Board Wednesday night at the town rooms in Modena.

Anthony Palazzo and a party of friends from Walden spent one day last week deep-sea fishing. They sailed out of Sheepshead Bay.

Mrs. Edmund Wager has been named chairman of the March of Dimes drive for the town of Plattekill.

Sees Medical Costs Cut

Ann Arbor, Mich. (AP)—A hospital administrator says that as medical knowledge increases medical costs are getting progressively lower. John Zugish, assistant director of University of Michigan Hospital, says that when penicillin was new, it cost $22 a dose. Today a prescription usually is under $2. The common middle ear infection in small children which required minor surgery 10 years ago now can be cured by medications which cost about one-tenth as much, he says. "We hear a lot about the rising cost of medical care," Zugish says, "but medicine and pharmacy have virtually wiped the slate clean of all our old remedies."

Iceland has no illiteracy. This island republic publishes more new books per capita than any other country in the world.

Why do we offer 2 TYPES of Checking Accounts—Regular *and* ThriftiCheck ?

There is a good reason why we offer both Regular Checking Account and ThriftiCheck Account services to our customers.

Some people draw many checks, make frequent deposits, keep substantial sums in their accounts and give the bank's name for credit reference. A Regular Checking Account is best for them because they ordinarily maintain an account balance large enough to cover operating expenses and consequently there is little or no charge for this kind of service.

Others keep less money in their account — some have just enough to take care of the checks they draw — and the number of checks is relatively few. These customers have a ThriftiCheck Account which normally costs only pennies per check.

Both Regular Checking and ThriftiCheck Account customers enjoy the advantages of convenience and safety.

Here you will find whichever checking account service is best for your own particular personal needs. May we tell you more about these services?

By OSWALD JACOBY
Written for NEA Service

Imagine that you hold the West cards in today's hand. You open the queen of clubs against the rather ambitious contract of four spades, and dummy wins with the ace of clubs. Back comes a heart, and you capture South's king with your heart ace.

What do you lead now?

When the hand was actually played in a recent tournament, most of the West players returned the jack of diamonds. This got them nowhere.

Declarer went up with the ace of diamonds and began to cross-ruff hearts and clubs. When the smoke cleared, South had managed to make his eight trumps separately, together with the two side aces. This was enough, of course, to fulfill the game contract.

There was a different story to tell when Walt Connors, well-known expert of Media, Pa., held the West cards. After winning the second trick with the ace of hearts, Walt gritted his teeth and led a low trump.

This unusual return threatened to cost Walt his trump trick, but it actually defeated the contract. Walt was merely translating into action the familiar bridge adage that every trump led against a crossruff saves a trick.

The actual declarer won the trump return with dummy's seven. He then ruffed a heart with the six of spades, got to dummy with the ace of diamonds, and ruffed another heart with the jack of spades. When the queen of hearts failed to drop, South just floundered quietly for a few more tricks and went down one.

There may be some fancy line of play that makes four spades after West leads a trump, but you'll probably need a microscope to find it. Connors scored a well-earned top when he cast his bread upon the waters.

Spanking Discouraged

Detroit (AP)—Detroit's public school teachers want to know whether they can spank unruly pupils. The independent Detroit Teachers Assn. joined the AFL Detroit Federation of Teachers in protesting "weak-kneed enforcement of the discipline policy." School Supt. Arthur Dondineau, who was instructed by the school board to clarify the issue, said: "We have a definite policy . . . We have never prohibited corporal punishment, but we discourage it."

Legion Post Carnival Schedule Announced

Rosendale, Feb. 8—The Rosendale-Tillson Post of the American Legion announced the date for its annual carnival following the meeting February 3. The carnival has been scheduled for Thursday through Saturday, July 7, 8 and 9, and will be held at the Legion Post headquarters.

The post has also planned monthly card parties to take place the third Thursday of each month at the Legion headquarters starting at 8 p. m. The first such party has been planned for Thursday evening, Feb. 17. The public is invited.

Association to Meet

Rosendale, Feb. 8—The Rosendale Publicity Association will hold a meeting at 8:30 p. m. today at the Astoria Hotel. The program for the year will be discussed as well as any changes in the advertising folder. All members are asked to attend.

Volunteers to Meet

Rosendale, Feb. 8—A meeting of the Rosendale Valunteer Fire Company has been called for Wednesday evening at 8 o'clock in the Rosendale School Hall by Louis Mastro, president of the company. All members of the company are urged to attend, as well as other male residents interested in the company.

Why We Say--

When someone is deflated in ego, he is taken down a peg". The expression became well known from the British Navy. The flag was raised or lowered according to the prominence of visitors. The line was fastened by pegs giving rise to the expression.

Highland

Officers Installed By Highland Grange

Highland, Feb. 8—The meeting of Sunshine Lodge 929, IOOF, at the Highland Grange Hall last Thursday combined the public installation of officers and the homecoming of District Deputy Grand Master Myron F. Ronk of Ulster District.

The following officers were installed: Charles Ellis, noble grand; Kenneth Williams, vice grand; Clarence E. Ronk, recording secretary; George Cornell, financial secretary; Harold J. DuBois, treasurer. Appointed officers installed: Right supporter to the noble grand, Theodore Wood; left supporter, Floyd Markey; warden, Clarence Place; conductor, Harry Weezener; chaplain, Byron Terwilliger; right supporter to the vice grand, William Markey; left supporter, Charles Rhodes; right scene supporter, Hilbert Mittlestedt; left scene supporter, Charles Rhodes; inside guardian, Harry Manville, and outside guardian, Harold Meuser.

Clarence Munter, deputy grand master of the Grand Lodge of the State of New York, was the main speaker. Others who spoke briefly were Evelyn Hoberg, district deputy of Dutchess District; Past Grand Vernon Ronk; New Noble Grand Charles Ellis; Lady Kathleen Tummuty, past deputy president of the LAPM; Arlene Davis, past guard of the LAPM, and Carolyn Fischer, past sentry of the LAPM.

One of the highlights of the evening was the presentation of 50-year pins by the Deputy Grand Master Clarence Munter, to Byron Terwilliger and George Allan. Terwilliger still holds the office of chaplain in the Sunshine Lodge. Both were wished many more years of Odd Fellowship, good health and happiness.

Vernon Ronk, past noble grand, had charge of the following entertainment: A ballet to Coppelia Waltz by Lynn Carol Jeffree; Arabian Ballet to Caravan by Sherry Finn; a waltz clog by Lynn Carol Jeffree; a rhythm tap by Anthony Jeffree; vocal selections by Marge Lennee of Millbrook accompanied at the piano by Mrs. Card, also of Millbrook, and an instrumental trio of two guitars and a bass viol; several accordion selections, solos and duets by the Ross Sisters of Bearsville.

Following the entertainment refreshments were served by the service and hospitality committee of the Highland Grange.

$1,325 in Play Aid for 2 Towns

Two Ulster county towns are to receive a combined grant of $1,325 from the New York State Youth Commission for aid in carrying on recreation projects over a 12-month period, it was announced today by Lee C. Dowling, chairman of the commission.

The Town of Woodstock will receive $1,000, Dowling said, to match $2,000 the town has provided for arts and crafts, individual and group games, swimming and swimming instructions.

Application for state funds was made by Supervisor Joseph Fitzsimmons to be used for the recreation program of which Assemblyman Kenneth L. Wilson is chairman.

Supervisor Harry Snyder of Marbletown made application for Marbletown's $325 to be added to $650 allocated by the town for activities in baseball, softball, and instructions in arts and crafts at Marbletown Central School. Snyder is chairman of the program sponsored by the town board of which he is chairman. Charles Ayasse is director of recreation.

More than 915 communities have participated in the State Youth Commission's recreation program during the seven years of its existence, Dowling said.

Mrs. Holcomb Is Elected Children's Home Board Head

Mrs. Frederic W. Holcomb was elected president of the board of directors and trustees of the Children's Home, 77 East Chester street, at the annual meeting last week.

Other officers elected for the year 1955 were: Mrs. Edwin C. Locey, vice president; Mrs. Harry Halverson, vice president; Mrs. Robert F. Moseley, secretary; Mrs. J. R. Shults, corresponding secretary; Mrs. A. B. Shufelt, treasurer, and Mrs. George W. Schneider, assistant treasurer.

New committee chairmen elected were: Children's committee, Mrs. James H. Betts; house and grounds committee, Mrs. Harry Halverson; finance committee, Mrs. J. R. Shults; personnel committee, Mrs. Burton L. Haver, and Stanbrough Fund committee, Mrs. Louis Kegler.

A complete financial statement was rendered by the treasurer, Mrs. A. B. Shufeldt. Total receipts for the year were $43,826.39 and expenditures $41,269.70, leaving a balance of $2,556.69.

The following committee chairmen also submitted reports: Mrs. Charles Walden, chairman of the children's committee; Mrs. Harry Halverson, chairman of the house and grounds committee, and Mrs. Burton Haver, chairman of the personnel committee.

The following report was submitted by Gerald E. Shampo, executive director:

TO THE PRESIDENT, members of the board of directors and trustees of the Children's Home of Kingston:

There is a plaque at the doorway of the Children's Home in memory of Frances Shufeldt, assistant founder of the Children's Home. On this plaque is inscribed the following words, "Labor that proceedeth from Love."

Certainly we all are indebted to one of our founding friends who must have had a vision of so great a work as ours. A work as vital and important to the community that it should command all the attention possible from our citizens. Last year 200,000 boys and girls were separated from their homes for one reason or another in this country of ours.

I am part of one small unit dedicated in purpose, as others, in serving our youth that have been dependent and neglected. Since last February, when the reins of directing were placed in my hands, I have had two specific aims in mind for the year to come.

1. To reestablish in the child confidence and a genuine hope for a better future.

2. To give all in my power to the personal needs of each child.

Now just what have we done to try to restablish confidence in the child and to give him a genuine hope for the future?

Through orientation meetings and personal conferences during each month we have encouraged the child with the fact that his possibilities are yet to come, not only through his relations with the community, but through thorough and careful planning by the board and the director.

WE HAVE ORIENTED the child and stimulated his drive by holding forth educational possibilities in all fields. This has been made possible by the Edward M. Stanbrough Fund. For those who have become of age, we have for the first time, with the cooperation of the Social Welfare Department of Ulster County, placed out on jobs for the summer months those of our older group who have initiative and promise. This has helped to build their confidence and also has given them a chance to become acquainted with the special demands of various employers.

Getting a child ready for just such a step as this takes a great deal of planning, patience and kindness which must of necessity come from members of our staff unselfishly and untiringly working for this period of transition. Surely, I must say to them also, "It is labor that proceedeth from Love."

Great emphasis has been placed this year on the educational phase of each child's life. Numerous conferences and help from all the educational group of Kingston has enabled us to raise the scholarship standing of our group some 40 per cent. My special thanks would go to the Myron J. Michael School and Mr. Miller, the Kingston High School and Mr. Tobin and School 5 and John Finnerty. All have been wonderful in understanding our problems here at the Children's Home and without their help this upward trend in the classroom attending of our children would not have been possible.

We have not overlooked the fact that our boys and girls for the most part are reaching the "teen" ages, or if you like "the troubled ages." To try to provide specific things that would please our youth each hour and each day of every week would be impossible and fortunately it is well that we can't.

WE HAVE, however, with the help of the E. M. Stanbrough Fund and the energetic hands of our senior boys' supervisor, Donald Shampo, constructed a woodworking shop which will certainly provide hours of good wholesome pleasure as well as instruction that will afford them a basic knowledge in the woodworking field. The girls will be able to use this shop in working on various hobbies and crafts. This little shop will also provide us with the means whereby we can keep our plant in good operating condition, the older group helping with minor repairs that will relieve our budget of added expense. This will add confidence and give the children the feeling that they are really sharing a part of the burden for this, their home.

We owe our friends of the community a special thank-you for their financial help and for the many articles of clothing and for the food and pleasant hours of entertainment. All of these have made our load here easier and have given to us each a special feeling that you are all behind us.

We owe a great deal to various members of our church organizations for giving the children a lifting hand and for providing them with good examples of Christian fellowship.

Last, but not least, we owe to the businessmen of Kingston our gratitude for their warm friendship and help with all of our financial problems.

DURING THE PAST year many changes have taken place in the physical apperance of our plant. Many of these changes have come about with the help of loyal staff members who have given a little extra to the program than has been required. I know that this extra work has given us all a very satisfied feeling and we are looking forward to many more changes. I thank the staff for helping me in just beginning with the aims set forth at the beginning of this report. I thank them for their faithfulness in carrying out so great a responsibility as the daily care of these children.

In closing my report and looking back over the year for just this moment may I say that it has been a real experience for me to associate with the members of the board of directors. The harmony of spirit and the many long hours of service in committee meetings and board sessions and their sincere devotion to the children has kept the words, "Labor that proceedeth from Love" burning.

Seventy-eight years of service is a record to be proud of. May the spirit of humble service and the energetic zeal of the founders of this home be kept in our hearts as we serve the boys and girls who will be the men and women of tomorrow. May I leave this quotation with you as we pick up our duties for the year ahead:

"The greatest want of the world is the want of young men and young women who will not be bought or sold; young men who in their inmost soul are true and honest; men who do not fear to call sin by its right name; men whose conscience is as true to duty as the needle to the pole; men who will stand for the right though the heavens fall."—Education.

OFFICERS OF KINGSTON MAENNERCHOR for the ensuing year foresee great interest in German-American singing and are looking to an enlarged membership for 1955. Seated (l-r) are Carl Warnecke, recording secretary; Heinz Vogt, president; Paul Trodler, treasurer, and Charles Mueller, trustee; standing, Rudolph Fechner, trustee; Alfred Kandzia, vice president; Otto Schaller, trustee; Heinz Vogt Jr., financial secretary. Rehearsals are held Mondays at 8 p. m. in the auditorium, 37 Greenkill avenue, under the leadership of Julius Hochmuth, conductor. Invitations are extended to hear the singing, and those who like to sing are urged to join the men's or women's groups. Passive members are also invited, President Vogt said. (Freeman photo).

Trial Is Scheduled

New York, Feb. 9 (AP)—With a jury chosen, trial was scheduled to get under way today in a $250,000 libel suit brought by former Rep. W. Kingsland Macy against the New York World-Telegram and Sun. The case is an outgowth of the famed, "Hanley letter" incident five years ago. It is expected to take several weeks, with former Gov. Thomas E. Dewey and other Republican leaders possibly called to the witness stand. The suit centers on a letter written Macy in September 1950 by Joseph Hanley, lieutenant governor at the time.

Age Barrier Asked

Clifton, N. J., Feb. 9 (AP)—The New Jersey Juvenile Delinquency commission has urged the New York State Legislature to raise from 18 to 21 the legal age for serving intoxicating beverages. Members adopted a resolution to that effect last night. The New York State Legislature already has received a similar request from the State Legislature of New Jersey where the legal age is 18. Teen-agers, who are too young to be served alcohol in New Jersey, drive across the line to do their drinking.

That's Real Dough

Jacksonville, Fla. (AP)—J. B. Storms told police that thieves took all his dough. The dough—$25 worth of unbaked biscuits—was pilfered from his parked delivery truck.

Faces New Quiz

New York, Feb. 9 (AP)—A married man friend of a murdered New York University coed will be questioned by police today for the fourth time. He is Ernest Jackson, 30, a tall graduate student and classmate of Ann Yarrow, 23, who was found strangled and stabbed Sunday in a lower east side apartment. Jackson had been questioned for 29 hours in three previous sessions with police. They said the questioning yesterday "turned up not one iota of new stuff." Miss Yarrow, a student of human relations and psychology at N.Y.U., was a 1951 honor graduate of Guilford College, Greensboro, N. C.

To Ready 2 Rinks For Skating Today

Skating will be resumed today, after a two-day layoff, at Strubel's rink and Kingman rink, it was announced by Superintendent Andrew J. Murphy 3rd of the Department of Recreation.

Up to the time warm weather and rain ruined skating Sunday, 26 consecutive days of the sport were enjoyed by young folks and adults, who visit the rinks daily.

Murphy said that both rinks would be scraped, starting at 3:30 p. m., and advised that skaters would be allowed on the ice as soon as frozen snow is removed.

"We plan to scrape and resurface the ice again after tonight's skating," Murphy advised, "with the hope that conditions will be excellent on Thursday."

Children Are Bigger

Ann Arbor, Mich. (AP)—The National School Service Institute says today's children are too big for their school benches, which fit grandma and grandpa when they were on their way through the "Little Red Schoolhouse." The institute, an association of manufacturers and distributors of school furniture, said a study shows 14-year-old boys in Detroit are 5:9 inches taller and 31.3 pounds heavier than Boston boys of the same age in 1877 and that Detroit boys of 9 are 3.8 inches taller and 18.7 pounds heavier than the same group in Milwaukee in 1881. Girls are correspondingly larger than girls in earlier generations. There were no early measurements for Detroit youngsters.

Sober Party

Richmond, Va. (AP)—R. M. Orcutt hired a food caterer and invited all the folks in the neighborhood over to his home for an open house celebration. "I want to show them what a former drunk can do," he said. Fifteen years ago, said Orcutt, "I was about the biggest drunk in South Richmond," weighed about 97 pounds and drank the shoes off three children. Now he is a strapping 205-pounder and owner of a prosperous roofing business.

Connelly Engine Meeting

Hasbrouck Engine Company of Connelly will meet Thursday at 8 p. m.

NEW RED BOSS? — There was speculation Feb. 8 that Nikita S. Khrushchev, above, secretary general of the Communist party, may be the real power in the resignation of Georgi Malenkov as Premier of the Soviet Union. In a resignation statement, Malenkov admitted "guilt" in the failure of his regime to increase agricultural production and cited a recent improvement in the situation under the leadership of the party—a clear reference to Khrushchev. (AP Wirephoto)

Strictly for Sergeants

Omaha (AP)—Peter Molland has a healthy heart on the right side of his chest, says Maj. Robert F. Glock, armed forces medical officer. He has dextrocardia in which the position of the internal organs is reversed. "With his heart in the wrong place," says the major, "he ought to make a dandy sergeant."

Treasury Receipts

Washington, Feb. 9 (AP)—The cash position of the treasury Feb. 4: Balance, $5,052,310,448.24; deposits fiscal year July 1, $1,373,019,548.81; withdrawals fiscal year, $39,996,678,072.19; total debt, $278,441,675,515.42x; gold assets, $21,714,924,746.73; x—includes $13,299,537.55 debt not subject to statutory limit.

Glenerie Meeting

A meeting is scheduled Thursday of Schneider's Aroma 85, Deodorized Order of the Skunk at Schneider's Hotel, Glenerie. Starting time is 8:30 p. m. Fred Budion, recording secretary, urges a full attendance for important business.

SHANDAKEN RAISES $1,251.41 FOR POLIO—Addison Jones (center) county campaign director for the March of Dimes, proudly accepts $1,251.41 check from his old home Town of Shandaken from Harry Allen, chairman of the fund drive there, and expresses thanks to his boyhood friends and neighbors, who helped collect the sizeable amount for polio, which more than doubled last year's contributions. Attorney William A. Kelly (left), chairman of Ulster County Chapter, National Foundation for Infantile Paralysis, also thanks Chairman Allen, his workers and donors. (Freeman photo)

Late Bulletins

Miami Beach, Fla., Feb. 9 (AP)—Negotiating committees for the AFL and CIO today agreed to a historic merger of their rival labor union groups into a single powerful federation.

Washington, Feb. 9 (AP)—President Eisenhower recalled today pleasant relations with Marshal Georgi Zhukov, new Soviet defense minister, during World War 2—and held open the possibility that he might invite Zhukov to visit the United States.

Three Cases Today In County Court

Sam Zwirn, charged with grand larceny, second degree, for failure to account for articles left with him for sale on consignment, entered a plea of guilty to petit larceny in county court today and imposition of any sentence was suspended during good behavior. That action was taken since he has made full restitution.

In the case of Arnold Lorzing, charged with abandonment, Judge Cashin accepted a plea of guilty to a charge of failure to provide for minor children and a year sentence in jail was suspended and Lorzing directed to pay back payments and make payment of $20 a week for the support of his four children.

Settlement was announced in a civil action brought by Mary M. Krom against Harry Kossar, an action for damage to real property.

Jurors were discharged until 10 o'clock Thursday.

Financial Rating

Nogales, Mexico (AP)—Thirty pesos for a husband; 50 pesos for a car. An Arizona wife found that was the cost of retrieving those two items from Mexican police. After reporting her husband lost, she found that the car had been impounded for illegal parking and the husband had been impounded, too, for drunkenness.

GOP Asks . . .

in this way:

The governor, Assembly Speaker Oswald D. Heck and Senate Leader Walter J. Mahoney each would name three members of a temporary board of directors. It would seek to sell stock in the corporation up to a limit of 10,000 shares at $100 a share—a total of one million dollars.

Presumably the stockholders would be private organizations interested in promoting business—such as utilities and railroads.

When 1,000 shares had been sold, the stockholders would organize a permanent 15-member board of directors. It would then invite banks and insurance companies to become lending members.

EACH LENDING member could advance up to $25,000 to the development corporation.

Twelve regional loan committees would consider applications from prospective borrowers. If approved, the corporation would lend money at interest, to be repaid out of the earnings of the borrowing business.

The two sponsors said the chief seekers for such credit probably would be businesses whose needs were too large to be met by smaller banks and too small to warrant marketing of their own securities.

They made no mention of what credit standards would be required of prospective borrowers.

2. The state was 30th in this respect when income was compared with the total of all state and local taxes collected.

Van Devander said the book of states tables from which these conclusions were drawn dealt with general revenues of the states. The publication explained that only three-quarters of these revenues were in taxes; the remainder included federal aid and charges.

PHILIP E. KYRITZ

PHILIP E. KYRITZ, A 3/c, of Connelly, son of Mrs. George Popowich, entered the air force August 17, 1954, took basic training at Sampson Air Force Base and is now stationed at Chanute AFB, Illinois. He graduated from Kingston High School in the class of June, 1954.

FRANKLIN D. ANDERSON, son of Mr. and Mrs. Arnold C. Anderson of Box 83, Salem street, Kingston, and 411 Sterling Place, Brooklyn, is stationed in Cuba with the U. S. Navy. He was joined by his wife, Verona, of Long Island, during 1954. Franklin made the cruise to Cuba aboard the aircraft carrier Hornet.

China Is . . .

ber relations had reached a "new low" with Russia.

SINCE THEN, the Chinese have dealt coexistence two haymakers. In December they suddenly announced conviction on "spy" charges of American airmen captured in Korea. Last month they invaded Yikiangshan and forced evacuation of the Tachens.

It could be that it was the Formosa issue which toppled Malenkov, rather than his somewhat outdated failures in Soviet agriculture.

In any case, the Chinese have every incentive to use this opportunity to move more boldly and thus nail down more Russian support.

Squaws at Heart

Chicago (AP)—The increase in the number of working women prompts a University of Chicago physician to ask if the trend points to a return to the ways of the American Indian. Dr. H. Close Hesseltine, professor and secretary of the school's department of gynecology and obstetrics, says that of the nation's 59 million women, 20,565,000 or 34.6 per cent, are now gainfully employed. "Some of the tribes of American Indians," he said, "had a sociologic pattern in which the squaws tilled the fields and did the local work, while the male was the hunter and warrior. In this sense, the breadwinners, except for meat, fowl and fish, were the Indian women."

Farm Car

Atlanta (AP) — Traffic Officer Turner Wallace while hurrying an old model car through a busy downtown intersection called jokingly to the woman driver "put some plow lines on that car and maybe you can drive it." A few days later the same woman in the same car drew up beside Wallace and stopped. "I've got my plow lines," she said, solmenly pointing to two pieces of rope dangling from two sides of the steering wheel.

School to Teach Heating, Cooling

A three-part training course in heating and air conditioning will be offered to men of the area by Orange County Community College, Middletown, starting Thursday, Feb. 17, it has been announced.

The courses under direction of William Fuller, instructor in engineering and applied technology at the college were arranged in response to numerous requests from men working with problems in warm air heating and cooling, an announcement from the school said.

There will be 15 class sessions Thursdays from 7 to 10 p. m.

Part one of the training program will be on forced warm air heating systems. Parts two and three on other types of heating and air conditioning design will be offered during later semesters.

Selected manuals of the American Society of Heating and Ventilating will be used, also manufacturers' literature.

Other information, including instructions for enrollment, may be had from the college.

Jumpers for Spring

Jumper fashions zoomed to popularity in the fall and have been favorites ever since. For spring, it's the jumper on princess lines in rayon faille or in cotton tweed. Some have high empire waistlines, others are full-skirted with the easy lines of a pinafore.

THE MARQUEE

T.V. — STAGE — RADIO — RECORDS — PEOPLE

By DICK KLEINER

A FEW FAST FACTS: The violent competition between TV and the movies has helped the poor consumer—both movies and TV shows are better. . . . **Katherine Hepburn** will go to Australia in April, heading a repertory company that will do two Shakespearean and one modern play. . . . Art Instruction's students voted **Mitzi Gaynor** the ideal "Draw Me" gal — runners-up included **Elaine Stewart, Jean Peters** and **Debra Paget.** . . . **Kermit Schafer** thinks Alcatraz's brighter inmates ought to put on a TV penal show.

* * *

To promote **Dean Parker's** record of "Green Fire," publicist **Mario Trombone** hired model **Vickie Hayes** and made her into a green gal. With the help of **John Bennett** (Tony's hair-dresser brother), she had green hair, eyebrows, clothes, fingernails—smoked green cigarettes and walked a green-eyed poodle.

When she was done, Trombone had pictures taken and triumphantly called all the newspapers. He forgot, of course, that the green wouldn't show up in a black-and-white newspaper.

* * *

June Havoc doesn't drink. Her explanation: "I was born high; you can't improve much on nature."

And she has something there. She bounces and bubbles and breezes and babbles. Sitting with her is like sitting with a west wind. Except she makes more sense.

"Oh, how I miss New York," she says. (She is currently employed in Hollywood, where she films an unfortunately poor show called "Willy.") "Things are so alive here. It keeps the brain from getting wrinkled. Out in Hollywood, everything is nice and lazy—and dull."

She was here on a combination vacation-business trip. And she spent a lot of time with her daughter, **April Kentt,** who is just starting a theatrical career after an apprenticeship in the Copacabana chorus line.

"Don't let me get started on April," she said. So I let her get started.

"I didn't like the Copa for her," she said. "That's no place to get training for a dramatic career. But she seems to have enjoyed it. She's so alive — she enjoys everything, and it comes through to the audience."

* * *

Another situation comedy star, **David Wayne,** has come to a momentous decision. His series, "Norby," filmed here in New York, takes so much time and effort that he's going to quit everything else. That means he'll leave the cast of "Teahouse of the August Moon."

"I hate to do it," David says, "but it can't be helped. We have a time quotient, and that's all there is to it."

Another momentous decision for Wayne—the character he plays on "Norby," is going to change.

"We've been trying different temperaments for him," Wayne says. "But we're going to have to solidify the character. The viewers want to know what he'll do in any situation. It's unfortunate, but unavoidable."

* * *

"Plain and Fancy", the season's best new Broadway musical comedy, is fancier than it is plain. It has everything on stage from a brand new automobile to a gang of farmers building a barn. It's all about the Amish, the strict Pennsylvania sect, and two visitors from New York.

No big stars—but plenty of potential in a cast headed by **Richard Derr, Shirl Conway** and **Barbara Cook.** No hit songs—but plenty of good-spirited music. And a refreshing minimum of dancing. It's a happy show.

DICK'S QUICKIE: From Paris comes word that Dior's new look features a daringly low neckline. That, of course, is the open Dior policy.

Early Attention Pays Off in Dental Health

(This is the third in a series of articles published by The Freeman in cooperation with the Ulster-Greene Dental Study Club in observance of National Children's Dental Health Week, Feb. 7-13).

The toothbrush—when used properly—remains one of the most effective weapons for preventing dental decay.

There are two lingering misconceptions about toothbrushing: First, the old rule, which has long been outdated, of brushing teeth the first thing in the morning and the last thing at night.

Second, the scrub-brush technique in using the toothbrush, an idea which also has long been outmoded.

THE DENTAL profession urges that the teeth be cleaned immediately after eating—especially after eating sweets—because the build-up of enamel-destroying acid occurs rapidly after meals and snacks.

In brushing, the toothbrush sweeps away the bits of food which otherwise would stick to the teeth and generate the tooth decay process.

However, the toothbrush can dislodge the sticky food particles only if it is used in the right way. Since these food particles are most likely to adhere to areas between the teeth, the best method of toothbrushing concentrates on these areas.

In cleaning the teeth, the upper teeth should be brushed downward and the lower teeth should be brushed upward. The bristles should be worked between the teeth. The chewing surfaces should also be cleaned as well as the inside surfaces facing the tongue.

THE YOUNGSTER should be taught to brush his teeth as soon as all his first teeth have come in—usually between the ages of two and three. He may not do a very good job and his mother or father will probably have to go over the teeth afterward. But the groundwork will have been laid for a basic dental health habit at an early age.

As for toothpastes and tooth powders, the Council on Dental Therapeutics of the American Dental Association has repeatedly pointed out that the toothbrush used in the right way at the right time is far more important to dental health than any particular kind of toothpaste.

MODENA NEWS

Modena, Feb. 8—Local fruit growers are planning to attend a meeting at Milton Grange Hall Thursday at which time a program of interest to small fruit growers in Ulster and Orange counties will be presented.

Mrs. Burton Ward will give a talk on India at a meeting of the Missionary Society of the New Hurley Reformed Church Thursday at 2:30 p. m. at the home of Mrs. Francis Garrison near New Hurley.

Local people attended the welcome home services honoring Mr. and Mrs. Paul Arnold at the Gardiner Reformed Church on Sunday. Mrs. John E. Swords, violinist, assisted in presenting the program of entertainment. The Arnolds plan to remain in the United States for a year before returning to missionary work overseas.

The completion of the addition to the Plattekill School, which includes a spacious kindergarten, will automatically release the space which the children of kindergarten age have occupied in the Modena School. The auditorium, which was used for the kindergarten, will again be used for gym following the removal of chairs and desks from the room. Local children attending kindergarten at Plattekill will be transported by bus.

Philip Oddo, son of Mr. and Mrs. William Oddo of the Clintondale road, has been promoted to the rank of lieutenant commander in the USAF. He is stationed in Naples, Italy. His father, William Oddo, was a former local resident.

Miss Kathleen I. Wager visited her aunt Mrs. Melvyn Carroll at New Paltz on Saturday.

Trustees reelected for a three-year term by Modena Methodist Church last Sunday were Joseph E. Hasbrouck, Lester I. Arnold and Floyd B. Wells. At a similar meeting held at the Clintondale Methodist Church (associate parish of Modena) were Eber Palmer, Jr., Freston Atkins and Hobart Smalley. Eber Palmer succeeds LeRoy Gruman.

Next Sunday's worship, under the theme of the Methodist Crusade for World Order, will be highlighted by a sermon The United Nations in a Divided World, in charge of the pastor, the Rev. John E. Swords.

The Youth Fellowship units will meet on Sunday at 7 p. m. in the church when the intermediate group will study Great Religions of the World in comparison to their faith. The seniors will begin a lesson plan which is designed to prepare several candidates for membership in the church. The topic for Sunday evening is The Purpose of the Church.

The Clintondale official board meeting is scheduled for Friday evening at the church.

The Clintondale Youth Fellowship is planning a Valentine party on Monday evening, Feb. 14, at the Clintondale Grange Hall. The Rev. Jesse Stanfield and Miss Dorothy Roosa, counselors, will be in charge. The hall is being graciously provided by grange members for the party.

Local people attended the fourth quarterly conference and supper at the Clintondale Methodist Church last week.

The WSCS of the Modena Methodist Church met Thursday at the home of Mrs. Lillian Courter for a business session and a sewing project. Attending were Mrs. Eldred A. Smith, Mrs. Floyd B. Wells, Mrs. Ira Hyatt, Mrs. Hallock Harris, Mrs. Joseph E. Hasbrouck, Mrs. Stewart Pink, Mrs. Earl B. DeWitt, Sr., Mrs. Fred Bernard and Mrs. John E. Swords. The members will meet again on Wednesday at Mrs. Courter's home, but the place of the March meeting was undecided and will be announced later.

The program of the centennial celebration of the Modena Methodist Church, of which Mrs. DuBois Grimm is chairman, is continuing, and plans for future activities will be announced later. Activities of the various organizations of the church during the months of November and December 1954, and during January, 1955, will be reviewed as recorded. Joseph E. Hasbrouck is historian of the program, Mrs. Frank M. Coy and Emmett Hyatt, co-chairmen. Temporary committees are not functioning regularly but from time to time will add their efforts to the plans. It is interesting to note, quoting from the Methodist History, that "The beginning of the Methodist Church was not a plan for a new religion, but a revival in a corrupt period of the Episcopal Church in England. It was led by John and Charles Wesley." "In 1729, the idea sprang from the Wesleys, a Mr. Morgan and a Mr. Kirkwood, who were four young students at Oxford. These young lads held meetings every evening and made a study of the Bible in Hebrew, Greek and the classics." Excerpts from the history will appear from time to time, commemorating the memorable occasion of the dedicating of the Modena Methodist Church in 1855.

William Doolittle left town recently for El Paso, Tex., where he will spend the coming weeks with his daughter Mrs. Frank E. Keeser and family. Frank E. Keeser was recently promoted to warrant officer, junior grade, at Fort Bliss, Tex., where he is stationed with the 246th Field Artillery Missile Battalion. Mr. Doolittle made the trip by plane.

Mrs. DuBois Grimm visited friends in Long Island before leaving by plane for Florida where she plans to spend two weeks with her daughter Gail Grimm, a student at Miami University, Coral Gables, Fla.

The Cohn family left last week for a three weeks vacation in Florida.

The Primo Fiscelli family of the Ardonia section plans to return home from a vacation in Florida on February 18. Arthur Homovich of Plattekill has been in charge of the Inn since Mr. Fiscelli left for the south.

Mrs. A. Bullock is visiting her son at Albany during the absence of her employer William Doolittle.

A baked ham supper will be served to members of the Modena Rod and Gun Club on Saturday evening at 6:30, in charge of a committee of members of the Woman's Society of Christian Service of the Modena Methodist Church.

Mrs. Eldred A. Smith is representative from this area of the Wallkill Parents Club, a meeting of which was held Thusday evening at the Wallkill School. A panel of organization leaders, including PTA, YMCA, Orange and Ulster County Home Bureau, and the Orange County Community College discussed group living situations, dramatized by the Wallkill Footlight Club. The next meeting is scheduled for March 3.

Mrs. Frank E. Crawford, Jr., Ruth Crawford, Mr. and Mrs. Charles Crawford and sons Charles, Jr., and David, of Hughsonville, visited Miss Glennie M. Wager on Tuesday evening.

PACKING AN ATOM AID—Dr. Stanhope Bayne-Jones, right, adjusts the Army's new portable atom-powered X-ray unit being carried by Cpl. Eugene W. Coleman. The 48-pound unit was demonstrated in Washington, D. C. It is powered by radioactive thulium and doesn't need a darkroom, electricity or water to produce a picture.

AMERICAN MENU

Powdered Cream, Tomato Juice Make Tasty Soup

CREAM TOMATO SOUP can be quickly prepared using powdered cream and tomato juice.

BY GAYNOR MADDOX

NEA Food and Markets Editor

We spent the weekend with friends on a farm in Connecticut. Cold? Yes. But the soup was quick and warming. Our hostess, miles from the nearest shopping center, keeps 4-ounce jars or cans of powdered cream on hand (its shelf life is long and its calories count much lower). Cans of tomato juice are always on the shelf, too, ready to go into this quick, rich and really fine soup.

Cream Tomato Soup
(Makes 4 servings)

Six tablespoons powdered cream, 1 tablespoon flour, ¼ teaspoon celery salt, ½ teaspoon salt, dash pepper, 2 cups tomato juice, 1 cup water, 1 tablespoon butter or margarine.

Mix powdered cream with flour and seasonings. Combine tomato juice and water. Bring to the boiling point. Shake powdered cream mixture into hot juice, stirring. Add butter or margarine and heat a few minutes longer.

Our friend served cream snacks with the soup. Tender, rich and the kind that melt in your mouth. Of course they take a little time to prepare, but are certainly worth it.

Cream Snacks
(Makes 2½ dozen snacks)

One-quarter cup powdered cream, ½ cup margarine or butter, softened; ¾ cup sifted all-purpose flour.

Mix ingredients together with fork or pastry blender. Roll into 1-inch balls. Place on baking sheet and bake in a hot oven (450 degrees F.) about 6 minutes.

If desired, mixture may be chilled in refrigerator several hours, rolled on floured board, about ¼-inch thick, then cut with 1-inch cutter.

Variations

1. Mix in ¼ cup grated sharp cheese.
2. Mix in 1 tablespoon chopped parsley and ¼ teaspoon poultry seasoning.
3. Mix in 1 teaspoon caraway seeds.
4. Mix in 4 tablespoons deviled ham.

Tomorrow's Dinner

Cream tomato soup, crackers, hamburgers, French fried onion rings, frozen French fried potatoes, soft rolls, butter or margarine, green salad, apple pie, cheese, coffee, tea, milk.

'LADY' OR 'WOMAN'

A reader writes me as follows: "Not long ago you advised one of your readers to refer to a certain friend of the female sex as a 'woman friend' and not as a 'lady friend.' Would you be kind enough to explain when one uses the word 'lady' and when one uses the word 'woman.' I find it necessary to use one or the other of these words frequently and would appreciate knowing how to correctly apply them."

It is difficult to give a definite rule, but an approximate one is this: When the implication is unmistakably that a lady is intended, the word woman is preferred. The word "lady" is rarely used in ordinary conversation unless it is necessary to qualify an admirable code of behavior or high-minded point of view.

Divorce Not Yet Final

Dear Mrs. Post: Is it proper for a woman whose divorce is not yet final to wear the engagement ring of another man? My fiance has just presented me with a diamond ring and I am hesitant about wearing it in public as my divorce will not become final for several months. Could this be criticized?

Answer: Yes, I'm afraid it would be. You'll have to wait until your divorce becomes final before you may wear the ring of another man.

How to Eat Shrimp

Dear Mrs. Post: I would like to know the correct way to eat a shrimp cocktail. I am referring to the large-size shrimp. Should they be cut with a knife or fork, or should they be eaten directly from the fork by biting half off at a time?

Answer: If you are able to do it, you cut it in half with the fork against the side of the glass, or else you lift it out and put it on the plate underneath and cut it in half with the fork.

* * *

How should friends be seated in a car when invited for a ride? Should a gentleman remove his hat in the elevator? Mrs. Post is sorry she cannot answer personal mail. Leaflet E-15, "Manners in Public," includes answers. To obtain a copy, send 10 cents in coin to Dept. EP, c/o The Freeman, P.O. Box 99, Station G, New York 19, N. Y.

Meetings Postponed

Tillson, Feb. 9—Mrs. William Serenbetz, leader of the Christian Endeavor Society of the Tillson Reformed Church, announced that meetings of the society will be postponed until March. At that time, announcement will be made of the date of meetings. There will be no meeting this evening.

School Association Announces Programs

Tillson, Feb. 9—Activities for the next few months were discussed and planned at the monthly meeting of the Tillson School Association Thursday evening. Mrs. Nathaniel Phillips was appointed chairman for the evening due to the absence of the president and vice-president.

Plans were made for a card party in March and to sponsor the Frolics of '55, a stage show and dance, in May. A tentative date of Saturday, May, 14, was set. This will be the third Frolics that the association has sponsored, one in 1952 and another last year. Those in charge of the arrangements for the show and dance this year include Mrs. Walter Born, Mrs. Peter Hoffman, Jr., Mrs. Hollis Harvey and Mrs. Nathaniel Phillips.

Christian Endeavor Birthday Celebrated

Tillson, Feb. 9—Seniors of the Christian Endeavor Society of Tillson Reformed Church, accompanied by Mr. and Mrs. William Serenbetz, attended the 74th birthday banquet of the Church of the Comforter Friday evening at Kingston. This affair was held in celebration of the 74th birthday of Christian Endeavor, and in addition to the dinner, movies were shown, group singing was enjoyed and speakers introduced. Plans for the spring convention at Hudson were explained.

Those attending included Herbert Sobers, Richard Spoth, Richard Serenbetz, Helmut Salewski, Elizabeth Martin and Judith Clark. William Atkins, a junior, also attended.

Mrs. Serenbetz, leader of the society, announced that meetings will be cancelled until sometime in March, at which time an announcement will be made concerning meeting dates.

Big Oil Estate

Houston, Feb. 9 (AP)—A pioneer Texas and Oklahoma oilman, Robert A. Josey, left an estate of $9,819,728.67. Executors of the estate filed an inventory yesterday. Included was $9,025,581.52 in corporate stocks and bonds and $572,088.30 in real estate, producing and non-producing royalties. Some $40,000 or $50,000 was left to churches, school, and boy scout organizations in Huntsville, Tex. But the bulk of the estate was left to a sister, Mrs. J. L. Shepherd Sr., Houston, and a sister-in-law, Mrs. John P. Josey, New Rochelle, N. Y.

The Bad Earth

San Francisco (AP)—Flowers refused to grow for a motel owner so she bought some gay wax posies and stuck them in the earth.

As Pegler Sees It

when Lew said that Douglas was one of the foulest sunza that ever sullied our sacred soil, Clemenceau replied: "Oh yes; but he was a master at tongue-lashing that Congress."

I asked Lew did he know that Clemenceau and Lloyd George got into a real fist-fight one day at the Paris peace conference and he said he did, but only vaguely. So when I got home I came up with Wickam Steed's Memoirs and there it was:

"Between Clemenceau and Lloyd George there was also a scene in the Council of Three, Clemenceau accusing Lloyd George so flatly of repeated inaccuracy," and there is an euphemism for you, "that Lloyd George rose, seized him by the collar and demanded an apology. After Wilson had separted them, Clemenceau offered Lloyd George reparation with pistols or swords—as soon as he should have acquired a domicile in Paris—and, in the meantime, refused to apologize."

I also broke out the encyclopedia and there it said, sure enough, that Georges did study medicine in his youth, so it just could be that he had been a surgeon with the Yankees according to a wisp of memory from long, long ago.

And I still say that if anyone hung a washer on my lapel just to annoy someone else, I would poke it down a shot-gun and shoot it back.

Amulet Players Will Give Comedy Tonight at Hotel

A professional New York company will present Amulet Productions in Private Lives by Noel Coward, tonight in the Governor Clinton Hotel. The first in the 1955 theatre series will begin at 8:30 p. m.

This comedy has complications, a quadrangle love affair, and laughs galore the entire three acts. It has some of the sharpest wit yet penned by the acid-tongued Mr. Coward.

The play which has delighted theatregoers the world over for a number of seasons, will be on stage in the Crystal Room of the hotel. Tickets may be purchased at the door.

Miss Doris Terns Honored at Shower

Miss Doris Terns was guest of honor at a surprise miscellaneous shower held at 89 Downs street recently.

Miss Violet Michaels of Yonkers became the bride of Earle H. Terwilliger, of Schenectady, son of Mr. and Mrs. Earle O. Terwilliger of Ulster Park, in a double ring ceremony held Saturday, Feb. 5 at 6 p. m., at the Presbyterian Church, Margaretville. The Rev. John E. Naegle officiated.

The attendants were Mr. and Mrs. Dave Cameron of Schenectady.

The bride wore a white cocktail dress with fitted lace jacket and a crown of small white flowers with a brief veil. She carried a white orchid bouquet. Her attendant, Mrs. Cameron, wore a white faille street-length dress with matching hat and an orchid corsage.

A reception for the bridal party was held at Kass's Inn, Margaretville.

The bride, a graduate of Yonkers High School and the Paine Hall School of Medical Technology, was employed by Dr. James E. McGrath of New York city.

Mr. Terwilliger, a graduate of Kingston High School and the Juilliard School of Music, New York city, is appearing on WRGB-TV under the professional name of Earle Jerris. The show which originates in Schenectady, features him as vocalist and pianist.

Mrs. George Ross Talks on Music From Shakespeare

Several musical compositions inspired by the writings of Shakespeare were discussed by Mrs. George W. Ross at a meeting of the Music Appreciation Group at the home of Mrs. Boyd N. Williams, Pine street, Thursday.

Verdi's opera Otello, which was revived at the Metropolitan Opera Monday was the principal topic of discussion. Shakespeare's Romeo and Juliet has been a continual source of inspiration to composers of both operatic and symphonic music said the speaker.

Recordings of the Dramatic Symphony, Romeo and Juliet by Berlioz, the opera of the same title by Gounod and Mendelssohn's Midsummer's Night Dream were played.

Following the meeting, tea was served by the hostess assisted by Mrs. C. J. Heiselman and Mrs. N. Swibold. Mrs. R. H. Pixley presided at the tea table.

English Stars Appear in Film, Holly and the Ivy

Four of England's brightest stars, Sir Ralph Richardson, Celia Johnson, Margaret Leighton and Denholm Elliott appear together in the London Films production, The Holly and the Ivy, a Curtain at 8:40 presentation at the Community Theatre.

The one-night performance Wednesday, Feb. 16, will be sponsored by the Ulster Garden Club. A lobby display of flower paintings has been arranged by Norbert Heerman of Woodstock.

Sir Ralph Richardson, who starred in such outstanding films as The Fallen Idol, The Heiress and Breaking Through the Sound Barrier, now gives another memorable performance as Martin Gregory, the gentle widower unaware of the problems of his three children.

Celia Johnson of Brief Encounter fame, last seen in this country in The Captain's Paradise, adds to her series of distinguished performances as Jenny, the girl eager to learn love.

Margaret Leighton who was so exciting in Noel Coward's The Astonished Heart scores again as Celia Johnson's sister trying desperately to forget about love.

Denholm Elliott, hailed by critics as the outstanding discovery of 1951 on Broadway and remembered for his performance in Breaking Through the Sound Barrier, and The Cruel Sea, is Mick, the young son who brings the family together.

Tickets for this film, a love story of rare quality, are being sold by members of Ulster Garden Club.

HendricksonPays $15 for Speeding

Robert L. Hendrickson Jr., 21, of Box 182, Rosendale, pleaded guilty in City Court this morning to a speeding charge and was fined $15 and sentenced to 15 days in jail.

The execution of the 15-day sentence was suspended by Judge Raymond J. Mino. Hendrickson paid the fine.

Hendrickson was picked up on a bench warrant when he failed to appear in City Court after being paroled for such an appearance.

In City Court yesterday the defendant pleaded innocent to the charge of speeding and Judge Mino put the case over until today to enable Hendrickson to obtain counsel. He changed his plea to guilty this morning.

Hendrickson was arrested on the speeding charge early Sunday on Broadway by Officers Charles McCullough and Hydrect Armstrong.

Red Batteries

would get only scorched earth on the Tachens.

RALPH BOYCE of the U. S. Foreign Operations Administration, who returned from the Tachens, said only one islander, an opium peddler wanted to remain behind.

Adm. Alfred M. Pride said in a message one of his U. S. 7th Fleet ships had sighted what appeared to be a periscope Monday about 100 miles from the Tachens.

Communist jets were sighted yesterday about 15 miles from the Tachens near the China coast and "going away," fleet dispatches said.

Communist guns have fired occasional bursts from islands near the Tachens at navy planes shielding the evacuation.

Pride said one of his patrol planes, "which inadvertently came within range of a small Communist-held island today," was hit by anti-aircraft fire which punctured three small holes in one wing.

Introduced Lemons

Available evidence indicates that lemons were first introduced into Europe by the Arabs between the 12th and 13th centuries.

Police Classes Are Set To Begin at 7:30 P. M.

The first class to be conducted by the Federal Bureau of Investigation in planned apprehension will be held at 7:30 p. m. today at the Ulster county court house.

Fire Damages Center

Ocean City, N. J., Feb. 9 (AP)—Fire roared through a huge boardwalk amusement center before dawn today and caused damage estimated at $250,000. The center, known as Playland, housed a skating rink, bowling alleys, penny arcade, shooting gallery, carousel, ferris wheel, kiddies' train and other amusements.

Winne reported the owner came to Kingston and the horses were released after being held for a time to feed them. When the horses were removed from the truck at the McCabe farm, they were so weak from hunger and cold that they were scarcely able to walk.

There are four dogs at the SPCA shelter on the Brabrant road which are being cared for by the organization. These dogs were thrown from cars along the highway to starve. Three were recovered on Lucas avenue and one on Route 28.

Eisenhower Sees

the reshuffle in the Soviet government.

The questions on that matter and other subjects developed these points.

ATOMIC WEAPONS—Eisenhower said there certainly is no proof Russia has surpassed the United States in development of the hydrogen bomb and other atomic weapons. This was in response to a request for comment on Soviet Foreign Minister Molotov's assertion yesterday that hydrogen bomb development by Russia has been so successful that it could make the United States appear backward in that field.

Eisenhower said it would be a remarkable feat if the Soviets have achieved superiority after starting behind the United States. He added the matter was not worth speculation.

FORMOSA—The chief executive said it would be idle to speculate on the possibility of a cease-fire in the Formosa strait inasmuch as Red China rejected a United Nations bid to discuss the matter and instead issued a very bellicose statement.

As for evacuation of the Chinese Nationalist Tachen islands under protection of the U. S. 7th Fleet, Eisenhower said it is going according to plan and should be completed soon.

Referring to Communist anti-aircraft fire that brought down a U. S. Navy plane yesterday in the Tachens area, Eisenhower said that was the plane that, as he put it, got a little lost—wandered off into a bad area.

American officials in the Far East have said they do not regard the shooting down as a hostile act since the pilot apparently got lost over the China mainland.

EDUCATION—The President spent several minutes discussing the seven-billion-dollar school construction program he outlined to Congress in a special message yesterday.

Eisenhower said he feels the program offers the best way to relieve a shortage of 340,000 classrooms without undue federal participation.

TRANSPORTATION — Eisenhower said a cabinet committee's study of transportation problems is not yet ready for publication.

AIRLINES—Questioned as to why he reversed himself and instructed the Civil Aeronautics Board to let both Northwest Airlines and Pan American World Airways fly the Portland-Seattle-Hawaii route, the President said he had been advised by the board chairman that it might be possible to discontinue government subsidies to the lines in the near future.

COAL—Asked about the possibility of import quotas on fuel oil to protect the domestic coal industry, the President said the matter had not come to his attention in that form. He added there has been steady progress toward elimination of import quotas in general.

FORMER PRESIDENTS—Asked for comment on legislation which would give former U. S. Presidents the non-voting rank of senators, the President replied that frankly he is not too sure of whether he is for that.

Eisenhower said that any man who has served his government in high places certainly should be of some value to his country. He said he believes former Presidents are always available for whatever service they can perform.

But, Eisenhower added, he would have no real objection to enactment of such legislation if some people feel there should be some formal action on the matter.

UNEMPLOYMENT — Eisenhower said he believes there always is some seasonal decline in employment after Christmas, but that this year the seasonal drop was not as acute as in other years.

SECRETARY OF THE ARMY—Asked whether Secretary of the Army Stevens plans to resign, the President said no word on that has come to his ear.

Speculation that Stevens might quit increased this year with the resignation of Army Counselor John Adams, who together with Stevens was a key figure in the controversy last year between army officials and Sen. McCarthy (R-Wis.).

Both Missouri and Ohio have a town called Aid.

High School Defeats Poughkeepsie in DUSO Game, 73-60

Brodhead Tops With 25 Points

Stickles Sinks 28 for Blues

Kingston High conceded Monty Stickles his 28 points and still beat Poughkeepsie High, 70-63, in a DUSO League game last night at the field house.

The big center got off to a slow start but was pestiferous in the fourth quarter.

But Coach G. Warren Kias had a guy named Skip Brodhead operating for his side and the Skipper finished with 25 points. Kias also had team balance that Poughkeepsie lacked.

THE WIN WAS the 7th for Kingston and moved them into undisputed possession of third place in the DUSO scramble.

There were a few anxious moments for Kingston, especially in the third period when Poughkeepsie sliced a comfortable lead to 39-36.

In the next few minutes, Kingston settled the issue emphatically. Don Baum sank a foul and Bob Maines, Brodhead and Lawrence followed with successive baskets. Stickles broke up the streak with a Poughkeepsie deuce but Brodhead bounced back with his second basket. Stickles and Lawrence traded fouls and the Kingston lead zoomed to 53-40.

BOB MAINES FOULED out on the tapoff for the fourth quarter and shorn of their best rebounder the Maroons played more deliberately in the stretch run. The Blues tried a press but without effect.

Stickles injected a bit of excitement in the fourth quarter when he ripped off eight straight points to cut a 59-44 Kingston lead to 59-52. Baum went diving under for a neat layup to break up the streak and the Maroons went into a semi-freeze for the rest of the game.

Kingston led 18-11 at the quarter after a brilliant exhibition of passwork. It was symbolic that Skip Brodhead was to rip in two quick baskets before the Blues had a chance to get settled in the spectacular field house setting.

BRODHEAD PICKED up his 25 points with a steady shooting performance. Ray Lawrence played one of his best games of the season with 16 points and Tom Flemming and Don Baum counted several key baskets in their 11 points.

Charlie Johnson, the football whiz, was the other Blue in double figures with 13 points, but Stickles was the show. He scored only one deuce in the first quarter but had 9 of Poughkeepsie's 15 points in the second period. He finished with 10 in the fourth period, eight in a row.

The boxscore:

Poughkeepsie High (60)

	FP	FP	PF	TP

Newburgh Academy marched a step closer to the DUSO League basketball pennant with a pivotal 58-54 victory over Middletown High, last night on the Middie boards.

It was the tenth straight for the unbeaten Goldbacks who lead Monticello by two full games. The Monties were idle last night.

THE GAME WASN'T as close as the score indicates as Middletown scored eight points in the last minute to slice into a comfortable NFA lead.

Mickey Burkoski led the Goldbacks with 22 points and Harold Kaplan hit 14. Steve Tompkins topped the Middies with 16. NFA led 24-21 at the half.

CHARLIE JENKS' set shots racked up 18 points to pace Port Jervis to a 67-50 win over Liberty which suffered its 11th straight loss. Thompson led the Redskins with 12.

Ellenville defeated Fallsburgh in a rousing battle, 65-56, as Bob Jones and Ed Knight hit 17 and 16 respectively. Allenstein led the mountaineers with 14 and Kinsbrunner had 12.

Siena to Meet Wayne U. Next

The Siena College basketball team, in the throes of a six-game losing streak — replete with heartbreakers—plays host to a Wayne University quintet Saturday at 8:30 p. m. at Albany Armory.

Wayne has had its troubles too. The Tartars have won seven and lost ten. But some of the defeats were tough ones to lose. Included in this group are a five-point loss to Valparaiso, a three-point defeat to Youngstown and a four-point loss to Bradley.

The brighter side of the Wayne picture includes victories over Penn State, St. Francis of Pa. and Brandeis.

Siena has lost heartbreakers also. These include losses to Manhattan by two, Gonzaga by two and LeMoyne by four. There were two defeats by St. Bonaventure—once by four points and again by two—in overtime.

Luis Olmo, former Dodger and Braves outfielder, now is a scout for the Milwaukee Braves.

Newkirks, Milk Bar Score in 'B' League

Newkirk Aces trounced the Profs, 55-41, for their eighth victory in the YMCA "B" basketball league.

In the companion piece, J&E Milk Bar had a big third period—24 points—to turn back Accord, 63-59, to go two games over the .500 mark with a 6-4 record.

HARRY LA FORGE and Frank Secreto found the basket from every angle to engineer the Milkmen's second half attack. They trailed 32-27 at the half but the big third period explosion put them ahead to stay.

La Forge hooped 14 deuces and two free throws for 30 points. Secreto picked up 25 on a dozen baskets and one conversion. Milford Ebert led Accord with 15. Phil Wortas scored 14 and Andy Anderson hit 11.

NEWKIRKS followed the J&E pattern to rack up a 20-4 edge in the third quarter, after shading the Profs, 20-18 at the halfway mark.

Beaky Smith's 16 points paced the Aces, who also had Jake Smith (12) and Ronnie Diamond (10) in double figures. Howard Gardiner had 11 points for the Profs.

Jayvees Beat Blues, 46-36

Coach John Gilligan threw 13 players into the breach as the KHS Jayvees romped over the Poughkeepsie yearlings, 46-36, in last night's prelim at the field house.

The Maroon mentor cleared the bench after the regulars, led by Bob Smith's 17 points, had run up a big lead in three periods.

SMITH HIT consistently across three periods to pace the locals with 17 points. Tony Grimaldi rimmed 9 and Tony Turck and Mel Williams each had 8.

Jim Defazzio led Poughkeepsie with 12.

Hoyt Wilhelm, knuckle-ball relief hurler for the Giants, received the Purple Heart during World War 2 for wounds in the Battle of the Bulge.

Monroe Outlasts Marlboro

Monroe-Woodbury Central winged ahead of Marlboro Central, 25-16, in the first period and made the lead stand up to shade the UCAL squad, 67-66, last night at Marlboro.

The visitors were outscored 35-27 after the recess.

CARSTON CONN, Marlboro's crack center, canned 23 points for the Ulsterites. Joe Sarra hit 12 and Dick Collins 10.

Greg Brown, Monroe guard, was the individual leader with 26 points. Marlboro plays Kerhonkson in a UCAL game Friday at Marlboro.

Saugerties High ground out a methodical 70-53 victory over winless Onteora Central, in an Ulster County Athletic League game yesterday at Saugerties.

The Boiceville Indians made it interesting in the first half but Saugerties' overall power asserted itself after the recess.

IT WAS AS close as 8-5 in the early going, with Ronnie Locke scoring the first five Onteora points. Coach Bill Straub's Sawyers pulled away to a 38-28 margin at the half and completely dominated play in the second half.

BILL HANNA led the Sawyers with 19 points and Joe Martin and Bob Hansen rimmed 16 apiece. Ben Robinson led the Indians with 15 and Locke finished with 14.

Nats Rip Celtics

By The Associated Press

The Syracuse Nationals, who have alternated with the Boston Celtics in leading the Eastern Division the past two weeks, are in a good position to take advantage of a battered Boston team to enlarge their NBA lead.

Syracuse, hampered all season by the loss of Wally Osterkorn and Billy Gabor, romped to a 115-88 victory over Boston, and the New York Knickerbockers defeated the Minneapolis Lakers 98-95 in a doubleheader last night in New York.

ALL-AMERICA Frank Selvy dropped in 30 points to lead the lowly Milwaukee Hawks to a 102-95 triumph over the Philadelphia Warriors at Saratoga Springs, N. Y.

The Nats outclassed the injury-ridden Celtics, who were playing without Easy Ed Macauley, Bill Sharman and rookie Frank Ramsey. Syracuse led from the opening minutes and held a 25-point lead early in the third period. The victory increased the Nats' lead to two games.

Dolph Schayes topped the winners with 27 points while Bob Cousy was high for Boston with 24.

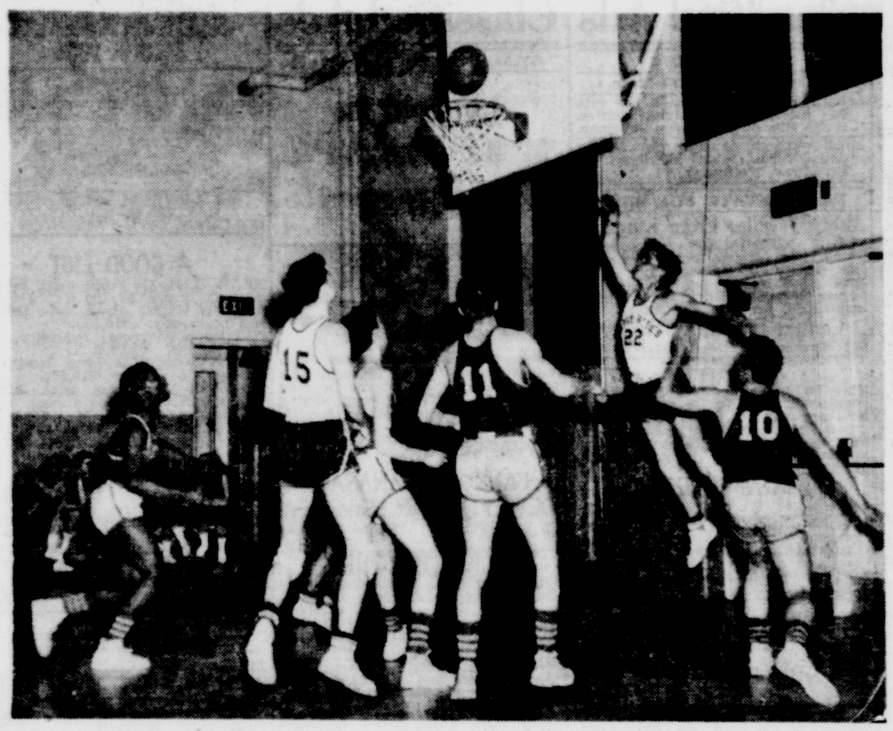
A FOURTH PERIOD scoring spurt, paced by Harry Gallatin, who was honored before the game for playing in his 500th consecutive NBA game since joining New York in 1948, moved the Knicks to within one game of second place.

The Knicks, ahead at the end of the first period and halftime only to be deadlocked with Minneapolis after three periods, finally broke the game wide open with eight straight points in the last five minutes.

Sweetwater Clifton and Gallatin paced the Knicks with 18 and 17 points, respectively. Clyde Lovellette of the Lakers got 27.

Selvy, who is the leading scorer in the NBA, added to his lead as he dropped in 10 field goals and 10 fouls for his 30 points. Charley Share chipped in with 22 and rookie Bob Pettit added 17 for the Hawks.

Richmond, Calif.—Alex Amador, 149¼, San Francisco, stopped A. Barbero, 148, San Francisco, 4.



BILL HANNA'S LAYUP SHOT is just about to start its descent through the hoop in a hectic moment during the Saugerties-Onteora basketball game. Hanna is No. 22. Bob Hansen (15) Saugerties looks on, along with (11) Ronnie Locke of Onteora. (Freeman Photo).

Geo. Washington Bids For Repeat in Southern

By ED WILKS
(The Associated Press)

A guy named Joe has George Washington on the move in college basketball and the Colonials figure they're rolling into another NCAA playoff berth.

The Colonials, ranked No. 6 in this week's Associated Press poll, stretched their winning streak to seven games last night with a 73-67 victory over 11th ranked Maryland. And once again it was Joe Petcavich who kept GW hustling.

JOEY, A 6-5 junior, pumped in 33 points—12 in succession in the first half. Maryland thought it had the Colonials solved by holding Walt (Corky) Devlin to six points, his lowest output of the season, but Petcavich took up the slack.

The victory, second this season over the Terps, made GW's mark 16-3 and added authority to the Colonials' drive for a repeat as champs of the Southern Conference.

Even though it was a non-conference defeat, Maryland lost a share of the Atlantic Coast Conference lead as North Carolina State, No. 7 nationally, blitzed Virginia 114-97. NCS, which now has scored 233 points in two games ,and the Terps lead the ACC with 8-2 marks.

IN OTHER TOP games, Colorado Western State blocked Idaho State's bid to wrap up a third straight Rocky Mountain Conference title and an automatic NCAA berth, 75-67. It was Idaho State's first conference defeat in nine games—they have one left—and only their second league setback in three seasons.

Penn strengthened its Ivy League lead with a 62-54 decision over Columbia while Princeton knocked off defending champ Cornell 71-47. In the Big Seven, Iowa State defeated Kansas 77-59; and in the Southwest Conference it was Rice 79, Texas 70.

North Carolina State scored on almost every opportunity against Virginia with six players hitting in double figures. But none could touch Buzz Wilkinson, who scored 34 for the losers. Ron Shavlik topped the Wolfpack with 25.

PENN GAINED a 1½-game lead over runnerup Columbia in the Ivy race as the Quakers again put their running game in motion and defensive ace Karl Hoagland limited the Lions' Chet Forte to 16 points. Forte had scored a 67-point total in his last two league games.

Princeton and Iowa State, meanwhile, got their usual lift from their big men. Capt. Bud Haabestad scored 26 in the Tigers' success over Cornell and Chuck Duncan canned 37 for the Cyclones against Kansas.

In other games, Holy Cross whipped Yale 80-56 after falling from the top 20 in the poll with defeats by Niagara and Syracuse last week. Both losses were considered upsets and Syracuse kept at it last night by spilling Niagara 87-83.

Elsewhere, Western Michigan won its sixth straight by beating Loyola of Chicago 88-84; Dartmouth outclassed Connecticut 69-54 for the Uconn's third loss of the season; Brooklyn St. John's trailed by five at the half, but defeated Fordham 64-56, and Boston College sank three free throws in the last 30 seconds of an overtime period to beat Harvard 73-70.

Jackie Ferraro's 639 Gross Sets Pace for Team

Sportsmen Set New Game High With 1108

Elstons Sport Shop of the Hudson Valley League took over second place in the gross division of the KBA's city championships with a 3083 series last night at the Central Recs.

The score was highlighted by an 1108 game blast for a new tournament high. American Legion of the Junior Major had rolled 1092 on opening night.

Jackie Ferraro's 243 single—a new high for the tournament—sparked the Elstons and replaced Jim Amendola's 238 of opening night.

FERRARO PACKED 603 net with 243-166-194 and grossed 639. Tom Carlino hit 210-225 for 626 gross. Joe Ausanio had 223-620 gross and Tom Amato 605 gross. Fred Rice completed the shooting with a 204-593 gross.

Elstons' 2876 net failed to disturb the nifty 2953 rolled by Wilber Heating Monday night.

Only other major change on the standing board was created by Tool Room of Electric with 2968 gross for sixth place.

BEST INDIVIDUAL scores last night included Buster Ferraro's 608 net and Jack Ferraro's 603, Bill Hornbeck of Herzog Supply fired 203-201 for 671 gross and Buster Ferraro grossed 644. Tony Donato of the Ardonia boys grossed 644 and Ronnie Mauro had 221-644.

Highest team net scores were Elstons 1039 and Rapps Express 1005.

MITZIE ARLENSKY grossed 234-634; Ephraim Propp 637 and Joe Costello 231-634.

Otto Scherrieble 628; Tommy Carlino 210-225-626; Bill Short 622; Joe Ausanio 223-620; Jim Kelly 616; Joe Bruck 614; Tom Amato 605; John Bailey 224-607; Ed Truey 602 and Howard Ellsworth 600.

Others in the top bracket were Harold "Chick" Smith with 203-595 gross; Fred Rice 204-593; Harry Hines 204-569; Ken Joseph 211-541 and Jack Hogan 213-552.

Following Elston Sport Shop's new high gross team single of 1108 came Rapp's Express with 1072, The Capri with 1069, Turrets 1066, Vanderlyn Battery 1043, Tool Room 1020, A. I. Men's Club 1007 and Ardonia Boys 1005.

Baker Pick Over James

Baltimore, Feb. 9 (AP)—Heavyweights Bob Baker of Pittsburgh and Willie James of Roxbury, Mass., meet here tonight in a nationally televised 10-round bout in which Baker's rating as fourth-ranking heavyweight will be at stake.

The fight in the Baltimore Coliseum will be televised (CBS) starting at 10 p. m. (EST).

THE 28-YEAR-OLD Baker, towers 6-foot-2 and will enter the ring weighing about 215. James, 27, is an inch taller and weighs about 210.

In 20 fights, the unranked James has won 16 and lost four. He's known as a good puncher—11 of his opponents failed to finish—but sportsmen say he hasn't got Baker's ring savy.

Baker has 18 knockouts in a ring career of 37 victories, four losses, and a draw.

National Hockey League referees handed out approximately 100 minutes more in penalties this season for the first half of the schedule as compared to the same period a year ago.

Wilhelm, Monzant Sign Giant Pacts

By The Associated Press

The world champion New York Giants undoubtedly will have a contented squad on hand when the squad reports to Phoenix for spring training March 1.

Usually after a team wins a World Series, it has trouble when contract-signing time comes around. But the Giants have experienced little difficulty in getting their players to agree to terms for the 1955 season.

Two pitchers, Hoyt Wilhelm and Ramon Monzant, were added to the fold yesterday to bring the total to 33. Only Sal Maglie, Bob Lennon and Foster Castleman remain unsigned.

WILHELM, the knuckleball relief ace, had a 12-4 won-lost record last season, compiling a 2.11 earned run average. No salary figures were disclosed, but it is estimated he will receive about $16,000.

Monzant appeared briefly with the Giants last season. The Venezuelan righthander won 11 and lost seven with Minneapolis of the American Association.

Wilkes-Barre, Pa.—Tony Beldoni, 155, Wilkes-Barre, outpointed Mike Zolucci, 150, New York, 8.

Seldom has a series of circumstances created more confusion than the ending of the Kingston-Port Jervis basketball game last week.

While press and radio reports agreed unanimously on their version of the dramatic finish, a man's intuition told him something could be wrong.

Our high school correspondent was sure things happened as they were reported the next day on these pages. But you asked yourself: why should Coach Kias substitute for his best scorer with the game at stake?

Within a few seconds in the rough going of the fourth quarter, Skip Brodhead had converted two free throws to boost a shaky 53-52 Kingston lead to a more comfortable 55-52. Then he was fouled again. He made the first for a string of three straight, but missed his second try. That edged the Maroons to a 56-52 margin. Port was later to deadlock the score at 64-64 but Skip's three points were extremely important.

No, said Mr. Kias, he would never think of substituting anybody for his top man. It was just a case of mistaken identity.

• Flotsam and Jetsam:

The end of the basketball season is closer than you think. New Paltz State has only four games after Saturday's skirmish with Drew University. . . . The UCAL winds up on Friday, Feb. 25, with no playoffs planned. . . . Only three home dates left for KHS after last night's battle with Poughkeepsie. . . . Pitcher Jerry Lane of Windham, who had a 13-8 mark and 2.97 ERA with Chattanooga last season, is touted as a Cincinnati Redleg prospect this year. . . . Ad Jones brought Lane to Kingston as a catcher, no less in the days of OB at the stadium. . . . Can any woman bowler tell us the highest league series ever bowled by a local woman's team. . . . The trouble with Ralph Branca, who indulges in pitching warm-up sessions with Gil Hodges as his catcher at the Vernon Hills Country Club during the winter is not his arm . . . or his head . . . but in his back. . . . Stan Musial hit a homer in every National League park except Chicago's Wrigley Field during the 1954 season.

Architect Robert Trent Jones still holds to his promise to have nine holes ready at Wiltwyck by Memorial Day, president Art Davis has announced. . . . Meanwhile, Albert E. Milliken and Hoyt Clancy are collaborating on plans for the new clubhouse. . . . There was this luncheon to honor heavyweight champion Rocky Marciano, and Gene Tunney got up to the dais and boo-booed, "There is none more deserving than Rocky Graziano. . . ." Ike Trowbridge and Griffin Stoutenburgh are doing heavy duty these days clearing the brush from Wiltwyck's front nine. . . . Utah Coach Jack Gardner is the latest to climb aboard the Tom Gola bandwagon in calling the La Salle "team" the greatest college cager of all time. A St. Petersburg, Fla., golf foursome any day now will include Allen, Billy and Herb Waterous and Tony DeLisio.

Richard Gendreau Jr. of Ulster Park is a member of the Ithaca College varsity wrestling team. The KHS graduate is No. 1 man in the 177-pound class and to date has won four out of five matches. Gendreau is considered a top team prospect for the National Collegiate championships at Cornell University, March 26-31. Ithaca has won four out of five matches this season, beating Wilkes, West Virginia, East Stroudtburgh and Syracuse. The only loss was to R.P.I. . . . The race horse Nashua gets special drinking water which is bottled and shipped to Hialeah from Hot Springs, Ark. But, to date, no Scotch.

EXPLORERS RUN CITY FOR DAY—Explorer Scouts from Post 11, St. James Church, and Post 12, Old Dutch Church took over city government Tuesday, under direction of Mayor Frederick H. Stang, and ran various departments at City Hall in observance of Boy Scout Week. Explorer Mayor Dick Spoth of Post 11 sits at desk with Mayor Stang as they read an important communication, observed by Explorers acting in official capacity (l-r) Peter Kelderhouse, city treasurer; Louis Aprea, police chief; Irv Zwilling, superintendent of recreation; Karl Rose, superintendent of board of public works; John Bonesteel, alderman-at-large; Leith Harrison, fire chief; George Acker, assessor; Girard White, director of city laboratory; Ed Drake, city clerk. Explorers are boys from 14 years of age up. The group was pleased with the visit to City Hall, and Mayor Stang was happy to have them. (Freeman photo).

Health Committee Sponsors Film, Talk

The Heart Committee of the Ulster County TB and Health Association sponsored a health program at the meeting of the Stone Ridge Fire Auxiliary Feb. 8.

The film, Guard Your Heart, was shown by Joseph J. Merola, health education assistant, and discussed by Dr. Curtis P. Bight, a member of the medical advisory board of the committee.

These programs are sponsored by the Heart Fund.

City Electric Opens New Store

The City Electric Supply Company, a new enterprise for Kingston, has opened its doors at 46 Prince street, corner of Garden street.

Joseph E. O'Connor of Rosendale, president of the new company, has announced that Norman Spinneweber of 105 Tubby street will be the manager. Spinneweber was associated with the Kolts Electric Supply Company of Grand street for the past 15 years, prior to that organization's retirement from business.

The City Electric Supply Company will feature a complete line of wiring supplies and electrical fixtures at its new store, located in the central section of the city.

QUESTION: Why are juries awarding such terrific amounts in personal injury damage suits? Are they getting more sympathetic or are the plaintiff's lawyers getting better or what?
ANSWER: There are several reasons for the larger awards. Medical and hospital costs are away up and other expenses and property costs are higher. Also the earning power of most people has increased tremendously and the loss of that income due to accident can reach staggering figures.

FEB. 6 — FEB. 12 BOY SCOUTS ANNIVERSARY WEEK

VOL. LXXXIV—No. 97 CITY OF KINGSTON, N. Y., THURSDAY EVENING, FEBRUARY 10, 1955. PRICE FIVE CENTS

RECEIVING TITUS DONATION—Attorney S. James Matthews, chairman of the 1955 Ulster County Heart Fund receives $500 check from Mrs. Dorothy H. Titus of Wallkill in memory of her husband, a heart victim. Fred C. Terwilliger, banker, one of a committee working on a memorial fund, and Mrs. George Geyer, Heart Fund chairman for the Town of Shawangunk, observe the presentation. (Freeman photo).

Heart Victim's Widow Gives $500 to Research

S. James Matthews, campaign chairman for the 1955 Ulster County Heart Fund, announced today that an initial gift of $500 has been made toward a special heart medical research project for Ulster county.

The contribution was presented to Chairman Matthews by Mrs. Dorothy H. Titus of Wallkill as a memorial to her husband who died suddenly on January 17, 1954 of a heart attack.

Saddened and shocked by the sudden death of Harold H. Titus, a businessman of Wallkill, residents of the Village of Wallkill, Township of Shawangunk and surrounding area created a memorial heart fund in tribute to him.

Fred C. Terwilliger of the Valley National Bank, George W. Crist, merchant of Wallkill, Gerow Schoonmaker of Wallkill and others worked on this committee with Mrs. Titus.

A CONTRIBUTION of $50 to the Ulster County Heart Chapter and $25 to the Orange County Heart Chapter was made from the fund during 1954.

In presenting the check, Mrs. Titus and Terwilliger said they were honored in contributing the initial gift from Shawangunk for this important part of the heart program.

In announcing the acceptance of this generous contribution, Chairman Matthews revealed that a special project in medical research for heart is being planned for Ulster county by the Heart Chapter. He said, "Contributions received in the mail appeal and from other sources during February are used for the current heart program of Ulster county, ie., for lay and professional education and research, as well as for a community heart service for medically indigent patients needing electrocardiograms, X-rays and other diagnostic procedures and tests.'

THIS YEAR the Heart Chapter has voted to set aside at least $3,000 for a special research project for Ulster county. At least $8,000 is needed to carry on the general heart program. All monies received over and above the $8,000 needed will be set up in the special heart research grant. The Titus memorial is the first contribution given toward this project.

Matthews said, "More and more families and friends are making memorial contributions to the Heart Fund. In this they find deep satisfaction in having both served the living while paying thoughtful tribute to the memory of a friend, associate or relative."

Heart appeal letters will be mailed to residents of Ulster county this week so that everyone will be given the opportunity to contribute to the Heart Fund of 1955.

Newburgh Man Is Given 8 Months For Cop Posing

George John Raymond Jr., of Newburgh was given an eight months sentence in the Ulster county jail today by County Judge John M. Cashin, following a plea of guilty to a charge of impersonating an officer.

In accepting the plea of guilty, Judge Cashin said the law enforcement officers of the county as well as the public must be protected from this type of offense.

RAYMOND, who has an excellent war record, was represented by Joseph Torracca of Marlborough who asked the court that leniency be shown in view of the past record of defendant.

It was charged Raymond on December 1 and 2 entered the Mirror Lake Lodge and represented himself as a state trooper and attempted to "shake down" the proprietor. In sentencing Raymond, Judge Cashin stated that this type of offense could not be tolerated. On each of two counts of the indictment an 8 months jail sentence was imposed, the two sentences to run concurrently and credit was allowed for the time spent in jail.

ALONZO BURGER of Kingston changed a former plea of innocent to one of guilty to a charge of violation of Section 483, Subdivision 2, a morals charge, alleged to have been committed on February 16, 1954. John Larkin appeared for the defendant who entered a plea to the first count of the indictment. Bail was continued and sentence will be pronounced on February 14 at 2 p. m.

A civil action brought by Daisy Tighue against D. Nelson McElhenney, an action on contract, was announced settled. Stewart T. Schantz appeared for plaintiff and Walter J. Miller for defendant.

There being no other business court recessed until Monday at 2 o'clock.

Control Is To Stay on N.Y. Rents

Landlords Told To Forget Issue

Albany, Feb. 10 (AP)—Joseph Carlino, Republican majority leader of the Assembly, says there will be no decontrol of rents in New York state—despite landlord's' clamor against the curbs.

Carlino, who is also chairman of the temporary State Commission on Rents, and Rental Conditions, told a witness at a noisy public hearing yesterday:

"THERE WILL be no decontrols. Get that out of your head."

Carlino did not make clear whether he was ruling out any extensive relaxation of rent controls upstate. He had suggested that curbs might be dropped on a trial basis outside the New York city area.

But he did state emphatically that the rent ceiling statute—slated to expire June 30—would be continued.

"THE ONLY question before us," Carlino said at the outset of the commission hearing, "is whether we should strengthen or relax some of the provisions of the law."

GOP lawmakers are known to be inclined toward easing curbs upstate.

More than 500 landlords and tenants jammed the Assembly chamber—standing in the ailses and packing the balconies— to register their opinions. Many wore lapel buttons reading "Ease Rent Controls."

PARTISANS alternately booed and cheered witnesses supporting or opposing continuance of the control statute. About 100 persons spoke at the 6½-hour session.

The rent law covers 2,787,000 dwellings in 42 cities. Localities have the option of removing controls if they feel conditions so warrant.

State Rent Administrator Charles Abrams, an appointee of Gov. Harriman, drew repeated boos, jeers and catcalls from the crowd during his presentation of the Democratic administration's rent control program.

A statement by Democratic Mayor Robert F. Wagner of New York city, read by a representative, got similar treatment.

AT ONE point, while Abrams was speaking, Carlino threatened to clear the chamber if the demonstrations continued.

Abrams, asserting that "the

Edison to Build Atom Power Plant

New York, Feb. 10 (AP)—Consolidated Edison Co., of New York, is about to announce plans for construction of the nation's first atomic power plant relying mainly on private financing, it was learned today.

AN ELECTRIC INDUSTRY source said that Consolidated Edison will build a 100,000 to 200,000 kilowatt plant fired by nuclear fuels. Announcement of the plans was expected later today when Hudson R. Searing, the utility's president, testifies before the Joint Congressional Atomic Energy Committee in Washington.

Representatives of the company in New York said there would be no comment until after Searing had appeared before the committee.

Consolidated Edison previously had said it asked major producers of atomic power equipment to design and offer prices

Moore Explains Equalization

Buffalo, Feb. 10 (AP)—Frank C. Moore, chairman of the State Board of Equalization and Assessment, says he'll do all he can to make sure enforcement of lower state equalization rates will not hit any town with "two blows in one year."

Moore told the annual meeting of the State Association of Towns yesterday that he favors softening the blow by spreading it over a three to five-year period.

The state board issued new equalization rates for the towns of the state last fall and will issue rates for the villages in the near future.

The three-man board has an application by the city of Buffalo to supplant the town rates set by Erie county with those of the state. Such a move would mean a savings of about one million dollars for county taxpayers within the city of Buffalo.

The amount would have to be made up by taxpayers in the towns.

The Buffalo case is considered a test of whether the state board actually would use its power to override county equalization rates for county tax purposes.

Harriman Turns To Town Officials In Budget Feud

Buffalo, Feb. 10 (AP)—Gov. Harriman has turned to New York state town officials for support in his running budget feud with the Republican-dominated Legislature.

The governor said last night a cut in his proposed spending program would be a backward step in state government that would mean an increased burden on cities, towns and villages throughout the state.

MORE THAN half of his $1,345,200,000 budget for 1955-56 was tabbed for aid to local governments, Harriman declared.

The Democratic governor made his remarks at the annual dinner of the State Association of Towns.

Harriman has run into sharp Republican opposition to his budget and to his proposals for $127,600,000 in state tax increases. But so far, Republican lawmakers have not come up with a plan of their own.

"IF WE CUT back on state aid," Harriman said, "it would simply shift the burden from the state to local communities and from state income and excise taxes to local property taxes".

Earlier in the day, the association took issue with the governor by calling for private development of more hydroelectric power at Niagara Falls.

Harriman believes the job should be taken on by the State Power Authority.

A MOTION to endorse private development of the falls was tabled at the association's meeting last year pending a survey of member towns.

A report read yesterday in-

Islands Are Evacuated In Entirety

7th Fleet, Jets Protect Move

Taipei, Feb. 10 (AP)—Nationalist China has stripped three small islands near the Red mainland of their entire population—civilian and military—and begun redeployment of its forces on the burned and blasted Tachen Islands, the defense ministry said today.

A communique said all the civilians from the two Yushan islands, 30 miles north of the Tachens, and from Pishan, 32 miles southwest of the Tachens, had arrived in Formosa.

The communique said Guerrilla forces from those islands had been redeployed—indicating they possibly were taken to Quemoy, Matsu or Nanchishan.

REPORTS from the Tachens said Nationalist troops were nling aboard U. S. transports in biting cold and rain squalls. The civilians already had left.

There was still no sign of Chinese Communist interference.

Explosions reverberated around the Tachens as Nationalist President Chiang Kai-shek's forces blasted and burned a maze of underground defense works. Other troops shuttled tons of ammunition and other supplies to the rocky beaches.

U. S. 7th Fleet warships churned the east China Sea around the island and jets swept

Detective Is Held For Shooting Wife

New York, Feb. 10 (AP) — A detective attached to Dist. Atty. Frank S. Hogan's staff was accused today of critically shooting his wife—mother of a two-week-old baby.

The detective, Charles F. Dreher, 36, of Brooklyn, was charged with felonious assault and suspended from the police force without pay.

POLICE SAID the wife, Irmgard, 31, was dozing in bed at about 11 o'clock last night when a pistol shot struck the right side of her chest. She ran screaming down a stairway from their second-floor flat and collapsed in a vestibule.

No motive was assigned except that Dep. Chief Insp. William G. Kimmins said the couple had been having "family quarrels."

Police quoted Dreher as giving two versions—one that the gun went off accidentally while he was cleaning it and also, that it went off while he was "just kidding around."

THE WIFE was taken to Wyckoff Heights Hospital in Brooklyn. The couple has two children in addition to the infant, who was sleeping in a crib in the same room with the mother at the time of the shooting.

Dreher was held without bail for further hearing Feb. 15 when arraigned this morning in felony court before Magistrate A. Lawrence Acquavella.

HISTORIC HANDSHAKE—President George Meany, left, of the American Federation of Labor, and Walter Reuther, president of the CIO, join in a handshake in Miami Beach, Fla., Feb. 9, to seal the bargain after they announced the two union groups had come to an agreement on a merger. (AP Wirephoto)

Giant Member Drive Is Planned by Unions

Miami Beach, Fla., Feb. 10 (AP)—The nation's top union leaders, agreed on consolidating forces into a single organization, today planned a giant drive to take in millions of new members.

Leaders of the American Federation of Labor and Congress of Industrial Organizations decided to bury traditional rivalries and embark on the same sort of intensive mass organizing campaign that sparked the CIO's surge two decades ago.

The AFL and CIO chiefs worked out what appeared to be an ironclad arrangement to merge into one 15-million-member union federation.

A LONG SERIES of ratifying actions still was required to sermonize the wedding, but declarations of intentions from principals appeared convincing. Both George Meany, top man in the AFL, and Walter Reuther, CIO chief, predicted the merger would be an accomplished fact before the end of the year.

They said a well-financed organizing drive to take in new members would be launched and where possible unions in the same general field would be combined to make more effective their bargaining and political powers.

An initial organizing goal was the chemicals and plastics industries. A field where combining rival unions appeared most likely was in the textile industry where relatively weak AFL and CIO unions have largely neutralized each other for years.

THERE WAS no way of anticipating whether the apparently stronger union setup would bring on bigger or longer labor strikes, but it was apparent that AFL and CIO leaders felt their hand would be strengthened in dealing with employers.

In arranging the merger agreement yesterday the union chiefs, accustomed to hard horse-trading with employers, played a give-and-take role with each other.

The AFL was given the top jobs in the new setup. Meany was assured of the presidency and AFL Secretary-Treasurer William Schnitzler will have the same title in the merged federation.

The CIO won the right to enter the AFL as a union group and to organize entire plants from top to bottom in individual unions without regard for AFL crafts.

IN ADDITION, it was agreed that the leadership for the ambitious new member organizing

Cashin Directs Mental Exam for Anna Bechtold

County Judge John M. Cashin Wednesday signed an order directing a mental examination of Mrs. Anna Bechtold, 58, who stands charged with the murder of her husband, William Bechtold, 48, at their home near the Nevele Country Club, Ellenville, September 14, last.

An application was made to the Court for an examination of defendant to determine whether she is mentally capable of preparing her defense to the first degree murder charge. The application was made by N. LeVan Haver and James Abernethy who have been assigned as defense attorneys.

BECHTOLD was shot several times with a shotgun and was found dead after Mrs. Bechtold had summoned police officers from the Bechtold home in Samsonville where they maintained a permanent home. The shooting took place at a property owned by the Bechtolds near Ellenville where they lived while Mr. Bechtold worked as a chef at the Nevele.

The application was made on the grounds Mrs. Bechtold is not mentally responsible and would be unable to properly defend herself or prepare for trial at this time.

UNDER THE ORDER of Judge Cashin she will be examined by qualified doctors, probably from the Middletown State Hospital, or in conjunction with a local doctor to determine her mental capacity and determine whether she is mentally competent to stand trial at this time.

70 Million Are Likely To Resist

Opposition Big Moscow Problem

Vienna, Feb. 10 (AP)—Russia is going to have trouble in East Europe by returning to its "guns instead of butter" policy, western diplomats in Vienna believe.

These East European experts don't expect the fall of Georgi Malenkov to bring many changes in the leadership of the Soviet satellites. One or two "front" men for the apparently outdated policy of more consumers goods may lose their jobs. But these diplomats think Russia will be just as happy to let "collective leadership"—on its way out at home—continue in the satellites as a barrier to any new Titos.

THE BIG EFFECT of the Moscow changes, the diplomats predict, is likely to be in the resistance of the 70 million people of Poland, Czechoslovakia, Hungary, Romania and Bulgaria.

Opposition to the Communist regimes was strong before Stalin died and Malenkov announced his policy of more for the people. That "new look" policy undoubtedly lessened suppressed resistance a little, but there is still a great deal. Recent Iron Curtain travelers report continued bitterness and disillusionment.

With the new back-to-Stalin industrialization policy, western diplomats expect resistance to increase again. Some observers expect it to be kept underground by a revival of the Stalin "big stick" terror policy.

SOVIET FOREIGN Minister V. M. Molotov's threat to join Russian and satellite armies under one command may have another purposes besides a military one: it could help to keep the restless East European masses under control, observers here point out.

Economic conditions behind the Iron Curtain are not good. Despite a year and a half of the "new look" and emphasis on agriculture, the Reds report immense shortages in food supplies. Now has there been a great increase in consumer goods.

Churchill Plans Bulganin Talks

London, Feb. 10 (AP)—Prime Minister Churchill said today he will eventually seek talks with the new Soviet premier, Marshall Nikolai Bulganin.

HE TOLD the House of Commons, however, a favorable time from him, President Eisenhower and the French premier to sit down with Bulganin is unlikely to occur before the final ratification of the London-Paris agreements for rearming West Germany in western defense.

750,000 May Get Polio Vaccine

Albany, Feb. 10 (AP)—The State Health Department is planning to vaccinate about 750,000 school children against polio next spring—if studies show the new Salk vaccine is effective.

Dr. Herman E. Hilleboe, state health commissioner, said yesterday the department was making its plans now pending results of the Salk study, undertaken by the National Health Institute.

THE RESULTS of the field test of the Salk vaccine will not be known until April, Hilleboe said, but the department must be ready to go ahead with vaccinations if they are favorable.

Hilleboe declared that all first and second-grade children would be eligible for the vaccine because they were in "a highly susceptible age bracket."

YOUNGSTERS who took part in last summer's field tests but did not receive the vaccine also will be eligible, he said. Only half of the 230,000 New York children who participated in the tests actually received the vaccine. The others got a neutral substance.

Only those children whose parents request it will be given the vaccine, Hilleboe emphasized.

The material will be supplied by the Nationa. Foundation for Infantile Paralysis and administered without charge to eligible children. It also will be made available to physicians through commercial channels for vaccination of other age groups.

Democrats, Perry Hold Up Money to See Trucks First

A recessed Common Council meeting adjourned last night without action on a bond issue for public works equipment and a statement by six aldermen favored demonstrations by all bidders of the equipment to be bought.

The bond issue, as requested at the regular meeting Feb. 1 would be for four refuse-collecting vehicles at an estimated cost of $36,381, a chip spreader at $1,949 and a truck self-loader at $2,530, bringing the total to $40,860.

The five Democratic aldermen and Samuel J. Perry, Fifth Ward Republican held out for demonstrations by bidders "at a time when they can be observed by all the members of the Common Council."

A unanimous vote at the regular meeting last week favored a bond issue of $118,750 for street work, but as has happened in many other years, they failed to agree on the equipment proposal.

The statement by Aldermen Edwin Radel, Arthur Smith, William K. Bodenweber, James K. Ryan, and Charles J. Cole, Democrats, and Perry, the Republican, also presented technical reasons for their refusal to vote on the bond issue last night.

Third Ward Alderman Radel sought to explain the position of the dissenting councilmen after Benjamin A. Storms, (R.), 2nd ward, moved for adjournment, but Alderman-at-large Joseph Kelly contended that such opinion belonged to committee report.

The dissenting statement said that after aldermen had observed a demonstration of a Gar Wood Load Packer refuse-collection

GUESTS AT VETERAN VOLS DINNER—Among those with 50 or more years of service at Wednesday night's dinner of the Veteran Volunteer Firemen's Association of Kingston were (front l-r) Joseph Hasbrouck, William Walter, George J. Schryver, Harry B. Walker, former mayor; and Edgar T. Shultis, former sheriff; rear, Michael Graney, Fire Chief Joseph L. Murphy, Bert Soper, retired patrolman and once a paid fireman; Wright Maines, retired paid fireman and City Historian Joseph F. Sullivan. (Freeman photo).

Snyder Calls for Backing Of Firemen's Convention

Lauding the past efforts of the volunteers and calling upon them to meet the even bigger challenge during next summer's Hudson Valley Volunteer Firemen's Association convention in Kingston, Frederic Snyder, local traveler and lecturer, addressed the third annual dinner of the Veteran Volunteer Association Wednesday night.

Snyder, offering praise to the 50-year members who were guests at the program held at Trinity Lutheran Church, offered sincere encouragement to all workers to help make the 1955 convention a success.

The local news analyst first conducted a memorial service for the firemen who had given their lives in the performance of their duties.

Other guest speakers urged the full cooperation of all volunteers for the summer convention.

Anthony DeLissio, president and Charles Fales, secretary of the Hudson Valley Volunteer Firemen's Association, brought greetings from that group and also spoke encouragingly about the coming conference.

Fire Chief Joseph L. Murphy of Kingston spoke to the guests of honor and congratulated all of the 50-year members. He paid special tribute to George Schryver of Wiltwyck Hose Company for his 64 years of service.

City Historian Joseph F. Sullivan, a 50-year member himself, also talked about the volunteer system in Kingston.

Thomas F. Coughlin, president, introduced the various speakers. The Rev. Dr. Frank L. Gollnick, pastor of the host church, who is chaplain of the volunteers, gave the invocation and benediction.

A social hour followed at the Rapid Hose firehouse.

Napanoch

Youth Rec Center Planned in Napanoch

Napanoch, Feb. 10—A youth Recreation Center in the vicinity of New Port has been planned following the announcement of the signing of a contract by the Central Recreation Association and Albert R. Gallo of Napanoch, it was learned today.

According to the announcement, Vernon J. Kelder also entered into the transaction for the purchase of the land and business of Gallo.

In addition to the contract of purchase, Kelder, the report said, also obtained an option to buy an adjoining lot for parking and other purposes.

The entire project is to be organized on a non-profit basis.

It is the plan of the purchasing group to make available to the community of the Town of Wawarsing the Center's facilities.

Eck Is Honored At Lodge Program

Richard M. Eck, worshipful master of Wawarsing Lodge, F & AM, 582 of Ellenville, was feted during an informal inaugural party Feb. 2. A program including a concert, travelogue movies of New York and Virginia and refreshments highlighted the celebration.

Members of the recently-organized Masonic orchestra included Mrs. Donald Bradford, piano; Donald Bradford, trumpet; David Frear, trumpet; Edward Friedman, saxophone; Ray Hoyt, Wayne Sheley, Larry Ayer, Gordon Ayer, Harry Smith, Monte Pulver, trumpets and saxophones; Seymour Zuchrow, drums; Seymour Horowitz, bass horn, and Harry Smith, leader.

Early Attention Pays Off in Dental Health

(This is the fourth in a series of articles published by The Freeman in cooperation with the Ulster-Greene Dental Study Club in observance of National Children's Dental Health Week, Feb. 7-13.)

"Another great landmark in man's fight against disease."

Dr. Daniel F. Lynch, of Washington, D. C., president of the American Dental Association, thus described the program for fluoridation of public water supplies now serving some 21 million persons throughout the United States.

"The small children growing up today in the communities served by this procedure will live out their lives with far less dental disease than has afflicted their parents and grandparents," he said.

Virtually every health and scientific agency in the nation now recommends this large-scale program for the prevention of dental decay.

"SCIENTISTS AGREE that few health advances of any era have been preceded by so thorough an accumulation of evidence on safety and effectiveness," Dr. Lynch pointed out.

Two recent studies are cited. One is the newly-completed 10-year investigation at Bartlett, Texas, where the water supply contains eight times as much fluoride as is recommended for fluoridation.

Medical investigators of the National Institutes of Health reported that no adverse effects of any kind were found in the internal organs or bone structure of the 237 persons of all ages included in the study. All the individuals were longtime residents of Bartlett.

In the other study, 2,050 children in the high fluoride areas of Amarillo and Lubbock, Texas, and the fluoride-deficient area of Cumberland, Me., were studied and no differences were found in the bone structure of the children in the three towns.

IN THE HUDSON VALLEY a fluoridation program has been in effect since 1947 when the drinking waters of the City of Newburgh were impregnated with the proper concentration of fluoride ions. Since that time, examining the children whose teeth have developed within this period, the U. S. Public Health authorities have found 68 per cent less dental decay among the Newburgh children than those in Kingston, whose water supply has not been fluoridated. In these tests between two cities of similar environment, Kingston has been used as the negative scientific control to determine the degree of change, if any, demonstrated in Newburgh children of the appropriate age group since the chemical treatment of their water supply.

Scientists have repeatedly underscored the fact that not a single objection to the program has withstood the test of scientific investigation.

IN THE ABSENCE of fluoridation and for children living in rural areas where the program cannot be carried out, a procedure has been developed called topical application of sodium fluoride.

The procedure consists of applying a fluoride solution directly to the child's teeth. Because the technic of applying the treatments is involved, the applications to be effective should be made by a dentist or dental hygienist, beginning when the child is about three. This method has been found to reduce dental decay by an average of 40 per cent.

Planes to Feed Deer

Albany, Feb. 10 (AP)—Airborne deer-feeding crews set out today to relieve herds threatened by starvation in remote Adirondack regions. Commissioner Louis A. Wehle ordered the Conservation Department's twin-engine amphibian plane to head north from Albany Airport on the first mission. Snow 20 to 30 inches deep covers the Adirondack browsing areas. The extent of the feeding operation will depend on the weather, Wehle added.

Veteran Is Grateful

Hosuton, Tex. (AP)—Who said New York city cab drivers are hard hearted? Ann Gordon tells of one who found out she was from Texas, told her he'd like to drive her on a sight seeing tour for free. "I was in the army in Texas," she said the driver explained. The folks there were so nice to me, I've been wanting to do something to pay them back."

In Better Mood

Taipei, Feb. 10 (AP)—The U. S. Senate's ratification of the Mutual Defense Pact with Nationalist China yesterday has put Chiang Kai-shek's capital in a better mood than at any time since he made his "painful decision" to withdraw his forces from the Tachen Islands. The reaction here is one of relief and satisfaction, particulary with the 64-6 vote by the Senate. "This shows," a Nationalist official declared, "that the American people are more united than ever before against communism."

Bone China

One of the most important ingredients in bone china, made almost exclusively in England, is bone ash in which animal bones are calcined and ground into a fine powder, according to the Encyclopedia Britannica.

WHAT DO WE DO NOW?

For this counrty, the great question that follows from the fall of Soviet Premier Malenkov and the evident emergence of Nikita Khrushchev as boss of Russia is this: How will our government adapt its policies to the new, tougher Communist line which the experts believe this change portends?

All the most authentic accounts indicate that Malenkov was the author of the "soft" policy pursued by the Kremlin since Stalin died two years ago—the policy that stressed "peaceful coexistence" abroad and better living standards within the Soviet Union.

If that policy is now dead, then our government, from White House to Congress, must take urgent note of the fact. If Russia is now to stress guns instead of butter once more, if the Communists are again to press the world revolution in weak spots around the globe, our entire military and diplomatic course must be closely re-examined and brought up to date.

Every dollar we vote for our own guns or for foreign military or economic aid must be weighed in the light of the new situation. Likewise with every soldier or ship or plane we deploy around the free world's defensive arcs, and with every diplomatic posture we take in the troubled regions of Europe and Asia.

We cannot take it for granted that a tougher Russian policy will mean war. But we perhaps can assume that the relaxations of "peaceful coexistence," of a political and military staltemate grudgingly accepted by the Kremlin, will no longer be possible.

Malenkov and his relatively moderate policies were crushed because he never gained real power as premier. In theory he was part of a "ruling team," which by definition meant shared power. But the "team" idea was evidently never more than a facade behind which key men in the Kremlin struggled for the scepter which fell from Stalin's hand in 1953.

Malenkov's fall marks a decisive phase in this struggle. And it marks what the Russian experts believe is the real ascendancy of Khrushchev as a new Soviet dictator.

The new premier, Nikolai Bulganin, political representative of the Red army in the politburo, is Khrushchev's man. Khrushchev soon after Stalin death took the important reins of the Communist Party away from Malenkov. And after Lavrenti Beria's death in late 1953, Malenkov missed his chance to consolidate his power by reorganization of the secret police Beria led, Khrushchev was by then strong enough to prevent this build-up.

When at length he actually cut down Malenkov's hold on the police, he was ready to act. He had all the elements of real power in Russia—the armed forces, the political bureaucracy, and the secret police—within his grasp.

The event is the most momentous in Russia since Stalin died. We must all hope that the United States and the whole free world will treat it so.

A person who enjoys being known as hard to get along with may have a soft spot in his make-up—probably in his head.

WIDENING THE GAP

A recently released Congressional report indicates that the economic strength of the United States, Canada and Western Europe is significantly greater than that of the Soviet bloc and that there are signs that the gap will be widened further in the next two decades.

This is an extremely important report. Communist hopes for eventual domination of the world are based, in part at least, on the idea that capitalism carries within itself the seeds of its own destruction, that eventually the cycles of "boom and bust" will lead to victory of Marxism. This report makes it apparent that the contrary is true.

Russia has been expanding its industrial potential. But much of that expansion has been made at the expense of the standard of living. Russians have been forced to do without comforts and luxuries, without consumer goods we consider necessities, with the idea of long range economic health. Our own progress, on the other hand, has been made at the same time that we have raised our standard of living.

This is no excuse for smugness. We must continue to maintain our economic as well as our military strength. It does serve as a reminder, however, that state collectivism cannot accomplish what free men and a free economy can.

FLUORIDATION

Most people know as little about fluoridation as I do. Most of those who favor it and oppose it and are littered with propaganda on both sides would find it difficult to explain why anyone should get all hot and bothered about this business of pouring another poison into our water. For our health, our water has already been chlorinated and the real effect is to give it so horrible a taste that alcoholism is on the increase. Whenever I taste water that has been manhandled by a chlorinator, I understand why the late Heywood Broun preferred gin.

So now they are to put fluorides into our water to save our teeth. My suspicions are naturily aroused because so many dentists are for it. They must have grown eleemosynary of late to favor something that they claim will put them out of business. As I have no teeth of my own, perfect teeth are of small moment to me personally, but I too can be eleemosynary and favor something that benefits someone else, if it does.

The question that arises in my mind is, suppose 10 or 20 years from now, the professors change their minds about fluoridation. Suppose they say that instead of saving teeth, it harms something else. So I read an article in the "Scientific American," entitled "A Study of the Anti-Scientific Attitude," and discovered that the authors, Bernard and Judith Mausner, agree with Senator Fulbright that there is a "swinish blight of anti-intellectualism," and that whoever says that if you want to use fluorides for the teeth, get it in a bottle at a drugstore instead of in the water-works, is an aforesaid swinish anti-intellectual. This broad generalization reminds me of the anti-Fascists who denounced everyone who despised Stalin as pro-Fascist, and the anti-Communists who believe that everyone who reads the "Daily Worker" is a Communist.

In a word, here is supposed to be learned writing on a technical subject which I pick up to inform myself and find in the first paragraph a polemic on the distrust of "intellectuals," which has nothing to do with the subject. I am sure that the Mausners, whoever they may be, regard themselves as intellectuals but I doubt whether they can write learnedly on the moral systems of Maimonides, Thomas Aquinas, Spinoza and Kant and, if they cannot, I shall everlastingly deny them the title of "intellectuals." Also, unless they can write several thousand words on the romantic period in music and unless they can speak authoritatively on the influence of Wagner on Verdi's "Otello," I ashall mark them down as having no right to wear the Sign of the Egg-head.

The trouble with a fellow who becomes fanatical about such a subject as fluoridation is that while he can explain why poison, if taken in small doses, might do no damage, or might even be beneficial, like opium, if one has a bellyache, he does not explain why it should not be sold in a drugstore so that the fellow who does not care for the stuff is not obligated to have it in his coffee. The answer, of course, is that it is a poison.

In free society, no one ought to be forced to do what he chooses not to do, just as a Christian Scientist may eschew a physician, or a Jew, pork. These choices are made on religious grounds and therefore are protected by the Constitution, but fluoridation is advocated by dentists and social workers and therefore the Constitution may not be invoked to protect them.

I know much about teeth, not having any anymore. The question has always been in my mind whether I lost my teeth or the dentist lost them. I remember once being advised to use some stuff as a mouth rinse and then reading a learned paper by another dentist on how this particular stuff softens the gums. How does one get his teeth back after his dentist gives him a free sample of a gum-softener?

Reasonable people recognize that in a free society there ought to be room for some freedom of choice. Suppose a citizen does not want perfect teeth if he has to get it by drinking poison in small doses. He ought to have a choice. And the rest might buy their fluorides in a drugstore.

That Body of Yours

IS MIGRAINE INHERITED?

Migraine has been described as a nervous ailment, the outstanding symptom being a periodic headache, usually one-sided, together with nausea, vomiting, and nervous disturbances. It may last from a half day to two days and the pain in the head may be of a crushing nature or sharp and stabbing with a heavy feeling and desire for sleep or rest because movement increases the pain. Many patients know when an attack of migraine is about to come on and remain quietly in a darkened room until it passes over.

The causes of migraine is not definitely known. Various suggestions which have been put forward are sensitiveness or allergy to various substances, mental and physical overwork, slowness or sluggishness of liver, eye-strain, kidney or gland disturbances. The victims of migraine are usually nervous, high-strung, or overconscientious and have a tendency to "drive" themselves.

The migraine runs in families has been noted and now we read of a study which seems to prove that it not only runs in families but is inherited. The group studied 65 clinic patients who were interviewed in person for the purpose of finding out about the occurrence of headaches similar to those suffered by other members of the family. Information about migraine headaches in relatives of 54 private patients also was obtained by means of questionnaires, letters, and some personal interviews.

What was found by this investigation? Of the 119 patients, 20 had no relatives with migraine, 66 patients had from one to three relatives with migraine, 22 patients had from four to seven relatives similarly afflicted, and 11 had from eight to 19 such relatives. These research workers concluded that it is "highly probable" that migraine is inherited to the extent of about 70 per cent "penetrance." This means that the children of parents both of whom have migraine stand a 70 per cent chance of having migraine themselves.

What can be done for migraine? The specific or special drug for relief of pain is ergotamine tartrate, popularly called gynergen. The dose depends on the severity of the attack and may be given by injection into the muscle by your physician or prescribed by him in tablet form to take by mouth. Ergotamine tartrate is given various names by the different drug manufacturers but your druggist will know these names.

Edson's Washington News Notebook

Washington (NEA)—Most interesting political event on the horizon is the Chicago mayoralty election in April. It has national political importance.

Republican candidate is Robert Merriam, a brother of Charles J. Merriam who is former Democratic National Committeeman Stephen Mitchell's law partner. Robert Merriam himself was a Democrat till a couple of years ago.

Democratic machine candidate for mayor of Chicago is County Clerk Richard J. Daly. Refusing to accept the ditching which the Chicago Democratic machine handed him, however, Mayor Martin Kennelly is seeking re-election against Daly.

Governor Stevenson and his former Democratic National Committee Chairman Stephen A. Mitchell are trying to stay out of this Kennelly-Daly fight. But if Daly wins and Stevenson and Mitchell then support him, they will be opposing the brother of Mitchell's law partner.

One angle on this race is that if either Kennelly or Merriam win, it will be a setback for the Chicago Democratic machine, important to ex-Governor Stevenson if he seeks the presidential nomination in 1956. A Republican victory would give Chicago the first GOP mayor it has had since Big Bill Thompson in the 1930's.

The other angle is that a Democratic setback might be a healthful thing in that it would force Governor Stevenson to take the lead for a Chicago Democratic machine cleanup.

CONGRESSWOMAN Coya Knutson (D., Minn.) wrote in her "Capital Chat" to constituents that she and Rep. Edith Green (D., Ore.) arrived at the White House reception together. Congressman Jimmy Roosevelt (D., Calif.) strode by them saying cheerfully, "I see you girls made it here by yourselves."

REP. FRANK S. THOMPSON, Jr. (D.-N. J.), gave this report to his constituents on some of the grave issues facing a new congressman:

"This week started off with so many things going wrong for the Thompsons that I thought for a while our bad luck would never cease. I was in Trenton, Monday and discovered first that the oil burner in our house had broken down. The pipes had not frozen, but I nearly froze when I got the repair estimate.

"Things being what they were for me in Trenton, I decided to hurry back to Washington to a more settled atmosphere. I opened the door here only to find my whole family in tears. Heffalump, our dog, was missing. The little fellow was, like I sometimes feel, lost in this great city. We have located him now, and though he's a very sick puppy, he will make the grade. The girls have stopped mourning and are now enthusiastically readying a homecoming which could be as hard on the dog as his accident."

SOME 19,000 U. S. livestock raisers who graze an estimated 9,000,000 head of cattle on 160 million acres of federal government range land will get a pretty good thing out of Bureau of Land Management's new system of grazing fees. It will go into effect in 1957.

Instead of being charged on BLM administrative costs in managing the government range, stock raisers will be charged on the basis of the average price of beef and lamb. The grazing fee may fluctuate two cents either way. When meat prices are down, grazing fees will go down and vice versa.

For 1955 and 1956, the price of 15 cents per month per animal has been set. This is an increase of three cents over last year, but two of the three cents will be spent by the government for improving water holes, fences and trails. BLM hopes to collect an additional $600,000 for a total of $3 million annually under the new system for the next two years. But it will have to spend practically all of it to administer and maintain the range.

AS IF APRIL FOOL'S DAY isn't funny enough by itself, the National Association of Gagwriters—called NAG, get it?—has asked Congress to pin a label on the date by calling it officially, National Humor Day."

A congressional investigation has been proposed by the professional, so-called "funny men." Suggested theme for the investigation is:

"Laugh starvation will face the nation unless we start building a laugh surplus stockpile."

The next thing then will be a proposal to export some of the surplus under a subsidy to Russia, in a laugh Marshall Plan, or double reverse lend-lease.

Since there always has to be a survey before any congressional investigation can get going, the Gagwriters Association surveyed the top 100 comedians. It discovered that none is under 30 and that most are over 60—ready for retirement.

That could explain a lot of things, but the comedians say it is no joke. To them it suggests another line of investigation to discover why there is a shortage of funny comedians.

Leaders of West Could Point to Russian Plight as Sign Liberation Is Due

By DAVID LAWRENCE

Washington, Feb. 10—What a golden opportunity the spokesmen of the free world have missed in the last 24 hours! Instead of public expressions that fluctuate between fear over whether a "tougher" Soviet policy is in prospect or whether the road is open to more appeasement, the governmental leaders on this side of the Iron Curtain could well have drawn attention to the plight of the Soviet peoples and to measures that some day can bring their liberation.

For the whole world has been witness to the operations of a totalitarian regime which is worse than any of the despotic monarchies of the past.

QUITE INCIDENTALLY—it arose out of a reminiscence by the President of a talk he had in 1945 with Marshal Zhukov, the new minister of defense in the Moscow government—Mr. Eisenhower told his press conference Wednesday how he had described to Zhukov the operation of a free government. The President said:

"Now, I explained to him (Zhukov) how absolutely impossible it was for a democracy to organize a surprise aggression against anybody. Our processes are open. Every time you get money or you change anything in your military affairs, you go to Congress. It is debated. There is no possibility of a country such as ours producing a completely surprise attack on any other. And that is what I was emphasing to him."

This very week, however, Malenkov was forced out by a little group of men who imposed a premier without consulting the 200 million people of Soviet Russia.

EVERYBODY knows that the main crisis inside the Soviet Union today is the lack of food production. Yet the United States has millions of bushels of grain and foodstuffs stored in warehouses, and this surplus could be an instrument of good will more powerful than words. It will be recalled that when the East German food riots were under way two years ago, President Eisenhower offered food packages. It was a master stroke in good relations with the people of Eastern Europe.

Today the United States, with an abundance of food, is able to help out the peoples of Soviet Russia and the satellite states, all of which are undernourished because of the restricted food supply. The people on the mainland of China desperately need rice, as their government at Peiping has been exporting this commodity so as to buy rubber from Ceylon.

If the United States offered the Soviet and Chinese peoples a chance to solve their agricultural problems with farm machinery and promised them, in the meantime, foodstuffs out of the surpluses available here, the way would be opened to the hearts of the tens of millions of persons behind the Iron Curtain.

FOR THE ROAD to peace lies in awakening the peoples of Soviet Russia and the satellite states to the fact that they need not remain enslaved indefinitely and that economic help will be forthcoming if they will only establish free governments which the rest of the world could trust. The billions of dollars now being spent in preparations for war could in large part be used to give a new life to the people of Soviet Russia and the oppressed peoples of the neighboring states.

Just a few hours after the news of the dismissal of Malenkov became known to the world, President Eisenhower was broadcasting over what is known as a "closed television circuit" to 35 meetings throughout the United States where funds were being raised to support "Radio Free Europe." This is a private organization in which the former undersecretary of state, Walter Bedell Smith, now is playing a prominent part. In Mr. Eisenhower's address there were two pertinent paragraphs:

"WHILE WE maintain our vigilance at home and abroad, we must help intensify the will for freedom in the satellite countries behind the Iron Curtain. These countries are in the Soviet back yard, and only so long as their people are reminded that the outside world has not forgotten them—only that long do they remain as potential deterrents to Soviet aggression.

"The great majority of the 70 million captives in these satellite countries have known liberty in the past. They now need our constant friendship and help if they are to believe in their future."

Here was the first word of encouragement to be issued in a long time to some of the peoples behind the Iron Curtain. Back in 1952, during the presidential campaign, there were speeches about "liberation," but the Communists abroad managed to persuade timid persons in Britain and America that, of course, a policy of "liberation" by American arms was being planned. As a result of such pressure, the idea has been soft-pedaled, so now it is significant that President Eisenhower has boldly proclaimed a revival of hope for the oppressed and enslaved peoples. That's very good psychological strategy, and, if it were accompanied now by concrete pledges of aid with food, it would contribute much toward an eventual uprising by the peoples throughout the iron curtain territory.

AS PEGLER SEES IT

By WESTBROOK PEGLER

A great deal of our freedom has been wrenched from us or foolishly abandoned since Roosevelt took office with his hypocritical speech, delivered in bell-like tones, in March, 1933. I was there so I remember it well.

Perhaps as many as half of the voters of the United States were born since that day or were too young then to realize what the Constitution meant. Most of that lost freedom is beyond recovery, except, perhaps, by revolution or evolution far in the future. Conscription, unthinkable in my youth, is with us to stay. However, some liberties can be retained if we will study the nature and political methods of the enemy and the true meaning of his proposals, which always are made in the interest of "freedom," "democracy," "peace" and "progress."

The enemy has been checked on the front of unionism. We have not recaptured all our lost constitutional ground but we did check his advance when Congress adopted the Taft-Hartley Law over Truman's veto and again when Congress refused to obey Truman's command to change or repeal Taft-Hartley. The old New Deal labor-slavery law, written by the Communist, Lee Pressman, and offered under the name of Robert F. Wagner, an ignorant, vain old Tammany hack, was a terrible blow to our liberty.

The conspirators were not all Communists. Wagner certainly was not. And Roosevelt was just a vicious adventurer as dishonest and ruthless as Hitler, whom he affected to abhor for his cruelty. Scheming minds in that clique hit upon the "commerce clause" of the Constitution as an excuse to nullify some of the basic rights guaranteed by that very Constitution. There was no plausible excuse for a federal authority with power to compel millions to join unions which were political subdivisions of the Roosevelt party. So they did this "to facilitate interstate commerce" by solving "labor disputes."

Up to that time nobody had ever questioned the American citizen's "right to work" without joining a private society and paying financial tribute to a union imposed upon him by a small group of bureaucrats in the Labor Relations Board. That board was loaded with Communists. It grapevined all over like a cancer. You will hear denials of this and some will honestly doubt and want citations to prove it. But a writer in the daily papers cannot reasonably be required to furnish footnote references. If he did, he would have no room left to develop his proposition. The people must do some rooting for themselves if they have failed to heed knowledge which was imparted to them as it developed. And they certainly should take a suspicious attitude and ascertain whether youth is still being taught that the Wagner Act was "labor's" emancipation proclamation.

Well, there was no possible honest excuse to punish employers for refusing to sign "exclusive" contracts with professional unioneers from New York whereby unwilling workers were forced to join and pay. So the excuse of "interstate commerce" was invoked. An employer has no authority over the private affairs of an employe. The unions and the government were the most vehement advocates of that obvious fact. They resented Henry Ford's surveillance to deter his men from drinking and gambling to the detriment of their families. Yet they crossed themselves up in the same breath by ruling that if an employer did not discharge a worker for refusing to join a union he, the employer, could be sent to prison. That is the actual truth. It was the law!

And the Roosevelt party, which stood to gain incalculable millions of the workers' dollars for political campaigns, was the enforcing power through its labor relations board.

Much of the press was half-hearted even when it did perceive the loss of freedom because the newspapers were right under the gun. The New Deal fostered the Newspaper Guild, which was rotten with communism as, again, the documents prove to anyone willing to believe the truth. The Guild, in concert with other unions also in political alliance with Roosevelt's party, wiped out many newspapers. Even after the Wagner Act was mitigated by Taft-Hartley, the Guild pulled a strike in New York which threw about 1,500 unwilling strikers out of work for eleven weeks by the vote of a committee of three representing the editorial and miscellaneous employes of the World-Telegram.

Miss Harriet Van Horne, of the World-Telegram, proposed in the midst of this brutal folly that the few workers in the original dispute be polled as to whether they would compromise the issues and go back to work, allowing the rest of the 1,500 to resume their jobs. For that, this genteel, conscientious young woman was vilified as a disrupter and fined $500. Fines of 500 by the Newspaper Guild are commonplace. It has in force now a law compelling its subjects all over the country to pay tithe into a strike fund to afford petty allowances to strikers who are called out by arbitrary decision of "committees."

These discussions necessarily will be discursive. But I observe a mighty drive now forming to wipe out Taft-Hartley and restore Wagner's law and, worst of all, to wipe out laws and Constitutional amendments' in 17 states which have outlawed the closed shop and rioting by unions. Yes, in many states, unions were granted a special, implied right to beat up, kill and intimidate non-strikers, even though they used imported thugs from central union headquarters. Federal and state judges paltered with the criminals and abused employers for refusing to submit to them.

Epidemic Closes Schools

Seneca Falls, Feb. 10 (AP)—All five schools here were closed today because of what the village health officer called an epidemic of virus infection. The village board advised parents to keep children from public gatherings. Meanwhile, other schools were ordered closed because of widespread illness in Canastota, Madison county; Dryden, Tompkins county; Camden, Oneida county; and Malone, Franklin county. Schools in other parts of Seneca county remained open, however. The North Syracuse Central School District ordered its 14 institutions closed until Monday because 1,200 of the 6,200 pupils were reported ill with virus, mumps, measles and some scarlet fever.

Tourney Comes Up With Sharp Play

By OSWALD JACOBY
Written for NEA Service

When today's hand was played last year in the world championship match at Monte Carlo, the American declarer got to six diamonds by means of the bidding shown in the diagram. The slam was a precarious contract, and the bidding cannot therefore be recommended, but the play had one or two points of interest.

Before we abandon the bidding, let's see where it went sour. South should have bid only two no trump at his second turn. Such a jump rebid in no-trump shows balanced distribution, stoppers in the unbid suits, and a count of 19 to 21 points. This would have been a perfect description of the South hand.

When South actually bid three no-trump, he showed a hand that was too good for a bid of two no-trump. Hence he should have held at least 22 points, or at worst he might have held an exceptionally attractive 21 - point hand. Give South about three extra points, and the slam isn't at all unreasonable.

West opened the six of spades against the actual contract of six diamonds. This strange choice was made on the theory that it was more important to keep declarer in the dark as to the distribution than to give accurate information to the other defender.

It didn't make any difference in this hand, and the whole question is open to debate. It's hard to know when it's important to inform your partner and when it's more important to misinform the enemy.

East played the king of spades, and Don Oakie, the San Francisco expert won the first trick with the ace of spades. Oakie next got to dummy with the king of clubs and led a low trump. East naturally played low, and Oakie put up the king of diamonds.

West took the trick with the ace of diamonds, and Oakie needed the rest. He had to finesse through West for the king of hearts and then he finessed through East for the jack of diamonds. Both finesses succeeded, so Oakie made his slam.

West made a bad play, in my opinion, when he took the first trump trick with his ace. If he had played his low trump without hesitation, declarer would naturally assume that East had the ace of diamonds. South would get back to dummy to lead another trump, and he would probably put up the queen of diamonds on the second trick. West would win with the ace, and East would then get another trump trick with the jack.

School News

Catskill School members of the Friday Club are collecting toys and games to give to needy children. Any one who would like to bring happiness to some needy child may contribute to this worthy cause. Those having toys or games still in good condition, may bring them to the school or notify one of the children in Mr. Schoonmaker's class.

The school now has a science kit containing the basic materials needed to conduct simple science experiments in the class room. Both the teachers and pupils are grateful for this kit and the boys and girls are gaining many new concepts by learning about the wonders of science.

The school dental program is in full swing now and each Wednesday morning a group of children, accompanied by one of the teachers, receive treatment from Dr. Carroad in Rosendale.

Mr. Schoonmaker, Mrs. Martin and Mrs. Skura recently completed graduate courses at New Paltz State Teachers College. They are working for their master's degree and plan to continue their education by taking further courses of study.

The sixth, seventh and eighth grades have embarked on a project of collecting pictures and information concerning the various foods and combination dishes of several European and Asiatic countries. Any help from the different nationalities represented in the community will be appreciated.

ALSO OF TOPMOST interest in Mrs. Martin's room is the topic of magnetism and electricity. Among the various properties gathered for this endeavor are an old radio, batteries, wires and some old light bulbs.

The first and second graders have recently been very conscious of many health and safety facts. With several children having rather long absences, the Safety-first Club had a "Use a handkerchief" campaign to prevent further sickness.

Mrs. Skura's room welcomed another new first-grader this week. He is Charles Schmeltz from Texas. Loretta and Priscilla Meyer recently left the school when they moved to Brooklyn.

New Adult Education classes at the Cottekill School will be started in the next few weeks. Any one interested in these classes may contact Mr. Schoonmaker at the school during the lunch hour.

WEEKLY FOOD REVIEW

(By The Associated Press)

Beef is back on the list of specials in the meat departments of the nation's food stores this week.

Beef prices came down a bit at wholesale this week, so you'll find lower prices in many stores on such items as chuck steak or roast, ribs of beef, boneless chuck pot roast and porterhouse and sirloin steaks. In some instances, the reductions will be around six cents a pound.

Frying chicken prices are lower in many areas this week, too. One large chain is cutting prices by two to four cents a pound in some of its markets.

MEAT MEN rate pork as an especially good buy. Featured items will include loin of pork, pork chops, fresh spare ribs, fresh picnics and smoked hams.

The American Meat Institute reports that retail pork prices have reached their lowest levels in two years. In many localities, it says, prices are down between 15 and 32 per cent from a year ago.

"THE DECLINES have run across the board on various pork items," the institute says. "Pork loin roast dropped an average of nearly six cents a pound in just the last week and now is selling in Chicago stores at 18 cents a pound less than a year ago. Center cut pork chops, declining 6½ cents in the last week, are averaging 13 cents below a year ago, while sliced bacon is 23 cents a pound lower."

The institute adds that pork sausage meat has declined 25 per cent since last February, smoked picnics have come down 18 per cent and whole ham 16 per cent.

LAMB PRICES don't show much change from a week ago, but legs of lamb will be widely featured for weekend dinners.

Some stores are going to have turkeys at lower prices. There also will be occasional specials on shoulders of veal.

Egg prices are moving up again. A major chain is hiking prices in all its stores by from two to four cents a dozen.

POTATOES, onions and cabbage are considered the outstanding buys in vegetables this week. Good value also may be had in iceberg lettuce, bunched topped carrots, endive, escarole, small to medium-size peppers and rhubarb.

The quality of green beans is said to be only fair, generally speaking. Among vegetables going up in price at the wholesale level this week were corn, cucumbers, eggplant and cauliflower.

Florida strawberries are arriving in good volume in eastern markets and produce men say the price is reasonable. Other worthwhile buys are oranges, grapefruit, tangerines and apples. The Delicious type apple gets the favored rating.

ROBERT N. CULBERT, JR.

TAKING BASIC training with the 69th Infantry Division at Fort Dix, N. J., is Pvt. Robert N. Culbert, Jr., son of Mr. and Mrs. Robert N. Culbert, Sr., of Esopus. Prior to entering the service, Pvt. Culbert was graduated from Kingtson High School.

PFC. JAMES CARTER, husband of Gail C. Carter, Warren street, was separated from active military service at Fort Meade, Md., Feb. 4.

FOUR ULSTER COUNTY youths recently enlisted in the U. S. Air Force, it was announced today by T/Sgt. John J. Norton Jr., station commander of the U. S. Air Force Recruiting Station at City Hall. They are John J. Beaver, son of Mr. and Mrs. Paul S. Beaver, Port Ewen; Ronald E. Gedney, son of Mr. and Mrs. Ambrose Gedney, RD 1 Kingston; Merrill S. Hitchcock, Jr., son of Mr. and Mrs. Merrill S. Hitchcock, Sr., Pine Hill and Donald Irwin of Shandaken.

Airman Beaver was formerly employed by the Bull Markets and is a graduate of Kingston High School. Airman Gedney was a member of the 156th Armed Artillery, NYNG, and formerly attended Kingston High School. Airman Hitchcock is a graduate of Fleischmanns Central School, was a member of the Air National Guard at Schenectady and was formerly employed by The General Electric Company as a machinist. Airman Irwin is a veteran of the Korean war and served 16 months in the combat zone.

They were flown to Sampson Air Force Base, Geneva, where they are now undergoing training.

Pennslyvania Plans To Aid Industry

Harrisburg, Pa., Feb. 10 (AP)—A Democratic plan to bring new industry into Pennsylvania by providing state aid for factory construction is underway in the general Assembly.

A bill setting up a 10 million dollar revolving fund for loans to municipal authorities to build new plants was introduced yesterday in the Senate.

The state aid plan, aimed at absorbing the unemployed in new or expanded industrial plants, was proposed by Gov. George M. Leader in last autumn's election campaign.

No-Overlap Pact

Washington, Feb. 10 (AP)—The three main Red-hunting committees of Congress have agreed not to duplicate each other's work in the new Congress, Chairman Walter (D-Pa.) of the House Un-American Activities Committee said today. Walter disclosed that he, Chairman McClellan (D-Ark.) of the Senate Investigations subcommittee and Chairman Eastland (D-Miss.) of the Senate Internal Security subcommittee had met privately to work out the no-overlap pact.

Deaths Reported

(By The Associated Press)

LANCASTER, PA.—Dr. Jerry Alvin Neprash, 50, head of the sociology department of Franklin and Marshall College since 1928. Born in Cedar Rapids, Died Wednesday.

LOUISVILLE, KY.—The Very Rev. Robert G. Lyons, 80, who celebrated his golden jubilee as a priest last July, and spiritual adviser and sparring partner of the famed heavyweight boxing champion John L. Sullivan. Born in Washington, D. C. Died Wednesday.

CINCINNATI — Frank Y. Grayson, veteran newspaper and baseball writer for the Cincinnati Times-Star for more than 25 years before his retirement in 1953. Died Wednesday.

Short Circuit Cause Of DeOlde Fire

Fire, caused by a short circuit in a ceiling light fixture, damaged the interior of the John DeOlde home, 59 South Wall street, last night.

An alarm from Box 3621, Wilbur avenue and South Wall street followed a telephone call at 7:12 p. m. Men and equipment from Wiltwyck and Central stations and Twalfskill Hose Company responded.

A section of ceiling of a first-floor room was damaged, the fire caused heavy smoke, and there was some water damage, firemen said. It was quenched with a booster pump.

Former Servant Held

Beverly Hills, Calif., Feb. 10 (AP)—A former man servant was booked today on suspicion of murder in the ax killing of Mrs. Katie Hayden, elderly wife of financier and real estate developer Samuel Hayden. Booked was Rutherford Leon Bennett, 39, Los Angeles, who detectives said was discharged by the Haydens Jan. 31 after about three weeks' employment as a cook. Bennett and a man with whom he lived, also brought in for questioning, steadfastly denied any connection with the case and said they were at home yesterday morning when the slaying occurred. Both are now employed in an automobile assembly plant.

Turkey Casserole

Add diced leftover turkey to a cream sauce; mix with a package of frozen mixed vegetables that have been cooked and drained. Turn into a casserole and top with fluffy mashed potatoes. Heat in the oven until the potatoes are flecked with golden-brown.

Accord, Kerhonkson Vols Save About 3,000 Chickens

Early discovery of a fire in a large poultry house on the A. Friedland poultry farm at Mombaccus Wednesday evening and the excellent work of the Accord and Kerhonkson fire departments saved practically all of the 3,000 chickens housed in the building.

Roy Wynkoop of Tabasco on his way home about 10 o'clock observed flames shooting from the roof of the 150 foot long one-story building. The Accord fire department was notified and responded under the direction of Fire Chief Howard C. Anderson. Because of the start which the blaze had and the need for additional equipment, the Kerhonkson department also responded under Chief Harry Decker and the two departments fought the blaze with booster pumps and auxiliary water tanks in addition to the supply from the local wells.

THROUGH THE EXCELLENT work of the firemen the blaze was checked shortly after it had reached the main portion of the building and all the chickens with the exception of a few smothered by dense smoke were saved. The loss to the building is placed at about $2,000. Fire is believed to have started in the heater room and spread to the main portion of the building

There have been numerous fires in the Accord area since the first of the year, several of which are under investigation, but Chief Anderson said the fire last evening apparently had started from the oil heater. He gave great credit to the firemen from Accord and Kerhonkson for their quick response and excellent work in checking the blaze.

Poultry Giblets for Spread

Cook poultry giblets in a small amount of seasoned water. Then use the stock for soup, sauce or gravy. Giblet meat is good chopped and mixed with hard-cooked eggs and mayonnaise; use as a spread for crackers or in a sandwich.

Brandt to Face Grand Larceny Charge Here

Thomas Brandt, 19, of R.D. 1, Franklin, was returned from McMinnville, Tenn., by Undersheriff Clayton Vredenburg and County Investigator Arthur H. Brown to face a grand larceny charge here.

Brandt, indicted by an Ulster county grand jury on a second degree grand larceny charge, was detained by the sheriff's office in McMinnville and turned over to Ulster county authorities on a bench warrant. Brown said Brandt was allegedly involved in the theft of ammunition at Rosendale.

The local authorities made the trip from New York to Tennessee and back by air, arriving at the court house in Kingston Wednesday afternoon.

Child Health Clinic

A child health conference conducted by the Ulster County Health Department will be held at the Clinic Rooms at 25 East O'Reilly street, Kingston, Tuesday, Feb. 15 from 1:30 to 3:30 p. m. These clinics are limited to infant and preschool children for the purpose of improving child health through early recognition of defects, advice regarding nutrition, instruction of parents in understanding of growth and development, handling of minor behavior difficulties and the administering of immunizations for smallpox, diphtheria, tetanus and whooping cough.

African Religion Unity in Country Says Sorosis Speaker

Mrs. Theron Culver said in her talk to Sorosis, that the African has always believed that there is a God, a Being to whom he attributes all creation. Mrs. Culver spoke on the topic, Religions in Africa at the meeting Monday afternoon.

The speaker related that if there is one thing that is homogenous in African culture it is religion, consisting mainly in doing. The African believes that man's activities are limitable by what is good for all, the speaker continued.

Following an explanation of the various facets of the African beliefs, Mrs. Culver noted that Christianity is the greatest force that has entered Africa in the past century. Mrs. Emory Bass, she explained, one of the world's experts on African affairs, feels the job must be done by Africans who can find usable knowledge for a rising African society.

Dies in Plunge

New York, Feb. 10 (AP)—An insurance worker, captain of the office basketball team, fell or jumped to his death today from a 15th floor window, police reported. They identified him as Harold Hunter, 28, of 355 St. Paul's Place, Staten Island, an employe of the Home Life Insurance Co. at 256 Broadway.

First Y-Teen Mother, Daughter Banquet Is Held by Clubs

The first Y-Teen Mother and Daughter Banquet was held last week at the YWCA, with representatives of Tri-Hi Club, So Y'se Club, Live Y'ers, and Sub Teens, along with their mothers gathered for dinner.

Miss Jackie Foure of Tri-Hi was mistress of ceremonies. Miss Margaret Danford and Miss Estelle Fatum were in charge of the music. Miss Joyce Dowdell was chairman of the favor committee. In charge of setting the tables were Miss Jackie Foure, Miss Estelle Fatum, and Miss Barbara Maines.

Miss Foure introduced the club advisers: Mrs. Thomas Fitzgerald, Mrs. Ned Whaley from Tri-Hi; Mrs. Robert Hogan and Mrs. John Overdorf, So Y'se; Mrs. John Strittar, Live Y'ers. She then introduced the speaker of the evening, Miss Ruth Buckwalter, regional advisor of the National Board of the YWCA, who spoke on changes which have taken place in the Y-Teen program, begun as Girl Reserves during World War 1.

The YWCA Centennial Film was shown with group singing closing the program. Dinner was served by volunteers from the Y-Aides and the Business and Professional Women's clubs.

I—Somebody die there?

Guide—Got shot. Another feller shot him. Had a fight.

I—What over?

"Then I blinked, for I had understood him to say: 'Over a baroness.' It didn't make sense. What was a baroness doing down in this wilderness of a country and in that old shack?

I—Over a baroness!

Guide—Yes, siree. I reckon that man was th' overbearin'st man in 17 counties.

THEY DONATE TALENT TO HELP YOUR HEART — Seven famous artists, pooling talent worth about one million dollars, stand on a scaffold in Chicago to paint a "Million Dollar Billboard" to aid the 1955 Heart Fund Drive. Each artist paints his conception of an appropriate heart after helping fill in letters of the campaign slogan—"Help Your Heart Fund Help Your Heart." They are, left to right: Rainey Bennett, Marion, Ind.; Raymond Breinen, formerly of Russia; Earl Gross, Pittsburgh, Pa.; Frederick W. Bolton, Mishawaka, Ind.; Francis Chapin, Bristolville, Ohio; Margo Hoff, Tulsa. Okla., and William Schwartz, formerly of Russia.

Husky Dressmaker

Memphis, Tenn. (AP)—M. D. Walker stands 6 feet 2, weighs 215, packs a pistol—and sews a fine seam. Ask 6-year-old Barbara Jo Walker where she got her pretty dresses and she'll reply, "Daddy made them." Walker, a state highway patrolman, says it started two years ago when he got his wife a sewing machine. Mrs. Walker didn't take to sewing but the big officer did and since then he's made about three dozen dresses for Barbar Jo and several for his wife.

M. S. Abel Dies, Once Had Market

Max S. Abel, 81, of 81 Highland avenue, former proprietor of Abel's Market, 133 Hasbrouck avenue, died last night following a short illness.

A resident of Kingston for about 40 years, he started the market on lower Hasbrouck avenue, about five years after arriving in the city, and operated it until his retirement nine years ago. He was a member of Trinity Lutheran Church.

Surviving is his widow, Mrs. Emma C. Stenglein Abel.

The funeral will be held from the Jenson & Deegan Funeral Home, 15 Downs street at 1:30 p. m., Saturday. Relatives and friends are invited to attend. Burial will be in St. Peter's Cemetery.

Friends may call at the funeral chapel Thursday evening and at any time Friday.

Card of Thanks

We wish to express our sincere thanks to our many relatives, neighbors and friends, for their kind expressions of sympathy and many acts of kindness shown us during our recent bereavement in the death of my husband and our dear father.

MRS. SAMUEL B. HULL, SR. and CHILDREN.

Fish Has Lifebelt

Newcastle-on-Tyne, England, Feb. 10 — Seven-year-old Ian Miller reported today his pet goldfish Peter, who can't swim, is getting around nicely in a lifebelt. Peter flipped out of his bowl recently in a burst of high spirits and damaged his side fins by his frantic flops on the table top. Returned to the water, he sank glumly to the bottom, unable to operate without his port and starboard stabilizers. Ian appealed to his father, who cut a piece of cork and fastened it to Peter's back with a rubber band twined round the fish's middle. The cork keeps Peter top side up. He propels by flicking his tail.

Author of Table On Dairy Income Will Not Testify

Syracuse, Feb. 10 (AP)—The U. S. Department of Agriculture will not allow the author of a government table on dairymen's income to testify at the current milk price hearing.

Chester Smith, an economist for the Metropolitan Milk Producers Bargaining Agency, read into the record yesterday a letter from the department that said Herbert Fowler, author of the table, was too busy to come to Syracuse.

THE HEARING went into its third day today. Under consideration are changes in the federal-state order which regulates prices paid to the 50,000 farmers in the metropolitan New York milkshed.

Dairy organizations contend the table backs up their argument that farmers need higher prices for their milk.

The dairymen, with support of the administration of Democratic Gov. Harriman, seek a $6-per-hundredweight price for fluid milk. The February price is $5.29. Economists estimate such an increase would mean a rise of two cents a quart in retail prices in New York city.

EZRA TAFT BENSON, secretary of agriculture in the Republican National Administration, called the hearing at the request of the dairy cooperatives.

Smith read the table, taken from Agriculture Information Bulletin No. 8 published last June, into the record just before the close of yesterday's session. He said the figures covered an average farmer and his family in an area roughly coinciding with the milkshed.

Smith said the table showed that the average net return for labor dropped from $2,801 in 1947 to $1,781 in 1953. He testified that his projection of the figures for 1954 showed that each working member of a milkshed farm family received an average of 39 cents an hour for labor under current conditions.

Horses Are Vehicles

Parsons, Kan. (AP) — $50,000 damage suit puts this problem to a Cherokee County jury: To what extent must a riding horse be fitted out with head and tail lights? The suit was brought by Jack Conrad, who was hit by a truck while cantering down a highway. The defense noted Conrad's horse had been unlighted after dark. When a lower court struck out this part of the defense contention as irrelevant, the Kansas Supreme Court reversed the decision. It sent the case back for trial, asserting that horses are "vehicles" in the legal sense and subject to rules of the road.

Extra Half Pair

A New York manufacturer of men's clothing has given a new twist to the old idea of two-pants suits. He offers an extra half-pair of pants with each of his spring suits. Customers who buy a suit will get a matching pair of Bermuda shorts.

Volunteers Get Robber

New York, Feb. 10 (AP)—Twenty patrolmen have been working overtime—on a voluntary basis without extra pay and in civilian clothes—in an effort to clean up a crime-ridden Harlem precinct. The venture was revealed early today when two of the volunteers shot and captured John Chambers, 29, less than a minute after a cab driver was robbed of $16. Two radio car policemen joined the volunteers, and 17 shots were fired before Chambers was brought down with one bullet. Chambers, a Negro, was charged with assault, robbery and violation of the anti-weapons law.

REAL COOL SEAT, MAN—Don't complain about the cold—think of engineer Tom Tomlinson, who works in a 65-degree-below-zero "cold box.". He's testing a new, simplified pilot's ejection seat at Republic Aviation's laboratory in Farmingdale, N. Y. The frosted dummy represents the average pilot's weight, and the seat is checked under various temperature and climatic conditions to make sure it will operate at all altitudes, in every part of the world. The new seat hugs the pilot, if necessary shoots him from the plane and opens chute for any parachute drop.

Four U. S. Airmen Killed in Crash

St. Johns, Nfld., Feb. 10 (AP)—Four U. S. airmen died yesterday in two American Air Force F95 Starfire jetfighters which crashed into the bush and burned near Goose Bay, Labrador.

U. S. Northeast Air Command Headquarters here said both planes were on routine flights from Goose Bay Base. They went down within five minutes of each other and almost seven miles apart.

The crashes boosted the death toll from jet plane accidents in eastern Canada to six in two days. Two Canadian Air Force Sabre jets crashed Tuesday near Chatham, N. B., killing the two pilots.

Names of the U. S. airmen were not revealed pending notification of next of kin.

Divorce May Cost Winthrop More Money

New York, Feb. 10 (AP)—Winthrop Rockefeller, whose divorce from Barbara (Bobo) Rockefeller cost him a reported six-million-dollar settlement, possibly may have to shell out another million dollars in lawyers' fees.

In state Supreme Court yesterday it was disclosed that Rockefeller already has paid out $500,000 in legal charges, and has another half-million to go.

The court action was in answer to a $100,000 suit filed by Boston attorney Joseph Sax against both Winthrop and Bobo. Sax charges non-payment for services rendered in 1951-1952.

Bobo contended in court that Winthrop took on all legal obligations connected with the divorce last summer in Reno.

Rockefeller reportedly has not yet been served in the suit.

Dulles to Review Foreign Policy

Washington, Feb. 10 (AP)—Secretary of State Dulles plans to give the nation next Wednesday a general review of foreign policy developments during the first two years of the Eisenhower administration.

He has accepted an invitation to speak before the Foreign Policy Assn., a private organization interested in international relations, at a meeting in New York city.

It was reported he plans to place emphisis on the tinderbox situation in the Formosa Strait.

Dulles' speech comes two days before his scheduled departure for the Far East. The primary purpose of his trip is to attend the organizational meeting of the Southeast Treaty Nations of Bangkok, Thailand.

After the Bangkok session, Dulles goes to Manila to meet with U. S. diplomatic mission heads in southeast Asia and the Pacific.

Surveyed Area

First scientist to make a survey of the Indian country around Santa Fe, N. M., as well as in Mexico and Peru, was the Swiss-American, Adolph Bandelier.

Going Quail Shooting

Washington, Feb. 10 (AP)—President Eisenhower flies to Thomasville, Ga. today for a weekend of qual shooting at the estate of Secretary of the Treasury Humphrey. The Chief Executive and Humphrey were being accompanied by their wives and Mrs. Eisenhower's mother, Mrs. John S. Doud. Eisenhower plans to fly back to Washington Sunday.

Shokan

Shokan, Feb. 10—Ladies of the Reformed Church of Shokan will hold a Washington's birthday social Tuesday night, Feb. 22, at which pictures of Williamsburg, Va., Washington's home, Jefferson's home, Skyline Drive, etc., will be shown beginning at 8 p. m., followed by games and refreshments.

Date for the fair of the church has been set for August 3. Committees will be announced later.

Mrs. Helen Barringer was taken to Kingston Hospital last week.

Miss Elenore Lord was a weekend guest of her aunt, Mrs. Betsy VonderOsten.

The Ladies' Aid met at the home of Edna Longyear Wednesday. The next meeting will be held at the home of Mrs. Fred Adsit.

Tasty Spread

Mix cheddar, cream and blue cheese together for an interesting tasting spread. Add Worcestershire sauce and celery salt if desired.

MENTIONED—R. W. Cook is considered a likely candidate to succeed Maj.-Gen. Kenneth Nichols as general manager of the Atomic Energy Commission. At present, Cook is AEC's deputy general manager.

Tillson

Petitions Presented For Water System

Tillson, Feb. 10—Petitions requesting the town board of the town of Rosendale to create a water system in the hamlet of Tillson were presented to Andrew J. Snyder, supervisor of the town of Rosendale, and the board, at a meeting Monday night at the town clerk's office in Rosendale. Nearly 20 persons from Tillson who have an interest in the proposed water system, were in attendance.

C. L. Zimmer acted as spokesman for the group in presenting the petition. He briefly explained why a water system was needed and the Board agreed to take up the matter and to have their attorney look into all legal angles. As soon as they have reached a conclusion, a special meeting will be called by the board at which all taxpayers in the hamlet of Tillson may attend to voice their opinion. It was said that more than 100 taxpayers have signed the petition in favor of the creation of a local water system.

Dance and Program Slated for School

The Tillson Heirs will sponsor a Hy-Jinx dance and entertainment at the Tillson school Saturday, Feb. 26, starting at 8 p. m. Entertainment will consist of several acts by local and vicinity talenfed people, including James Perry, ventriloquist and magician; Delores LaTorre and Linda Bady, vocal duet; Billy Dunn, pianist; Diane Deyo, ballet dancer; Bobby Fisher, tap dancer; Laura and Ann Wilson, vocal duet; Terry DeBrodsky, acrobatic dances; Dot and Carol Cross, hillbilly songs; and Pat Van Kleeck and Kay Stein, vocal and dance numbers.

Music for dancing will be supplied by Jimmy Sylvestries and his orchestra of Kingston. Refreshments will be served. The public is invited. Tickets will be sold by members of the club or purchased at the door.

Supper Planned

A pot luck supper will be held at the Tillson firehall Saturday, Feb. 12, at 6:30 p. m., for members of the Tillson Volunteer Fire Company, their wives and children and friends. Following the supper, a children's amateur show will be presented with awards for the best acts in two classes.

Reason for Sticking

If your waffles stick it may be because you have allowed your waffle iron to become overheated, because you have cooled the iron with the grids closed, or because you have started to bake the waffles before the iron was at the correct temperature.

Leibhardt

Leibhardt, Feb. 10 — Mr. and Mrs. Alex Lypka of Port Jervis spent Sunday with Mr. Lypka's mother, Mrs. Lena Lypka. They also called on the latter's sister, Mrs. Anna Kohan.

Mrs. Leslie Quick, who has been ill, is reported to be improving.

Callers recently on Mrs. E. B. Markle were Floyd Brown, a cousin, Mr. and Mrs. Charles Ellis of Rochester Center and Clara Frank.

Charles Ellis spent Tuesday at the home of his son-in-law, Bradford Kelder.

Twin Goes Home

Chicago, Feb. 10 (AP)—Rodney Dee Brodie, surviving Siamese twin, left the University of Illinois Research Hospital yesterday after a month's checkup. Doctors said he was in "fine condition." The 3½-year-old boy, was taken to the farm home of his parents, Mr. and Mrs. Royt Brodie in Ferris, Ill. Doctors said Rodney is able to walk without assistance and carry on a conversation. No surgery was performed on the boy during his month stay at the hospital. In an historic operation Dec. 17, 1952, surgeons separated Rodney and his head-joined twin, Roger Lee. The operation left Rodney with an open skull which doctors hope to cover with a hard substance at some future date.

Probe Deliberate Killing of Dog

The deliberate killing of a dog owned by Israel Crystal of New Salem has been under investigation by members of the sheriff's office and Chief Agent Ray Winne of the Ulster county SPCA following the finding of the dog's head in the Crystal driveway shortly after the part water spaniel dog had disappeared.

Mr. Crystal had his dog chained as usual when he left in the evening for Kingston. Next morning when he went to feed the dog he found it had been released and on investigation found the dog's head in the driveway.

County Investigator Arthur A. Brown and County Identification Officer Earl Conro and Chief Agent Winne of the SPCA were notified of the incident and began an investigation.

THE OFFICERS FOUND the dog had been released from the chain and apparently taken across the road where the dog's head was pounded with some instrument, cut from the carcass and the head thrown in the driveway. Efforts were made to locate the carcass but without success although it appeared the carcass had been carried some 500 feet from the point where the dog was killed.

Later the carcass was located one evening in the brush along the road but next day when officers went to investigate it had disappeared. The investigation is being continued, Winne reported today.

Estrada Correa, 19, Is Spared by Harriman

Albany, Feb. 10 (AP) — Gov. Harriman has spared the life of 19-year-old Concepcion Estrada Correa, sentenced to die for acting as lookout while two companions slew a woman in a $90 robbery.

At the same time the governor yesterday stayed the execution of Pedro Antonio Rios, 23, another of the three men convicted of first-degree murder in the slaying of 85-year-old Anna Levy.

The third man, Henry Matthews, 18, is scheduled to die tonight in the electric chair at Sing Sing prison. Harriman took no action in his case. All three men are from New York city.

The governor said he was commuting Correa's death sentence to life imprisonment on the recommendation of Frank Hogan, the New York county district attorney, and the trial judge, Jonah J. Goldstein of New York city's General Sessions Court.

Ellenville Post

The Ellenville observation post was opened officially Tuesday. Located at the Channel Master plant, it will be manned by employes of Channel Master from 4 p. m. to midnight. Richard A. Porter, Channel Master security officer, is the post supervisor.

It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Eisenhower Praises Heart Research Work

Washington, Feb. 10 (AP)—President Eisenhower said last night the nation has received "a bonus beyond price" in the results of medical research adding 25 years to the American life span.

Speaking on a closed circuit program to meetings sponsored by the American Medical Assn. (AMA) and attended by physicians taking part in clinical conferences on heart ailments, the President said:

"If the annual toll from coronary heart diseases were revealed to the American people as a casualty list from the battlefield, the effect would be one of national shock and a demand that something be done.

"That something is being done . . . is significant and encouraging."

Bills in Legislature

Albany, N. Y., Feb. 10 (AP)—Two Republican lawmakers proposed a study of tax relationships leading to recommendations to let the state "abandon the income-tax field."

Sen. Walter C. McGahan and Assemblyman Fred W. Preller, both of Queens, said the federal government should leave many excise-tax areas to state and local government, thus allowing income taxes to be concentrated as a source of federal revenue.

THEY INTRODUCED a bill that would establish a commission to survey what they termed the "three-way tax muddle" of overlapping federal, state and local taxes. The commission would then submit legislation to "readjust" them.

The "most serious tax duplication" is in levies on income, liquor, tobacco, gasoline and admissions, Preller and McGahan asserted.

"With all levels of government seeking new means of providing funds to meet budgetary needs, it is becoming increasingly important to establish a clear-cut division of taxing powers," they said.

YESTERDAY, Eugene F. Bannigan of Brooklyn, Democratic leader in the Assembly, sought legislation to permit leaders and state officials who held racing licenses in 1953 to enter their horses at New York state tracks and still hold their jobs.

And a Manhattan Democrat called for a Constitutional amendment that would limit to two consecutive terms—eight years—the length of time any person could serve as governor.

ASSEMBLYMAN Herman Katz also urged adoption of measures that would:

1. Provide for nomination of candidates for governor and lieutenant governor at direct primaries, rather than in party conventions.

2. Require that justices of the state Supreme Court be nominated in direct primaries, rather than in judicial district conventions.

3. Amend the Constitution to provide that when New York city's population exceeds that of the rest of the state the city be allowed to elect half of the 58 members of the state Senate. New York city now has 25 senators. According to the 1950 census the city's population is about 53 per cent of the state total.

Bannigan's racing-license bill would apply to Frederick H. Bontecou, former Republican chairman of Dutchess county, and Charles Buckley, Bronx Democratic leader.

THE LEGISLATURE, in the wake of harness track scandals, last year enacted a law forbidding any party officer, public official or public employe from holding a license granted by the State Racing Commission or the State Harness Racing Commission.

Bannigan's bill would amend that measure to exempt any person who was qualified to hold a license prior to April 6, 1954. Bontecou resigned as county chairman last year, when it appeared he could not race horses at tracks in the state.

Bannigan and Sen. William F. Condon, Yonkers Republican, also filed a bill that would allow thoroughbred tracks to hold special six-day race meets betwee Nov. 16 and 22 annually for the benefit of their employes. Proceeds from the meets would go only to charitable purposes or to pension and welfare funds of employes of the sponsoring racing association.

OTHER MEASURES would: Make it a misdemeanor for a repairman of television sets or gas or electric appliances to remove parts unnecessarily and substitute inferior parts, charge for parts not actually used or perform unnecessary repair work (Assemblyman J. Sidney Levine, D.-Brooklyn).

Fix a $1 fee for official semi-annual automobile and truck inspection that must be made beginning this year (Assemblyman William G. Giacco, D.-Queens).

Union Center

Union Center, Feb. 10—The Ladies' Aid Society of the Community Church will sponor a cafeteria supper and card party March 19 at the Grange Hall starting at 5:30 p. m.

Regular church service will be held Sunday at 7:30 p. m. Holy Communion will be observed.

An interesting film on children's emotions was shown at the Civic Group meeting Monday night.

As a part of National Scout Week observance many fathers and their sons attended the Scout Jamboree at the Kingston Theatre Monday night.

The Civic Group will hold a Valentine party at the school Feb. 14 at 2 p. m. All mothers and children are invited.

Lightens Load?

When hollowed-out drums are taken from the forests of Bougainville, in the Solomon Islands, a magician sits on top to lighten the load. His presence is protection against the evil spirits that might make the logs too heavy to carry.

WOODSTOCK NEWS

By RICHARD E. THIBAUT, Jr.

Statement Issued On School Voting

Woodstock, Feb. 10—In a news release issued this week, the Board of Trustees of Woodstock Common School District No. 2, in answer to voter inquiries, summarized the qualifications of voters eligible to vote at the special district meeting called for Feb. 11 for the purpose of voting on a $65,000 bond issue to finance the new proposed addition to the Woodstock School. At the same time, the board pointed out that only a "majority" rather than a "two-thirds" vote was necessary for the approval of the bond issue. The statement follows:

"A number of inquiries have been made of the board concerning the legal requirements for eligibility to vote on the proposed $65,000 bond issue for the new addition to the school, which is the only subject to be taken up at the special meeting which has been called for Feb. 11, at 7:30 p. m.

"TO ANSWER these many inquiries we summarize the provisions of law which specify the qualifications of voters at such meetings. The first requirement is that a person, to be eligible to vote at the meeting, must be at least 21 years of age and have lived in the school district for at least 30 days preceding the meeting. In addition, such person must either be (a) the owner or (b) the lessee, or (c) a tenant of real property liable to taxation in the school district, or must be a parent of a child who attended the school for eight weeks preceding the meeting, or is a person who had residing with him or her a child who attended the school for eight weeks prior to the meeting. A mere boarder or lodger is ineligible to vote. If the title to the real property is in the names of both husband and wife both are eligible to vote regardless of whether or not they have children in the school. Even though the title to the property may only be in the name of the husband or wife, both parents are eligible to vote if they have children attending the school.

"The Board has also been frequently asked whether a two-thirds vote is required, or whether a mere majority vote is sufficient to adopt the resolution authorizing the $65,000 bond issue. The answer to this question is that a mere majority vote is enough.

"A mere majority vote is sufficient because the total indebtedness of the district (that presently outstanding plus the $65,000 bond issue) is less than 10 per cent of the 'true' equalized assessed valuation of all real property in the district. A two-thirds majority is required only in those cases where the existing bonded indebtedness plus the proposed bonded indebtedness aggregate more than 10 per cent of the 'true' valuation of all property in the district.

"We remind the voters again that voting on the bond issue will be open for the two hours between 8 p. m. and 10 p. m. Friday Feb. 11, for the purpose of voting by ballot on the bond issue."

School Addition Told for P-TA

Woodstock, Feb. 10 — Robert Gordon, chairman of the Board of Trustees of Woodstock School District 2, described the use to which the rooms of the proposed addition to the school will be put, if the $65,000 bond issue is approved by vote Feb. 11, at the Parent-Teacher Association meeting Thursday night.

The plan of the school, with the addition will provide a room for every grade with teachers as follows: Miss Scully, kindergarten; Miss Price, first; Mrs. Montano, second; Mrs. Allen, third; Miss Harris, fourth; new teacher, fifth; Mr. Butz, sixth; Mr. Gandino, seventh; Mr. Van Wagenen, eighth. The above assignments will cover all home rooms.

With the new addition, the number of pupils in each room will be as follows: Kindergarten 30; first 31; second 29; third 21; fourth 30; fifth 21; sixth 25; seventh 17; eighth 27.

Without the addition the following number of pupils will be in each room: Kindergarten 30; first 31; second and third 40; third and fourth 40; fifth and sixth 46; seventh and eighth 44.

THE SHOP ROOM will be used one half day with double periods. Since there are not too many boys in the 7th and 8th grades they can be handled in this manner. The home economics room will be used as a home room for the seventh and eighth grades, and probably two half-day double periods because of the larger number of girls in the grades. Both of the above rooms will be used for some art and some music classes. By using these two special rooms, the auditorium will be available for all rooms for gym periods.

Gordon pointed out that by opening the sliding partition, which separates the two special rooms, a large room would be available for Girl Scouts, Cub Scouts, the P-TA, Adult Education and other groups not requiring a room as large as the auditorium at night or for after school meetings.

The sixth and seventh grades will be located in the new addition. They will only use the present area when using the gym.

It was also pointed out that lavatory conditions will improve, with the upper three or four grades using the new ones and the lower grades using the present facilities.

The principal's office will be partitioned so parents and others will be able to consult with the principal privately. Also teachers will have a room where they may go when having "free periods." Since this is a sliding partition enabling the room to remain at its present size when needed.

A discussion period followed Gordon's outline during which various aspects of the new addition were examined.

Paint Show Slated For Mount Tremper

Woodstock, Feb. 10—Several Woodstock artists who last week participated in a demonstration of the new vinyl-based paints being introduced by the B. F. Goodrich Chemical Company, are included in the group whose paintings will be shown at the Rainbow Lodge, Mt. Tremper, on Route 212, opening Saturday, Feb. 12, with a reception from 3:30 to 7 p. m.

The artists are Albert Jacquez, who created the idea for the new plastic paints; Edward Chavez, Ethel Magafan and John McClellan, as well as John Pike who also designed the new Rainbow Lodge. Rosella Hartman, whose animal paintings will also be included in the show, will open a one-man show of her paintings at the Grand Central Galleries, New York, Tuesday, Feb. 15. Other prominent Woodstock artists whose work will be on view are Robert Angeloch, Alphonse Bare, Fletcher Martin and Dudley Summers.

In the cartoonist group also to be seen at the Rainbow Lodge are Jay Alan, Dave Huffine, and John Striebel whose famed Dixie Dugan makes national news Sunday, Feb. 13, when Dixie introduces her new "Flair" hair-do recently modelled in Woodstock by three young friends of the artist.

The exhibition will be on view at the Rainbow Lodge for two weeks.

Nursery School Will Meet Feb. 17

Woodstock, Feb. 10 — There will be a meeting of the Tinker Street Nursery School, Thursday, Feb. 17, at the Art Gallery at 8:15 p. m. Mrs. David Carlson will give a book review on the book entitled Jealousy in Children by Edward Ziman, MD, and will also lead a discussion on the subject. Mrs. Carlson, who is president of the organization, also will preside at the business meeting. The public is invited.

Mrs. Raymond Gilkey, teacher at the school, reported that this week the children made ginger cookies, which she said, "developed into quite an operation." The children went through the process of hand washing and refrained from touching anything until the ginger dough was made into the necessary balls and shapes. They were amazingly alert as to the proper time required to allow the cookie dough to stiffen in a cool place. Since there are no cooking facilities at the school, Mrs. Gilkey baked the cookies at her own home and returned with them for the children to eat the next day. They had a lively time consuming their own baking efforts.

ENVOY TO SPAIN — John Davis Lodge, above, former Governor of Connecticut, has been nominated by President Eisenhower to be Ambassador to Spain.

Woodstock, Feb. 10 — The Woodstock Dutch Reformed Church has contracted to sell the building now occupied by the Woodstock Five & Ten Cent Store to Cornelius V. V. Sewell. The sale will be subject to an existing lease.

Woodstock, Feb. 10 — There will be a special meeting of the Woodstock Riding Club, Thursday, Feb. 17, at 8 p. m.

Woodstock, Feb. 10 — The Ladies' Auxiliary of the Mt. Tobias Sportsmen's Club will hold a bake sale, Saturday, Feb. 12, starting at 9 a. m. in the Karl Cousins Home Appliance store in this village.

Woodstock, Feb. 10—George Berk, technical illustrator of this village, was elected a member of The Society of Naval Architects and Marine Engineers, of Washington, D. C. This was a voluntary election for his high standard of technical qualifications. Berk also is art director for the society, which is a world organization of admirals, commanders and navy captains, as well as naval architects and marine engineers.

Woodstock, Feb. 10—The Valentine dinner of the Woodstock Business Association will be held at Deanie's upstairs dining room, Saturday, Feb. 12.

Woodstock, Feb. 10 — There will be a Boy Scout Leaders meeting at the Woodstock School today at 8 p. m.

Casey Gets 60 Days for 100th Court Appearance

When James Casey, 62, faced City Judge Raymond J. Mino today it was his 100th appearance in city court, mostly on charges of public intoxication, disorderly conduct, and a few others, generally no more serious.

Informed by Lieutenant James P. Martin before his appearance today, that he had achieved 100 arrests, Casey said:

"I thought it was more than that."

YESTERDAY'S ARREST followed a police blotter notation at 3:40 p. m., that "a drunk was reported at the West Shore railroad station." Officers Thomas McGrane and Charles McCullough were dispatched there and arrested Casey on a public intoxication charge. He is listed as having "no home."

Police statistics on Casey's dealings with the law, showed that one of the 100 charges was as serious as burglary. The other 99 were for disorderly conduct, vagrancy, and more often, public intoxication.

Trips to court brought him 71 jail sentences, and his time in the county jail totals 3,086 days. He received 28 suspended sentences. Yesterday's sentence: "Sixty days!"

Autos Sideswipe

Automobiles driven by Jennie Marcus, 40, of Ellenville, and Marie Allison Lee, 29, of Kerhonkson, sideswiped as one was passing the other on Route 209 at Marbletown about 1:40 p. m. Wednesday, according to a sheriff's office report. Deputies Arthur Smith and Benjamin Newkirk reported both vehicles were damaged but no one was injured. There was no arrest.

Four GI Prisoners May Be Rewarded

Ft. Dix, N. J., Feb. 10 (AP)—Four young GI prisoners, who lent a helping hand when their guard got sick, may be rewarded with possible reduction or cancellation of their sentences.

They carried the ill guard into a service club and made no attempt to escape. None of the prisoners was identified.

The army said yesterday that because of their action, two of the GIs have been recommended for clemency and the other two already were in for shorter sentences.

It was while on a work detail that the four prisoners, all serving time for being absent without official leave, saw their guard, Pfc. Vincent Dutkevitch, collapse.

Dutkevitch was carried into a service club by three of his prisoners, while the fourth grabbed his loaded rifle.

Removed as Teachers

Buenos Aires, Argentina, Feb. 10 (AP)—The Ministry of Education announced today the discharge of 100 Roman Catholic priests from teaching jobs in Argentine public schools and three from top positions as education inspectors. The ministry said the ousters completed its program of removing the church from a position of influence in schools supported by the government. The Catholic religion still will be taught but students will not have to earn passing grades to be promoted.

Pope 'Fairly Good'

Vatican City, Feb. 10 (AP)—The condition of Pope Pius XII was described today by his personal physician as "fairly good, enough to justify a certain tranquility for the immediate future." Dr. Riccardo Galeazzi-Lisi said the 78-year-old Pontiff has steadily increased his work as he has slowly regained strength.

HERCULES TAKES TO THE AIR—This is the first in-flight photo of the U. S. Air Force YC-130 Hercules, a new turbo-prop cargo carrier built by Lockheed Aircraft in Burbank, Calif. It can take off from short runways with personnel or vital supplies; fly faster and higher than any other military transport; drop paratroops and air-drop cargo to ground troops; land on rough or makeshift air strips to deliver troops and weapons to the front lines; evacuate wounded to rear-area hospitals and serve as a cargo carrier for long-range movements. The airplane measures 132 feet from wing tip to wing tip, 95 feet from nose to tail, and 38 feet in height.

BOUTONNIERES FOR THE BOYS

A young girl writes me: "Our school is having a large dance at one of the hotels. It is an all-girls' school and therefore each one has to ask a boy to the dance. Several of my friends have told me that they are going to send boutonnieres to their boy friends to wear the evening of the dance. I have never before heard of this and always thought that if any flowers were sent it was the boy who sent them to the girl. Is this something new? I would very much like to know what you think of this idea."

Sending boutonnieres to the boys is unusual and apparently a local custom. But if all the girls at your school do this then you will have to do the same. I agree with you, however, that it is the boys' place to send flowers to the girls, and not vice versa.

Introducing Stranger in Restaurant

Dear Mrs. Post: The other day while lunching with a friend of mine, another woman friend whom I had not seen for a long time came into this same restaurant and as she passed our table, stopped and spoke to me for a few moments. I did not introduce her to the woman with whom I was lunching, and have since wondered whether I was wrong not to have done so. I never know what to do in a situation of this kind. Will you please set me straight?

Answer: If the person with whom you were lunching was busy looking at the menu or otherwise occupied, it was not necessary to introduce her. But if she sat there doing nothing and the other person lingered at your table, then you should have introduced her.

Does a Woman of Fifty Rise?

Dear Mrs. Post: I am a woman in the early 50's and would like to know if it is necessary when visiting friends for me to rise when others come into the room and I am introduced to them. Also, when other guests take leave before I do, should I rise along with the hostess to bid them good-bye, or remain seated.

Answer: No, you remain seated in both cases.

Should a boy go through a revolving door ahead of a girl? This is one of the many questions given in a quiz for boys and girls of high school age answered in Mrs. Post's leaflet E-11. Mrs. Post is sorry she cannot answer personal mail. To obtain a copy, send 10 cents in coin to her, care of The Kingston Daily Freeman, P.O. Box 99, Station G, New York 19, N. Y.

Named in Keenan Will

New York, Feb. 10— (Special) Lela Gilbert of Kerhonkson will receive $3,000 from the estate of her cousin, the late Mrs. Georgia Keenan, of New York city, under the terms of her will, filed for probate in Surrogates Court here Tuesday. The estate, which has not yet been appraised, is believed to be worth approximately $225,000. Many other friends and relatives share in the property. Mrs. Keenan, widow of Edwin C. Keenan, died at her home, Hudson View Gardens, 146 Pinehurst avenue, here, last November 16.

Three Local Men Get Promotions At Kingston IBM

Three Kingston natives are among six IBM men named to executive posts at the Kingston IBM Plant, according to an announcement from the public relations department.

THE LOCAL men and positions they are to assume are:

Donald Boyce, 215 Lucas avenue, manager of the card assembly department.

Henry R. Barten, 117 Wrentham street, manager of production planning and reproduction department.

Howard L. Hornbeck, Woodstock, project engineer of the assembly analysis and routing analysis departments.

The three are graduates of Kingston High School.

RESIDENTS of other areas promoted to positions at the Kingston Plant are:

William J. Teegan, 6 Schoolhouse Lane, Poughkeepsie.

Chester P. Baccari, 16 Memory Lane, Poughkeepsie.

Arthur E. Guldenschuh, 115 Phyllis road, Wappingers Falls.

Backgrounds of the six as furnished by IBM public relations are:

Boyce joined Poughkeepsie IBM plant in 1948 as an assembler in the key punch department, became dispatcher in 1952 and transferred to card assembly in 1954 in that capacity. In 1954, he became technical assistant to project manager and held the post until his promotion.

A NAVY veteran of World War 2, he is a member of IBM Country Club. Mr. and Mrs. Boyce and two daughters live here.

Barten became a clerk in the planning section of the production control department at Poughkeepsie plant in 1951, advanced to other positions in the department and most recently was departmental technician in the project high planning and reproduction department.

He is a member of the Country Club, a navy air force veteran of three years service. Mr. and Mrs. Barten have two children.

Hornbeck attended St. Stephen's College, joined Poughkeepsie IBM in 1951 in the tool engineering department and has continued in that type of work since then. He was transferred to Project High in May 1954. Hornbeck is a member of IBM Country Club, Woodstock Motor Club, Wiltwyck Hose Company of Kingston, and Sigma Alpha Epsilon Fraternity.

Mr. and Mrs. Hornbeck have three children, including a son, Howard Jr., who went from IBM to the marine corps, and a daughter, Mrs. Phillip Kenny Jr., employed at Kingston IBM plant.

Teegan, who served four years in the army, has been with IBM since 1952, and in Kingston production control department since November 1954. He belongs to the Country Club, IBM Study Club, American Legion and the Croft Fire Department. The Teegans have four children. He has a BS degree from Boston University.

Baccari, a graduate engineer, joined IBM in June 1950 as a member of the general engineering training program at Endicott. He went to Poughkeepsie plant in 1951 and served in various engineering posts until his transfer here.

A VETERAN of more than three years in the army signal corps, he is a member of IBM Country Club, Study Club, Tau Beta Pi and Sigma Zi. Baccari received his bachelors degree in electrical engineering at Rensselaer Polytechnic Institute. He and Mrs. Baccari have three children.

Guldenschuh joined IBM in 1941 as an inspector in card manufacturing at Endicott. He went to Poughkeepsie in 1951 and was promoted to administrative assistant to the defense quality control manager in 1952, continuing in the post until his recent appointment.

He served two years in the army air force, is a member of IBM Country and Study clubs, vice chairman of the Mid Hudson Section, American Society for Quality Control and vice president of the Ridgeview Village board of directors. The Guldenschuhs have three daughters.

Girl and Fleeing Man Lose Lives In Burning Car

Jersey City, N. J., Feb. 10 (AP) —A wild auto chase ended in flaming death early today for a man pursued by police and a terrorized teenaged girl he forced at gunpoint to drive him in a getaway attempt.

The innocent victim of the tragedy was identified as 17-year-old Constance Cobb, of Milltown. Police identified the man tentatively as Leonard Pasco, 23, who had lived in Bound Brook a year ago.

The car, driven by Constance while Pasco held a gun at her neck, bumped into a Hudson county patrol car which was set up as a roadblock on the Pulaski Skyway.

THE VEHICLE skidded, flipped over and burst into flames. The girl and Pasco were trapped inside and perished despite police efforts to get them out.

Late last night, Pasco was picked up by a Milltown patrolman because he looked suspicious. His trousers were soaked to the knees. As Patrolman Hylan Petri was taking Pasco to headquarters, the latter drew a gun, disarmed the policeman and fled.

In his flight, Pasco came upon a car parked in a deserted spot in nearby North Brunswick township. Inside were two young couples, including Miss Cobb.

PASCO ORDERED all but Miss Cobb out of the car. Then he forced her to drive him north along Route 1. A police alarm was broadcast immediately.

The car was spotted in Elizabeth, about 20 miles from Milltown, by Motor Vehicle Inspector James Philburn, who gave Chase. He said he saw a gun held at the girl's neck.

Two motorcycle policemen joined the case at Newark while the roadblock was set up at the Pulaski Skyway here.

Then came the flaming crash in which the girl and Pasco burned to death.

Milltown police said Pasco had a previous record, and was out on parole.

The three youngsters with Miss Cobb before she was forced to drive Pasco off were Bert Powell, 17, of Milltown; Romeo Le Sebvre, 21, East Brunswick, and Roberta Hook, 15, of New Brunswick.

Guard for Lights

Cranford, England, Feb. 10 (AP) — Cranford's chief of police put a guard yesterday over the lights in a new highway tunnel here. Neighborhood kids had discovered the globes were just right for space helmets.

Nicaragua is about the size of Michigan.

Street Lighting Types Discussed

Robert L. Strickland of Central Hudson Gas and Electric Corp. discussed street lighting, particularly as it relates to Albany avenue extension, in a talk before the Ulster-Albany Avenue Business Men's Association Tuesday night at Ulster Hose Company.

Strickland described different types of lighting and Central Hudson experience in the field.

The first annual banquet of the association will be held at the PVI at 6:30 p. m. Sunday, Feb. 13, at which time Albert Kurdt, executive secretary of the Kingston Area Chamber of Commerce, will be the principal speaker. Mayor Frederick H. Stang is expected to attend.

Jack Lipton, president of the association, presided.

Hurley Scouts Fete Birthday at Dinner

A dinner celebrating the 45th anniversary of the Boy Scouts of America was held at the Hurley Reformed Church Tuesday evening for members of Troop 20 and their parents. The meeting was opened with prayer by the Rev. H. C. Schmalzriedt, Jr.

Troop 20, sponsored by the Hurley Reformed Church, was reactivated about a year ago and has made large gains in promotions during the period. John Kemble is the scoutmaster.

Edmund Czerwinski, institutional representative, opened the meeting. Dinner was served by mothers of troop members, and a brief entertainment followed. Approximately 75 boys and parents were in attendance.

Says He Choked Her

Mount Vernon, Feb. 10 (AP)—A bridegroom told police today he strangled his bride in an argument just after they finished decorating their home for a gala party next Saturday night. Police quoted Charles D. Jones, 41, a baggageman, as saying he choked his wife to death last night in a dispute as to whether their new car should be registered in his name or hers. They were married Jan. 2 in Elizabeth, N. J.

95 Per Cent Opposes

Washington, Feb. 10 (AP)—House Democratic Leader McCormack of Massachusetts urged the administration today to reconsider proposed army manpower cuts and said 95 per cent of House Democrats are opposed to them.

Commend Eisenhower

Hartford, Conn., Feb. 10 (AP)—The Connecticut State House of Representatives commended President Eisenhower yesterday for "aiding Nationalist China in resisting tyranny and Communist armed aggression." The House, Republican-controlled, voiced its approval of the "statesmanship of our beloved President" in a resolution which asserted that Congress has "given notice to the Communists that we are a people united in our purpose to resist further Communist aggression."

U. S. Officials Confident

Washington, Feb. 10 (AP)—Soviet Foreign Minister Molotov's boast that Russia holds superiority in hydrogen bomb development may refer to discovery in 1953 of a short-cut method for triggering the fusion explosive. But if that was the case, American officials are confident any temporary advantage the Soviet held has since been overcome.

Treaty Approved 64-6

Washington, Feb. 10 (AP)—For the second time in two weeks, the Senate in effect has told Communist China to keep hands off Formosa. By a lopsided 64-6 vote, the Senate last night approved a mutual security treaty with Nationalist China pledging American military might in defense of Formosa and the nearby Pescadores Islands.

Soviet Army

tions, the 80-year-old British leader showed the shakeup in Moscow this week has not lessened his desire for talks at the top level aimed at easing East-West tensions.

He told a Laborite questioner in the House of Commons:

"The policy of the government is to seek a four-power conference at a time when it seems likely to yield genuine results, but that occasion is not likely to occurs until after the ratification of the London-Paris agreements."

Friendship May Have Bearing

Washington, Feb. 10 (AP)—President Eisenhower may invite Russia's Marshal Georgi K. Zhukov to visit him someday, but the experts are not betting on it.

There are too many problems, hostilities and suspicions between Moscow and Washington to make such an invitation possible now.

One of the President's associates said he does not see "a chance in a million" for such an invitation. State Department officials label the whole question "premature."

Yet diplomats said that in some special future circumstances the friendship which developed between Eisenhower and Zhukov when they were allied military leaders in Berlin at the end of World War 2 might prove useful to both countries.

Reuther's View

Washington, Feb. 10 (AP)—Labor and farm representatives told Congress today President Eisenhower's economic report fails to come to grips with new problems involved in expanding employment and production and robot assembly lines. CIO President Walter Reuther said the report did not mention "automation" even though "it marks the second phase of the industrial revolution" and is going to "revolutionize production."

Flu Epidemic

Tokyo, Feb. 10 (AP)—Tokyo's flu epidemic has sickened 8,317 children, Kyodo News Service reported today.

Control . . .

housing shortage is still with us in all its severity," declared that "the unscrupulous owner would have a field day" if controls were lifted.

Abrams presented the administration's program, including:

A two-year extension of the act; recontrol of buildings converted to dwellings since Feb. 1, 1947, and units converted by subdividing apartments since the same date; limiting 15 per cent increases on vacant apartments to two since 1953; and added safeguards against "exorbitant profits" in rents and rent spirals.

While the hearing proceeded, Assemblyman Eugene Bannigan and Sen. Francis J. Mahoney, the Legislature's Democratic leaders, introduced bills to implement the program.

SHORTLY AFTER Abrams spoke, Harriman announced the administrator's appointment to the rent commission, to fill a position vacated in December, 1953, by the resignation of D. Mallory Stephens of Brewster, Carlino's predecessor as chairman.

The 15 members of the commission serve without salary.

Atty. Gen. Jacob K. Javits, a Republican, was the first witness at the hearing. He recommended extension of the rent law "for at least two years, with a change to local controls thereafter or sooner, if possible."

The Metropolitan Fair Rent Committee, an organization of real estate boards and taxpayers in the New York city area, offered a program for what committee counsel Robert S. Fougner called "equitable relief" for landlords.

THE COMMITTEE asked:

"A hardship adjustment of rents to cover increased operating costs; decontrol of luxury apartments, decontrol of vacant apartments, and use of the current equalization table as the basis for calculating property values."

Fougner presented charts indicating rents in New York city had risen 23.3 per cent since March, 1943, while real estate taxes in the same period had gone up 31 per cent, wages of apartment employes up 100 per cent, coal 97.2 per cent and fuel oil 52 per cent.

Abrams, in a statement rebutting the committee's argument, declared its presentation contained "several errors, distortions and examples of misleading evidence."

Islands Are . . .

overhead protecting the critical military withdrawal.

CIVILIANS already had been removed. Most of the refugees already were on the Nationalist bastion of Formosa 200 miles to the south.

Nationalist sources said the withdrawal had been completed on three outlying islands, the Yu Shan group 35 miles northeast and Pishan 32 miles southwest of the Tachens.

The government announced a decision to pull out the 1,765 civilians on Nanchishan, 80 miles south of the Tachens. But official quarters said the military garrison would remain there and probably would be strengthened to maintain the island as a northern shield for Formosa.

"The Tachen withdrawal reels our front back 80 miles, and that's enough a Nationalist officer said.

AP CORRESPONDENT Jim Becker reported from the Tachens that Nationalist troops were "blasting into uselessness a labyrinth of caves and tunnels."

"Seemingly endless streams of brown-clad soldiers sloshed through the mud, lugging boxed mortar shells, hand grenades and machine guns which never will be used to defend this northernmost outpost," Becker said.

"The Communists are blasting too, on the low brown island of Yikisngshan only eight miles away.

"IN THE CHOPPY, brown muddy waters off the (Tachens) beaches, small landing boats maneuver around the burned hulk of a long LST (landing ship, tanks) sunk by the Communists in shallow water during a bombing before the evacuation started.

"It seems a symbol of defeat and retreat.

"Hard-bitten Rear Adm. Lorenzo Sherwood Sabin, Jr., squints at the LST and the empty villages of the Tachens from under his two-star helmet and says:

"'I hope this is the last piece of real estate we give away to the Communists.'"

Edison to Build

for the construction of a 200,000 kilowatt atomic power plant.

Last November the company purchased a former amusement park site on the Hudson river, south of Peekskill, N. Y., which an official said "might be suitable" for an atomic plant.

THE COUNTRY'S FIRST commerical atomic power plant is being built at Shippingport, Pa., by the Atomic Energy Commission and the Duquesne Light Co., Pittsburgh. This will be a 60,000 kilowatt plant.

The AEC is contributing a portion of the costs as part of the reactor development program, and Duquesne Light will pay AEC for the steam the reactor produces.

The Con. Edson plan was said to call for fully commercial operation. All the company would want from the federal government would be the right to purchase or lease from it the fuel, which only the government can own.

Only Bolivian Indians are able to work the country's tin mines, located at altitudes of 12,000 feet or higher, because of the thin air of the Andes.

Taxless Pay Check

Baton Rouge, La. (AP)—Forty-two years ago C. J. Smith, now a Baton Rouge oil refinery employe, worked for one day as a fireman on a Kansas City Southern Railway Co. locomotive at Shreveport, La. and didn't get paid. Recently he wrote the company about it and soon received a check for $2.90—with "no deductions." "I just wanted to see what would happen," Smith explained before turning the money over to charity.

During its 10-year span of productivity, the average coffee tree produces about 30,000 "cherries," the equivalent of only 15 pounds of coffee.

THE RUMINATOR

By HUMPHREY B. NEILL

A Column of Contrary Opinion

It begins to look as if the public is determined to hop into the stock market at about the time when one might think it more prudent to be somewhat cautious.

Public psychology is an interesting study. If there is one thing the stock-minded public never seems to be able to withstand is rising prices. That is why in the old days, when pools and manipulation existed, big operators would "jiggle" stocks around and make them appear very active on the tape. By constantly working prices higher, as they kept stocks boiling, they were able to attract the attention and the participation of the "little fellow"—the public trading element. Then, when they attracted a following, and operators could unload the stocks they had been carrying.

TODAY, SUCH manipulative operations are outlawed. In consequence, it takes a much longer time to get the public into the market. In the past 15 months, for example, while the stock market has been rising almost perpendicularly, the public has been "shy" and wary of "getting in." Indeed, according to odd-lot transactions (which reflect the activity of small traders and investors), the public has been selling more stocks than they have been buying.

Recently, however, there has been a marked reversal of this condition; there has been a definite balance of buying over selling in the odd-lot figures. (You can find these figures daily in the metropolitan papers and in the Wall Street Journal, if you're interested.)

Looking back, it is an interesting commentary on human nature that the public thought a 300 level in the Dow-Jones index was "high," a year ago, whereas now at 400 the public is revealing the "urge" to jump in.

THE RUMINATOR brings up this stock-market discussion this week because of two rather important reasons:

When the public becomes actively interested in the market, after a prolonged rise, it has frequently been a suggestion that there might be a rather substantial set-back in prices not far ahead.

There is to be an inquiry into stock-market and Wall Street affairs within a couple of weeks and it would seem unfortunate for such an inquiry to take place as the public "gets in."

The inquiry (they say it is not to be an "investigation," but merely a friendly inquiry) is under the sponsorship of the Senate Banking and Currency Committee; the chairman being the junior senator from Arkansas, J. William Fulbright.

WHILE THERE is no reason, perhaps, to doubt the senator's desire for a quiet, dignified study of "why" the stock market has gone up for over a year, and "who" and "what" make prices rise and fall, the Ruminator does not believe you can rule out the probability of the inquiry's getting off the track. I cannot imagine that when discussions start there will not be many appearing before his committee who will grab the opportunity to take pot shots at Wall Street.

THERE ARE BOUND to be some observers who will say the market is too high, that it has gotten out of hand, and so on. There will be talk of "cliques" and big-business groups who control the stock market, and various innuendoes pointed at Wall Street.

As I mentioned above, it is unfortunate that the public is now just beginning to jump in the market actively, because this is sure to be brought out. Likewise, it is unfortunate that there have been so many flare-ups in certain stocks recently. This, too, will be brought out as suggestive of harmful speculation.

This writer has left for sometime that speculation might be getting out of hand, but he dislikes to see too much ammunition put in the hands of those who will appear before the committee with an axe to grind. There are still a great many people who are opposed to Wall Street. So I think it is quite likely you will see some activities which will not be exactly quiet or dignified when the inquiry gets under way.

FURTHERMORE, I should guess that information and emotional reactions will be created by the Fulbright inquiry that could react unfavorably against the present level of prices. It just doesn't seem probable that such an inquiry will wind up giving a complete bill-of-health to the market's present status. There will be talk of "too many mergers" — "too many sharp hops in prices" — "too much similarity to 1929." I think caution is indeed advisable.

State Ceremonies

New Delhi (AP)—Prime Minister Jawaharlal Nehru says pomp and pageantry are justified on state occasions—to bring color into the lives of people whose existence often is drab. The prime minister was defending an appropriation of $4,200 for the construction of a shelter and tank for an elephant on the grounds of the president's house. The elephant will be used in state ceremonies.

AMERICAN MENU

Sour Cherries Are Base for Washington's Birthday Pie

FOR WASHINGTON'S BIRTHDAY, sour cherry pie with pastry hatchets is the perfect dessert.

By GAYNOR MADDOX
NEA Food and Markets Editor

We just tried a cherry pie recipe and everyone in our house thinks it would be perfect for Washington's birthday. It uses canned sour cherries and quick-cooking rice cereal as a thickening agent.

Washington's Birthday Pie
(Yield: 6 servings)

Two tablespoons quick-cooking rice cereal, 1 cup light brown sugar, firmly packed, ¼ teaspoon salt, ⅛ teaspoon allspice, 2 No. 2 cans water-packed sour pitted cherries, well-drained, 1 cup liquid drained from cherries, 2 tablespoons sherry or cognac, if desired, 9-inch baked pastry shell, 6 hatchet-shaped pastry cutouts.

Combine rice cereal, brown sugar, salt, allspice, well-drained cherries, and 1 cup liquid from cherries in 2-quart saucepan. Cook, stirring frequently, until mixture comes to boil. Lower heat and let simmer for 5 minutes. Add sherry or cognac, if desired, and remove from heat. Cool, stirring once after 15 or 20 minutes. Pour into pastry shell just before serving and garnish top with hatchet cutouts.

Here's another recipe that could be used for Washington's birthday. It uses sweet maraschino cherries.

Cherry Souffle
(Yield: 4 servings)

One cup milk, ½ teaspoon salt, ¼ cup quick-cooking rice cereal, 2 tablespoons butter or margarine, 3 eggs separated, 3 tablespoons finely chopped maraschino cherries, 2 tablespoons lemon juice, 1/3 cup sugar.

Scald milk in top of double boiler. Sprinkle in salt and rice cereal and cook until thick, stirring constantly, about 3 minutes. Lower heat, cover and cook 5 minutes more. Stir in butter or margarine, and cool slightly. Beat egg yolks until thick and light. Stir in chopped cherries and lemon juice and beat until smooth.

Add a few spoonsful of the cooked rice to egg yolk mixture, beating constantly. Stir egg mixture into rest of cooked rice. Mix well. Beat egg whites until stiff enough to hold a peak, gradually adding sugar. Gently cut and fold egg whites into rice mixture. Pour into deep 1½ quart baking dish, which has only the bottom oiled. Bake in moderate oven (350 degrees F.) until puffed and lightly browned, about 40 to 45 minutes. Serve immediately.

TOMORROW'S DINNER: Sauteed salmon steaks, lemon, parsley and butter sauce, boiled potatoes, broccoli with Hollandaise sauce, hard rolls, butter or margarine, Washington's birthday pie, cheese, coffee, tea, milk.

CE Banquet Held At Comforter Church

The Youth Week Christian Endeavor banquet, sponsored by the Ulster County Union was held at the Church of the Comforter on February 4 with the Rev. Levone Fairbanks, pastor of the South Westerlo Congregational Church as master of ceremonies.

A songspiration was led by Dick Talleur and solos were sung by Curry Freer and Margaret Danford. After enjoying supper and talks by Bev Reese, Jean Suppies, Lizabetty Masarech and Gus Rascke there were slides on last year's convention.

Before the devotions by Stone Ridge C. E. Society, a quartet composed of Margaret Danford, Curry Freer Marianne Purhamus and James Nerone sang God So Loved the World, accompanied by Dick Davis of New Paltz.

A movie Where Love Is was enjoyed by all and the choral benediction was The Lord Bless You and Keep You sung by the quartet.

Members are looking forward to the convention in Hudson on May 27-30.

Charles L. Troll Elected to Head Church Men's Club

Charles L. Troll was elected president of Trinity Lutheran Men's Club at a recent meeting.

Also elected were Frank Doyle, Jr., vice-president; Joseph Leiching, secretary and Philip Trumpler, treasurer.

The club will hold its next meeting Monday, Feb. 14, at 7:30 p. m. in the assembly room. All members are requested to attend as are visitors. Entertainment and refreshments are planned.

Miss Leah Schultz, CharlesEdwardsWed In Candlelight Rites

Miss Leah Charlotte Schultz, daughter of Mr. and Mrs. Edwin Brandow Schultz of 89 Downs street, became the bride of Charles McMurdy Edwards, son of Mr. and Mrs. Omer H. Edwards of Stamford, in a double ring candlelight ceremony held Sunday at 4 p. m. at First Presbyterian Church. The Rev. William J. McVey officiated.

Miss Edna Merrihew, organist, played the following selections: Lohengrin Wedding March, Cantilene in A Flat by Wolsterholine, At Dawning, Cadman, My Heart at Thy Sweet Voice, Saint-Saens, and Mendelssohn's Wedding March. The church was decorated with palms and white gladioli.

Given in marriage by her father, the bride wore a gown of marquisette over taffeta fashioned with a bodice and peplum imported lace over marquisette, and a long marquisette train. A headpiece trimmed with forget me nots secured an heirloom veil, which had been worn by the bride's mother. She carried a bouquet of white gladioli and ivy.

Miss Barbara Diana Schultz, sister of the bride, served as maid of honor. She wore a gown of heliotrope blue lace over champagne colored taffeta and carried a bouquet of red gladioli and ivy.

Simon Lawrence, brother-in-law of the bride, served as best man. The ushers were Harford Shultis and Chester A. Baltz, Jr.

Following a reception held in Ramsey Hall for 70 guests, the couple left on a motor trip through central New York state. For traveling, the bride wore a navy blue suit and topcoat and a corsage of red roses. On their return, they will live at 268 Washington avenue.

The bride, a graduate of Kingston High School and Moran-Spencerian School of Business, served three years with the WAVES. She is secretary at the YMCA.

The bridegroom, a graduate of Stamford High School, served with the Army in Europe. He is employed at Adirondack Transit Lines, Inc.

Concluding the meeting, refreshments were served during an informal get-acquainted hour. Miss Richards and Miss Carolee Leware were hostesses throughout the afternoon.

MEMBERS of the Ulster County Girl Scout Council attending the meeting were: Mrs. David Ennis, program chairman and recently appointed Senior troop leader; Mrs. Kenneth Martin, County Advisor and Mrs. Donovan Buehring, Ulster County Girl Scout Council president.

SENOR GIRLS attending the affair included: Patricia Gendreau, of Port Ewen; Ellen Carney, Kathleen Byrne, Nancy DeWitt, Connie Ambrose, Detty Ambrose, Lyn Heany, Helen McDermott, Marlene Hollenbeck, Carol Scism, Carol Rylance, Lorraine Etienne, Karj Storhaug, Gail Peipper, Mary Whitford, Mary Ann Richards, Carol Kinkade, Mary Mc Dermott, Carolee Leware, Elizabeth Mariano, Emily Bight.

Palsy Mother's Club Will Buy Equipment To Assist Center

The Cerebral Palsy Mother's Club is planning to purchase a movie camera and projector for use at the center to record progress of patients. Purpose of the club is to aid in operation of the Center, providing a few of the necessary items, not otherwise attainable.

The Center operates on a nonprofit scale and is assisted by the Mothers Club as well as by other organizations.

Serving on the hospitality committee at the meeting held Monday at the Treatment Center were Mrs. George Clarke and Miss Kathleen Coughlin.

A special meeting will be held at the home of Mrs. Gerow Sleight, president, 5 Merilina avenue, Monday, Feb. 21 when a report will be given on the rummage sale.

Iron-on Designs In Colors

No embroidery! Just a stroke of an iron—lilacs in heavenly color blossoms on linens! The leaves are sprout green—the lilacs a beautiful shade of lavender. In seconds, beautify towels, tablecloths, sheets pillowcases, blouses. So thrifty, so easy to do; make wonderful gifts.

Jiffy! Iron on! Washable! Pattern 7108 has 10 lilac color designs with green leaves: four, 4x5 to 6x6¾; six, 2¼x3½ inches.

FASHION TREND? IS the short evening gown making a bid to replace floor sweeping models? At the Kingston Hospital Auxiliary dance held Saturday evening very formal dresses of net and nylon tulle with tight bodices and bouffant short skirts outnumbered the long gowns. Mrs. Austin Boyd reports the auxiliary is very pleased with the success of the dance as Governor Clinton Hotel Crystal Room and adjoining rooms crowded with couples dancing to strains of Larry Bloom's orchestra, becoming a tradition with the auxiliary. Mrs. Peter Corsones is this year's president.

FRANK R. DeWITT, father of Deweese DeWitt of this city, celebrated his 91st birthday Wednesday. (Freeman photo)

Local Resident Has 91st Birthday Party At Home of His Son

Frank A. DeWitt celebrated his 91st birthday at a party at the home of his son, Deweese DeWitt, Richmond Parkway, Wednesday. Also present at the party were Mrs. Deweese DeWitt, Mrs. Mary B. LeFever of Richmond Parkway whose birthday is the same date as Mr. DeWitt's, and the Rev. and Mrs. Paul Snyder and son Birchard, of Brunswick.

MR. DEWITT, who was born at Elyria, O., February 9, 1864, spent most of his life at Newfane, Vt., where for 51 years he was employed by the Windham County Savings Bank until his retirement in July, 1935.

For 36 years he was treasurer of the bank, and was treasurer of the town of Newfane for 24 years. He represented Newfane in the Vermont House of Representatives in 1910 and 1912 and was ranking member of the House Banking Committee.

The guest of honor represented Windham county in the State Senate in 1917-18. At that session he was chairman of the Senate Banking Committee and a member of the Senate Finance Committee which was under the chairmanship of Redfield Proctor who later became governor of Vermont. He and Governor Proctor are the only members of the 1917-18 Senate who are still alive.

HE IS A Past Master and 50-year member of Newfane Grange and Past Master of Windham County Pomona Grange. He is a Past Master and 50-year member of Blazing Star Lodge 23, F & AM of Townshend, Vt., and a member of Fort Dummer Chapter RAM and Beauseant Commandery K. T., of Brattleboro, Vt.

AFTER HIS retirement from the bank he moved to Brattleboro, Vt., and lived there until the death of his wife on Sept. 6, 1953. Since that time he has made his home with his children, Deweese W. DeWitt of Kingston, Colonel Ralph B. DeWitt USMC of Alexandria, Va., Frank DeWitt Jr., of Charlotte, Vt., and Charlotte, wife of the Rev. Paul Snyder (formerly of Kingston) and now of Brunswick. In 1954 at the age of 90 he went to Florida by himself for three months.

In Sept. 1954 he had a serious illness and entered the Millonig Nursing Home in Kingston. Since then he has recuperated to the point of going out again and spends part of each weekend at the home of his son D. W. DeWitt of Richmond Parkway.

HE HAS a remarkable memory and can name exact dates of places and items of historical interest. All of the dates in connection with this item were given by him from memory. Still plays a keen game of cribbage and can recite long selections memorized many years ago when he was taking part in amateur theatricals.

Mr. DeWitt married the former Lena M. Ware of Hillsboro, Ill., at Chester, Vt., August 24, 1898. He has twelve grandchildren and two great grandchildren. Through his mother, Charlotte Birchard, who was a cousin of Rutherford Birchard Hayes, Mr. DeWitt is related to the former president.

Schoentags Blast 3154 to Take Over Second in Gross Division

Broskie Fires 248; Grecos Pound 1116

With the five-man events of the 18th annual Kingston Bowling Association's tournament over the half-way mark, Wilber Heating's 3178 is beginning to look more imposing than ever.

The top gross total, compiled on the opening night, weathered two more full squads Wednesday night at the Central Recs with Schoentag's Hotel of the Central Rec Major League coming the closest to a challenge with a hefty 3154 blast on scores of 1032-1102-1020.

Harold Broskie ended Jackie Feraro's one-night stand at the head of the high net single department with a 248 shot and a 665 gross series. Broskie's 632 net also topped last night's keglers.

Three of last night's squads vaulted into the top five places on the standing board.

GRECO BROTHERS of the Ferraro Classic wheel amassed a gross total of 3122 for third place and Ulster Engineering of the Ferraro Mixed League took over fourth with 3095. Elston Sport Shop, second place team until last night, dropped to fifth as the result of the heavy pinfall throughout the 7 and 9 p. m. shifts Wednesday night.

Greco Brothers, with all but one man going over the 600 gross total, cracked a new high team gross game of 1116, eclipsing the former high of 1108 held by Elston Sports.

Tommy Carlino nudged the pot-bellied maples for a 655 gross on 201-221 for Schoentags while Fred Ferraro smacked 208-627 and Bill Schabot 200-610 to trail Broskie's 665 pacer. Ed Heins followed with 200-597 gross.

Topping Greco Brothers' 3122 for third place was Aaron Bahl with a 661 gross while Jake "Scribe" Chichelsky battered 200-639; Howie Brooks 620 and Jack Shienvold 215-619. Dick Waltman had 583.

FRANK PASSER'S 668 gross series, high for the night, sparked Ulster Engineering into the fourth place position. Bill Trinkle had 620; Phil Sinagra 602 and Art Kubicek 661.

Broskie, who fired the new high net single of 248 on the opening shift, nearly saw it go by the boards in the aftermath when Joe Beggs of the J. D. Dairy Bar squad unloaded 236. A break in the last frame halted his chances. The New Paltz league secretary finished with a 660 gross blast, one of the best of the night.

THIRTEEN TEAMS dropped off the standing board last night.

New additions, besides the top four, were Johnny's Drive-In with 3049, J. D. Dairy Bar 3033, Downtown Market 3027, Rookie's Tavern 2979, Conlin's Oil 2960, Sickler's Delivery 2945, Fatum's Shell Service 2934, Wonderly Company 2932, Guarantee Radiator Works 2931 and Greco Motors with 2898.

Low on the standing board after three nights of the five-man championships is 2891.

Trailing Frank Passer's No. 1 gross series of the night was Johnny Alecca who rapped 212-668. Harold Broskie, with his 248 singleton leading the way, fired 665.

OTHERS WITH top gross efforts were Tommy Carlino with 202-221-655; Art Kubicek 661; Jim Conlin 205-661; Joe Beggs 236-660; Bob Smith 203-643; Ben Chipman 203-637; Jake Chichelsky 200-639; Aaron Bahl 661; Joe Sangi 218-630; Bob Glanz 633; Mike Mostransky 629; Howard Brooks 620; Leo Bechtold 623; Bill Trinkle 620; Herm Meyer 620; Fred Ferraro 208-627; Tom Orr 207-619; Art Shelightner 616; Ken Radel 616; Bruce Conklin 222-612; Bill Schabot 200-610.

Also Storm Nickerson 609 gross; Ray Otto 604; Herb Van Deusen 200-615; Al Kieffer 612; Joe McGrane 611; Whitey Crispell 204-225-612; Jack Sheinvold 215-619; Ad Jones 203-600; George Kuriger 608; Saul Goldfarb 201-601; Don Koeppen 606; Al Davis 201-601 and Phil Sinegra 602.

The rest of the top bracket found Ed Heins with 200-597; Junie Davis 214-589; John Lowe 203-583; Harry Wilber 202-562 and Larry Petersen, Jr., 205-595.

Greco Brothers of the Ferraro Classic, in compiling a new high team gross game of 1116, topped that division. Schoentag's Hotel followed with 1102. Ulster Engineering had 1083, Fatum's Shell Service 1077, Downtown Market 1072, Guarantee Radiator Works 1074, J. D. Dairy Bar 1060, Johnny's Drive-In 1059, Rookie's Tavern 1048, Sickler's Delivery 1047, Wonderly Company 1036 and Conlin's Oil 1030.

Old Pros Pace NBA Victories

(By The Associated Press)

Thanks to a couple of old pros—Bob Cousy and Harry Gallatin—the Boston Celtics and the New York Knickerbockers are back in business and the Eastern Division of the National Basketball Assn. is a three-cornered race again.

Cousy, the wizard of the hub, came through with a 33-point performance to lead the "crippled" Celts to a 104-94 victory over the eastern leaders Syracuse last night. The win cut the Nats' margin over Boston to one game.

IN THE FIRST game of the doubleheader at Boston, the Knicks outlasted Minneapolis 118-112 as Gallatin scored 30 and Carl Braun and Jim Baechtold 25 apiece. The Knicks trail Syracuse by two games and Boston by one.

At Rochester those two rookie whizzes, Frank Selvy and Bob Pettit, took personal charge of the Milwaukee Hawks and guided them to a 75-74 triumph over the Royals.

Named Line Assistant

Frank Johnston, freshman football coach at Notre Dame last year, has been hired as assistant line coach by the University of South Carolina. He will report for winter workouts Monday.

COOL FUN — Sir Gordon Richards, only British jockey ever knighted, goes in for curling at St. Moritz, Swiss winter resort. He retired after being injured in a track spill.

Skyline Nips Rapps In Thriller, 57-56

Except for a first period edge by 10-9, Skyline made an uphill fight the rest of the way to register a thrilling 57 to 56 decision over Rapp's Express in the YMCA Basketball League Wednesday night.

Tom Stenson, who paced the winners with 25 points, decided the outcome with his two conversions in the last four seconds on the clock. Stenson's 25 markers also stood up as the high total throughout the three games.

The Expressmen vaulted into a 24 to 22 lead at halftime and still looked like winners with a 43-36 bulge at the end of three periods of play. Then Skyline found itself and poured in 21 pointers in the final session to win the squeaker.

FRANK TIANO had 18 for Rapps while Bob Kozlowski hit for 11 and J. Tomaseski had 10. Jack Schrader had 10 for the Skylines.

Harry's Angels, meanwhile, took a 69 to 52 win from Valley Gardens and the Blacktops won by 53-42 over Turcks.

Bud Scheffel poured in 19 for the Angels, Champ Holstein followed with 18, Bill East and Ward Dunham each contributed 12 apiece for the winners. Perc Greene had 15 while Cliff Schoonmaker and Marty Andersen accounted for 14 apiece.

Joe Markle and Rich Nagele were the big guns for the Blacktops with 19 and 17 points respectively. Rich Richards had 10 for Turcks.

Hawks Continue Mastery at Garden

(By The Associated Press)

If the Chicago Black Hawks had their own way, they'd play all their National Hockey league games in New York's Madison square garden.

The last place Hawks have met the Rangers six times on New York ice this season and have yet to be beaten there. Chicago tied the Rangers 2-2 last night, giving the windy city sextet three victories and three deadlocks at the Garden this season.

RUDY MIGAY'S pair of goals spearheaded the Toronto Maple Leafs to a 3-1 victory over the league-leading Montreal Canadiens in last night's other game. The setback cost the Canadiens a chance to gain ground on runnerup Detroit. Montreal remains five points ahead of the slumping Wings.

Baker Makes Early Work Of Opponent

Baltimore, Feb. 10 (AP)—Bob Baker, the Pittsburgh giant with the fragile hands, knocked Willie James last night into what could be fistic oblivion in 2:50 of the second round. The scheduled 10-rounder in the Coliseum was James' television debut and the hard-punching 207-pounder from Roxbury, Mass., had things his own way in the first round.

Baker, fourth-ranked heavyweight, took command right after the second round opening bell. A series of right hand punches finished the affair.

With 38 victories in 43 fights, Baker weighed 219¼.

Eddie Yost, third baseman for the Washington Senators, is a school teacher during the off-season.

NC State First With 20 Triumphs

(By The Associated Press)

It appears that if North Carolina State can't be the "fustest" among the nation's college basketball teams, the Wolfpack at least is going to try to be the team with the "mostest."

The Wolfpack, at one time No. 2 in The Associated Press poll but down to No. 7 this week, is the first team to win 20 games this season. They did it last night against William and Mary in a Norfolk, Va., arena jammed with 3,000 fans.

It was 126-99 for four-times beaten North Carolina state and that hit a new peak in the Wolfpack's sudden lust for scoring. In their last three games, the pack has scored 359 points. State is ineligible for the NCAA playoffs, incidentally, because of a probationary ban last spring.

ELSEWHERE, San Francisco kept its pace as the No. 1 team in the poll and the nation's defense leader with a 72-52 victory over College of the Pacific. Big (6-10) Bill Russell took charge of the boards and scored 27 points for the Dons in their 15th straight success.

Flo Beichert's 509 Tops League

Flo Beichert halted a brief slump with a 509 triple on sticks of 139-156-214 to headline the Pioneer Women at the Bowlodrome Wednesday night.

No. 2 keglerette was Gerry Reed who fashioned 487.

Others in the top echelon included Shirley Buckman with 444; Fritzi Davis 410; Dottie LaRocca 476; Adeline Ferraro 415; Mabel Chapman 409; Joan Krueger 434; Ev Seaman 449; Pat Zaccheo 463; Irene Maurer 472; Audrey Potter 409; Rose McDonough 439; Dolores Bailey 446; Gen Whitmore 401; Mildred Buddington 413; Helen McDougall 472; Carol Marks 426; Rita Amarello 459 and Ann Kirn 440.

Team results:

Junior Debs (2), Rapp's Express (1); Lincoln Park Inn (2), Berardis (1); Herzogs (3), Hayes-Jarrett (0); Worf's Rest (3), Potter Brothers (0); DeLuca Cleaners (3), Stone Ridge (0); Carnright Dairy (2), Jones Dairy (1).

Belmont Park Set For Big Overhaul

New York, Feb. 10 (AP)—Plans for rebuilding Belmont Park, long rated as New York's No. 1 race track, at a cost of 25 to 30 million dollars have reached the drawing board stage.

The Jockey Club, which favors merging of the four New York racing associations into one nonprofit group with possible closing of Aqueduct and Jamaica, released yesterday drawings calling for a complete overhaul of Belmont, first opened in 1905.

The plans call for demolishing and relocation of the present grandstand and clubhouse and the replacement of the mile and a half main racing oval with one a mile and an eighth in length.

Flashes and Nats Win Junior Games

The Flashes and Nationals rolled up victories in the Junior Rec Basketball League at the George Washington School gym Wednesday night.

Keizer and McDonough led the Flashes with 13 and 11 points respectively while Hunter was high for Madden's TV with 12.

Lucas paced the Nats to their 44-34 triumph over Powells with 14 markers. C. Williams had 12 for the losing quintet.

The scores:

FLASHES (43)—Keizer 6-1-13; McDonough 4-3-11; Sampson 1-0-2; Cosenza 3-1-7; Miller 2-2-6; Havens 1-2-4.

MADDENS TV (30)—Hunter 6-0-12; DeCicco 0-4-4; White 1-1-3; Gardeski 1-3-5; Tierney 2-0-4; Tiano 0-0-0; Carpino 1-0-2.

NATIONALS (44)—Haines 4-1-9; Hook 1-0-2; Juhl 1-3-5; Lucas 6-2-14; DeCicco 2-1-5; Perry 0-0-0; Perry 3-3-9.

POWELLS (34)—Williams 3-6-12; T. Childs 1-1-3; J. Childs 2-2-6; A. Levy 0-0-0; Gray 2-0-4; Levy 2-5-9.

Dick Hemric, Wake Forest's 6 foot 6 center, holds 19 individual school records in basketball.

Libel Suits Against Winchell Dismissed

New York, Feb. 10 (AP)—State Supreme Court justice dismissed libel suits totaling $800,000 filed against Walter Winchell by two men who contended he falsely called them "cancer racketeers" during his broadcatsts.

The actions were brought by Sidney Greenberg and Joseph L. Brandt, both of New York.

The plaintiffs also charged Winchell falsely called their organization, Cancer Welfare Fund, a "phony outfit."

Each sought $400,000 from Winchell and the American Broadcasting Co., which was named a co-defendant.

Winchell contended the broadcasts were fair comment and "not activated by malice."

Trial of the suits, which were consolidated, was before Justice Henry Clay Greenberg.

Phils Sign Lowry

Philadelphia, Feb. 10 (AP)—The Philadelphia Phillies announced today the signing of outfielder Harry (Peanuts) Lowry, recently released by the St. Louis Cardinals.

Brookmeade Stable's candidate for Hialeah's $100,000 Widener is Toque. He is named after the knitted caps worn by French fishermen.

LEGAL NOTICES

NOTICE OF
SPECIAL DISTRICT MEETING
COMMON SCHOOL DISTRICT NO. 2 OF THE TOWN OF WOODSTOCK, ULSTER COUNTY, NEW YORK

The Board of Trustees of Common School District No. 2 of the Town of Woodstock, Ulster County, New York, hereby gives notice that a special district meeting of the qualified voters of said school district will be held at the main schoolhouse, in the hamlet of Woodstock, Town of Woodstock, Ulster County, New York, in said district school, on the eleventh day of February, 1955, at 7:30 o'clock p. m., Eastern Standard Time, at which the polls will be open between the hours of eight o'clock p. m. and ten o'clock p. m., Eastern Standard Time, for the purpose of voting by ballot upon the following proposition:

PROPOSITION

Shall the following resolution be adopted, to wit:

RESOLVED, that the Board of Trustees of Common School District No. 2 of the Town of Woodstock, Ulster County, New York, is hereby authorized to construct an addition to the present school building in accordance with plans and specifications heretofore approved by the Commissioner of Education of the State of New York, at a total estimated cost of $65,000; which sum of Sixty-five Thousand ($65,000) Dollars, or so much thereof as may be necessary, shall be raised by the levy of a tax in an amount not exceeding Sixty-five Thousand ($65,000) Dollars upon the taxable real property of said School District and collected in annual installments as provided by Section 416 of the Education Law; and, in anticipation of such tax, obligations of said School District shall be issued.

Dated, Woodstock, New York, January 14, 1955.
BY ORDER OF THE BOARD OF TRUSTEES OF COMMON SCHOOL DISTRICT NO. 2 OF THE TOWN OF WOODSTOCK, ULSTER COUNTY, NEW YORK.
By WINIFRID HUTTY
School District Clerk

CORNELL UNIVERSITY
STATE SCHOLARSHIPS

Notice pursuant to section 5710 of the Education Law as last amended by chapter 820, Laws of 1947, in effect July 1, 1947.

A competitive examination of candidates for the state scholarships in Cornell University, falling to the county of Ulster will be held on March 1-2, 1955 at each secondary school in the county where Regents examinations are regularly held.

These scholarships provide a reduction of $200 from the annual tuition fee charged by the University.

Candidates must be at least 16 years of age and of six months' standing in the common schools or academies of the State during the year immediately preceding this examination, and must be legal residents of New York State and citizens of the United States.

The examination will be in three parts. The first two parts of the examination will be given Tuesday morning and afternoon; the third part will be given Wednesday morning.

As previously, the examination will be based upon materials selected from those subjects or studies common to the school experience of all pupils.

There will be as many candidates appointed from this county as there are assembly districts in this county. Candidates will become entitled to the scholarships in the order of their merit.

Dated at Kingston, N. Y., this 8th day of February 1955.

activities would come from the CIO.

The key question of whether unions would be allowed to "raid" or seized each other's already - organized members was left open. Reuther had wanted a definite police system to stop this, but it was agreed only that "raiding" was a disease which ought to be discouraged.

The merger agreement contained intentions to include guarantees in the new constitution that would prevent racial discrimination among unions and effectively deal with union racketeers.

Henry G. Riter III, president of the National Assn. of Manufacturers and president of Thomas A. Edison, Inc., of West Orange, N. J., said the planned union merger would bring a threat of "dangerous monopoly."

"Monopoly is always costly to the public," he said in a statement, "and labor monopolies should be outlawed for the same reasons that business monopolies have been banned."

Riter said the merger "could have the beneficial effect of eliminating costly jurisdictional strikes throughout the nation."

Harriman Turns

dicated that 493 towns of the 535 answering the survey favored development by private industry.

Atty. Gen. Jacob Javits told the association that "local initiative and local responsibility" should be encouraged in local government where more home rule is practical.

HARRIMAN also said that if new state equalization rates on real property values were permitted to go into effect for aid to town road construction, most towns would receive only the "minimum of $27.50 a mile instead of up to $75 a mile."

"The amount of state aid under the 10-year town highway program would be reduced even more sharply and its effect more keenly felt on town finances," he said.

Financial and Commercial

New York, Feb. 10 (AP)—Using yesterday's new all-time high as a springboard, the stock market today launched a new drive ahead.

Yesterday's market as measured by The Associated Press average of 60 stocks got up to the highest level in its history.

Prices continued on up today with the aircrafts and steels well out in front and others going right along in the advance.

Gains amounted to 1 to 3 points frequently, and some rose more than that. Losses usually were cut off at a point.

Trading was at a fast pace that exceeded yesterday's 3,360,000 shares. There was a rush of trading in the first hour that put the high speed ticker behind twice in reporting actual floor transactions. The delays were brief.

Two Resign Posts

Washington, Feb. 10 (AP)—The Senate Juvenile Delinquency subcommittee has accepted the resignations of two staff members who wrote a series of articles about delinquency before the group filed a report on its findings. Sen. Kefauver (D-Tenn.) did not mention the Saturday Evening Post articles in announcing last night acceptance of the resignations of Herbert W. Beaser as chief counsel and Richard Clendenen as executive director. Kefauver and other subcommittee members last month had questioned the propriety of the two staff members' outside writing.

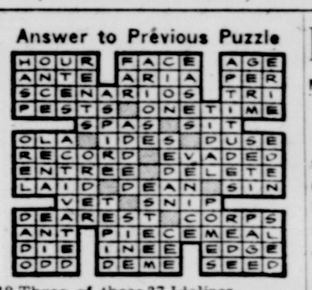
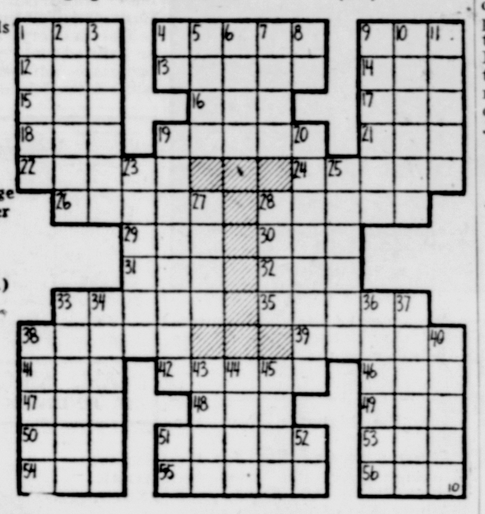
Answer to Previous Puzzle





Democrats . . .

body on Feb. 7, "we feel that in all fairness, a demonstration of bodies by other bidders should be arranged at a time when they can be observed by all members of the Common Council."

Bidders on the truck chassis also "should be allowed to display the equipment on which they submitted bids to the Board of Public Works. It is very possible, as Superintendent Steuding, said in justifying the recommendation of the Board of Public Works in regard to truck bodies without giving all the bidders a chance to demonstrate their wares, that the lowest bid is not always the best purchase for the taxpayer."

MAINTENANCE costs, they contended, "can sometimes be very expensive, and more than offset a difference in initial price."

"Again there is a matter of chassis style. The demonstration body was mounted upon a Ford truck chassis similar to the type recommended by the BPW for this use. The Gar Wood people found it necessary to add approximately 400 pounds of metal to the front bumper to balance the weight of the tail gate when it was extended for dumping. The Leach body is 800 to 1,000 pounds heavier than the Gar Wood, so it should require even more counterbalancing."

THIS COST, the statement said, "is not apprehended in the bids. It is felt that a cab-over-engine chassis, because of different weight distribution, maneuverability, visibility and saving in storage space might overcome many objections to a conventional chassis type. Storage space is a very important factor and should, we feel, have been taken into consideration by the superintendent of the BPW.

"In fact, we feel that the superintendent has been remiss in recommending the size of bodies for refuse removal. He points to our need for larger equipment because of our larger population, which is true, but he neglects, apparently, to take into consideration the fact that our disposal area is due to be changed."

ITS NEW location, they said, "will, of necessity, be on one of the outskirts of the city, or possibly even beyond the city limits with a consequent increase in the time and mileage required to empty the trucks."

At recent demonstrations, they said, "It was noted that the 16-yard body carried, in two trips, an amount of refuse equal to that carried in three trips by the 12-cubic-yard bodies. The emptying of the body becomes a very important factor when the time involved is translated into salaries and the mileage into maintenance costs and operational costs."

THEREFORE, they concluded, "it may be that four bodies of 20 cubic yards capacity, or two 20 and two 16-yard bodies would be more efficient, particularly for our future needs." Perhaps with a combination of sizes, the larger trucks could be used more effectively on the longer runs to route farther from the disposal area, and the others in the areas nearest at hand."

The statement said Steuding's reason for getting new equipment, "is not so mucn the present condition of the equipment as that the size is inadequate. The alternative would be the use of an extra truck (flat bodied) and crew. It was estimated by Mr. Steuding that this would cost the city $17,000 annually."

At the demonstration, they said, "a flat-bodied truck was observed picking up cartons of refuse. At approximately 11:40 a. m., it discharged its load simultaneously with the packer type body, and viewers estimate that all except one huge carton would have easily passed through the door of the packer type body and have been compressed into the load space."

IT SEEMS, the statement said, "that the new equipment, regardless of make, will make it possible for the BPW to eliminate the full-time use of one truck and crew in normal refuse collection. Especially if larger bodies result in fewer trips to and from the disposal area. If, as is evident above, the 16-yard bodies make four trip per day, as against six trips for the 12-yard equipment, the twenties should not require more than three. If we consider that the time of one trip may run as long as one hour to go and return, the importance of this point cannot be denied.

IT CONCLUDED: "We hold no brief for any product, but we feel that competitive demonstrations will aid us in determining whether or not we are getting full value for the taxpayer's dollar. We are being asked to approve the expenditure of this money, and we like to know where it is going."

Stolen Car Found

Police were notified today that the car of Mrs. Ella Van Kleeck, of 16 Elizabeth street, reported stolen Jan. 26 from near the Sea Grill Restaurant, Main street, has been located at Nashville, Tenn. A valuable tape recorder was inside the car at the time it was taken, police said.

Industrial Arts Teacher Hired

Douglas C. MacIntosh, a graduate of Oswego State Teachers College recently was appointed by the education board of Onteora Central School, as teacher of industrial arts.

A graduate of the Valley Stream, L. I., high school, he was a member of Epsilon Pi Tau, Industrial Arts Club, while in Oswego. He was also a member of the choir, band and orchestra, and acted as a counsellor in the men's dormitory. He did his practice teaching at Lynbrook, N. Y.

The education board, at its regular February meeting, discontinued the agricultural department and voted to enlarge the industrial arts department. MacIntosh was hired as an additional industrial arts instructor replacing Herbert Sparber, agricultural teacher, who resigned Jan. 28.

Union Elects Officers

At a recent meeting of the Hotel Restaurant Employes and Bartenders, Local 666, held at the Governor Clinton Hotel, the following officers were named for a two-year period: President, Peter J. Starr; vice president, Lester Locke; secretary-treasurer, Raymond F. Prusak. The trustees are Thomas Van Derzee, John Meyer, James Bisonett and Charles Greene. George Yerry Jr. was retained as business agent. Betty Bisonett was again appointed shop steward.

LAURA LOSEE of Port Ewen, area dealer for the German-made Volkswagen, "the people's car," stands beside one of the bus-type (station wagon) vehicles, pointing to the emblem, VW, for Volkswagen. (Freeman Photo)

Port Ewen Woman Sells 27 German Vehicles in 1954

One of the "hottest" automotive imports from European assembly lines these days is the Volkswagen—"the people's car," a German version of the Model T.

Laura Losee of Port Ewen, area dealer for the tight, tough little cars which can make up to 32 miles to the gallon, sold 27 during 1954, both passenger and commercial.

Laura Losee, who is really Mrs. Zale Liese, wife of a New York business man, is the only woman dealer for Volkswagen in the United States. For the purposes of the present story she will be called Mrs. Liese.

Two Volkswagen buses, each of which can accommodate eight persons, are now in operation on the Jack Lipton Bee Line. Lipton is planning to put five more in operation on a line shuttling between Saugerties and Kingston via Veteran. This line should begin operation within the next two months.

THERE ARE four passenger type vehicles, six commercial types and an ambulance, all in the low-price field. A sedan license plate costs $8!

According to Zale Liese, who communtes to New York daily from his home on South Broadway, Port Ewen, gas and oil for a round trip costs appriximately $1.53. A large make American car would cost closer to $5, he said.

Mrs. Liese got into the car business through her husband who operates a fleet of rental cars in New York. Liese knew the American distributor for the Volkswagen in the states of New York, New Jersey, Pennsylvania and Connecticut.

SO LAST April Mrs. Liese found herself in business for Volkswagen, the "queen of all small cars." Her office is located at her residence in Port Ewen. Incidentally, the Port Ewen television tower is practically in her backyard. In the near future Mrs. Liese hopes to build a dealer's showplace for the cars on Route 9W directly across the highway from her home.

Liese, a former flyer for the Canadian RAF and, later, the United States Air Force, is a business man of no mean savvy. For a number of years, before he acquired his present fleet of 300 rental cars, he was manager of music and entertainment for the Roxy and Paramount Theatres in New York.

MRS. LIESE was a receptionist for a New York doctor when she met her husband-to-be.

The Volkswagen plant in the little North German town of Wolfsburg about 100 miles west of Berlin, was built by Hitler to turn out "people's cars" for the 1,000-year Third Reich. During World War 2 it was 60 per cent destroyed by Allied bombs.

Boss of the factory, according to a recent story in Time magazine, is "Heinz Nordhoff, 55, a compact (5 ft. 10½ in., 165 lbs.) man with the steady eyes of a production whiz and the courtly manners of a diplomat. Six years ago both Nordhoff and Volkswagen were part of the wreckage as Germany itself lay in the gutter of the world."

A YEAR AGO Volkswagen estimated it was the fourth biggest automaker in the world, led only by the U. S. Big Three. Competitors conceded that Nordhoff was probably the best automan in Europe.

Time points out that in 1953 the plant's 20,000 employes turned out 180,000 buglike Volkswagens at the rate of one every 80 seconds, sent them "beetling" into the markets of 83 foreign countries . . . "It outsells all other cars in five European nations, and is so popular that stiff import restrictions have been slapped on it by Belgium, France and Italy. On the autobahnēn of Germany nearly one out of every two cars is a Volkswagen. In restriction-free Switzerland, Volkswagen sales lead all other makes, including American by a wide margin."

THE PLANT recently installed a third assembly line which has boosted production from 835 to 1,000 cars a day.

Mrs. Liese points out that the passenger vehicle—standard and deluxe sedans, convertible and sun roof—can be "parked with a smile." They are immensely mobile and have a remarkably small turning radius, she says.

They are provided with four gears of the old type shift. In first gear the passenger car can climb at an angle of 20.5 degrees, in second gear at an angle of 10.5 degrees. It has no springs of the coil type used in American-make cars but uses a "torsion bar suspension" technique which provides a "smooth cushioning," further increased by double-acting telescopic shock absorbers and low-pressure super-balloon tires.

HE COMMERCIAL types are the delivery van (panel truck), Kombi (combination van and bus), Micro Bus, Micro Bus De Luxe and pick-up.

The delivery van, which can be painted and "covered with appropriate advertising," has 162 cubic feet of load capacity. The cabe is roomy, seats three. Heater and wing ventilators are standard equipment and large doors opening on the sides afford easy access.

The Micro Bus is an eight-passenger vehicle rather like a station wagon, described by Mrs. Liese as "an ideal means of conveyance for quick shuttle service." The Volkswagon Micro Bus De Luxe has all-round vision, built-in-sun roof and extra-handsome fittings.

The Kombi is a "multipurpose means of conveyance for passengers or freight." The seats can be removed "in no time" to transform the Kombi into a handsome and practical delivery truck.

THE PICK-UP has two floors totaling an area of more than 65 square feet and can be loaded from both sides and from the rear.

Standard equipment for the Volkswagen ambulance includes two stretchers mounted at the same level on each side, and upholstered removable seat for carrying patients up and down narrow stairs, a well-upholstered seat for patients and a folding-seat for the medical attendant next to the patients. The cabin seats the driver and two stretcher bearers.

Pinay Abandons Efforts

Paris, Feb. 10 (AP)—Former Premier Antoine Pinay abandoned his efforts to form France's 21st postwar government today. President Rene Coty announced he would start new consultations seeking a political leader capable of winning majority support in the National Assembly. Pinay went to the Elysee Palace—the president's official home—to announce his withdrawal after first communicating his decision to a meeting of Conservative leaders supporting him. The cabinet crisis started with Premier Pierre Mendes-France's resignation last Saturday after he was defeated on an Assembly confidence vote. Leaving the palace, Pinay said the president had urged him to continue his attempt to organize support but he felt this was impossible.
